Miss Angela Softon, a daughter of Mr. John sion." The News Letter is neat in appearance .-impossible to negotiate them in the market, upon any terms; and as soon as arrangements could be made for the payment of the coupons falling due on the lat of October, the Company suspended payment. Every effort was made to avert such a mistriune, but it was inevitable. Without the power to obtain any discounts or aid from any source, and with a trade and an income daily dissinishing, all that could be done, was to protect the secured claims, and keep the road in operation, by paying the necessary working expenses. This has been done from the ordinary income of the road, and it is expected that claims of the same nature will be provided for from the same source until March next.

The income will then improve as the spring trade opens. Reading Railroad.—On Monday, the winter arrangement for the passenger trains on the Philadelphia and Reading Railroad, went into effect. The same time tables that were in force during the two preceding winters—and which reduced the speed of the trains twelve minutes between Philadelphia and Reading, and eight minutes between Reading and Pottsville; making twenty minutes in all—again govern the running of all the trains except the up, morning train, from Philadelphia, which continues to run by the present time table, in order to make the connection with the westward train upon the Lebanon Valley Railroad. The hours of leaving Philadelphia and Pottsville remain unchanged.

The trains pass Reading, under this arrangement, at the following hours:

In order to offer the best security possible to the holdbe of the floating liabilities of the Company, it was decided that a new issue of bonds should be made, in accordance with the authority contained in the resolution passed at the annual meeting of the stockholders in January last, to bear interest at 6 per cent, per annum, payable half yearly, affectoryerfible into the stock of the Company at any time prior to 1st July, 1885. To secure these bonds, the manager have given to trustees a morigage upon all the property and franchises of the Company, which has been duly executed and recorded. As suggested in the last annual report, the loan secured by the new mortgage is for seven millions of dollars. Of this sum, it is proposed to issue, at present, only a sufficient amount to fund the floating debt of the Company, and to use the remainder only as opportunity shall offer, for the settlement of the bonds maturing in the year 1860.
