preducer. There is another reason why the trade suffered Mr. Douglas's forts is classed among the most at Port Richmond the present year-it required more capital to do business. By Canal the toll His speech created great excitement among the of 65 cents alone, was paid here weekly, and the freight was paid by the purchaser abroad -- but at Port Riebmond the tell and freight of \$1 80 per ton was required to be paid weekly by the dealer there. It is true there is a drawback of 40 cents to New York and vicinity, and 20 cents to the East, but the dealer was required to pay the full amount to the Railroad Company, and the drawback was only refunded after the Cual was shipped from Port Richmond. When money is easy of access this does not make a great difference but during a pressure in the money market, it materially cripples business requiring a large capital, as was the case this year. As a strong competition has sprung up for the trade of the Eastern markets at the shipping ports near New York, the Railroad Company will find it to their interest to fix a permanent rate of tells for the Eastfind it necessary to allow drawbacks, and will only find it necessary to allow drawbacks for the trade reached by Boats running on the Schuylkill Calundon Canal preferred until which of course, will not, in all probability.

trary.

No Coal will be sent to the shipping ports to be piled the present Winter by Railroad. The state of the money market will not permit it. Our readers will recollect that in advocating the construction of the Auburn and Allentown Railroad, we discarded the shipping port of Elizabeth City, by advice of Ellwood Morris, Esq., as not a proper place-but suggested the construction of a bridge over Newark Bay, with a draw at the channel, to be worked by steam power, (which is a narrow passage, the balance of the water being quite shallow,) and locating the shipping port near Borgen Point in the New York Bay, where the largest class of vessels can take in their Coal at the landings, the depth of water being equal, if not greater, than the depth of the water in the entrance to the Bay of New York. From this point the Railroad can be extended to Jersey City, a distance of 10 miles. The New Jersey Central Railroad Company are already moving in this

matter, and they have resolved to apply to the

supplies, so that the aggregate receipts at tide water for the senson are not likely to fall short much, if any, of those of last year. The demand for enrgoes is light. A high moral tone characterizes every article in THE LEDGEIR. In fact, the names of its leading contributors are a sufficient guarantee that it stands in marked contrast to a class of weekly publications that have for so long a time flooded the country, but which fortunately for the morals of our people, are almost extinct.

The Fut has been published; and in all that period—
through "good times" and through "bad times." through
bank inflations and bank contractions, through prosperous seasons and through panies—the Fut has been regularly issued every week, and forwarded to its thousands
of subscribers. Its proprietors, therefore, point to the
past as an unfailing index for the future. And they
feel that in asking of the resding public a continuance
of the patronage herstofore so liber lify bestowed upon
the Fut, they'are asking no more than what it will be
both the interest and the pleasure of that public to grant.
Among the contributors to the Fut, we may mention
the following gifted writers: be following gifted writers:
William Howitt, Alice Caret, T. S. Arteur, Gra GREENOOD, ANN BLACKWELL, ACUSTINE DOGANK, M.S. M. A. DENISON, EMMA ALICE BROWNE, The Author of "An Extra Judicial Statement," The Author of "Zillah, the Child Wedlom," &c. &c., &c. We design commencing in the first paper of January

Novelet, BY T. S. ABTHUR. Mr. Arthura productions are so widely known, that we need hardly say that the tone of the present Novelet will be entirely consistent with the moral, and instructive character which we have always striven to impress upon the Past. Readers who wish to perms the ylash stories which abound in the land—pernicious and destructive in their tendency and effects—an find them, we repret to say, at every corner. But the Past will still maintain its high character, as a paper which the most scrupilous parent may allow freely to enter The Family Circle; And which will parily and instruct, instead of demor-ising and corrupting the youthful mind. Repects will like conductors avoid, in the publication of the we-ly news, all those long and disgusting reports—unfor nately now so c

CALIFORNIA TOPICS.—The Californian papers, files of which have been received to the 20th ult., nies or which have ocen received to the 20th ult., continue to sgitate the question of the seaworthiness of the Central America, and indeed, of the whole line of steamers employed by the Pacific Mill Steamship Company. The had accommodation on these vessels, and the high charges for presage in them, are also severely, even angrily, condemned. April 25, 55
