THE FAILURES IN THE MARKET THE financial difficulties in 1857, in England, were of greater extent than any which had previously occurred for a long time. There were no fewer than 1,429 bankrupties gazetted. Of these 7G, were in the country, and 664 in London alone. In Liverpool there were 113, in Manchester, 114, in Birmingham, 219, in Leeds, 124, and in Bri tol 101.

THE COAL TRADE.

The quantity sent by Railroad this week is 19,156 12 tons, which is an increase of 4,139 tons over the supply of last week, showing that the demand is increasing both on the line and for city consumption. At Port Richmond but little is doing. The demand for Chestnut Coal continues briak in consequence of limited mining, and the small quantity made.

March has really come in like a lion. Thursday night was the coldest of the senson, and the weather has not moderated in the least to-day.—

The season is evidently going to be a late one, and the opening of the different Canals will of course be retarded to some extent. However hard this delay will bear on those out of employment, it will result in a benefit to the Coal trade generdemand is increasing both on the line and for

No new rates have been promulgated by the weather and the action of each other. 

tion sales of Coal. If they had been continued much longer, we incline to the opinion, that the Company would have soon occupied a similar position, or being disposed of at Auction to the highest bidder. Tue Delaware, Lackawanna & Western Rail-

road Company in a circular dated February 17, 1858, offer the Scranton Coal, on board at Elizabethport at the following rates: Lump,

Grate or Fuznace, Chestnut. Terms cash. - It costs 40 conts per ton to deliver the Coal in New York from Elizabethport.

These rates range 20 cents per ton less than the opening rates of the Pennsylvania Company in Earl of Durham, the Spring of 1857.; The Pennsylvania Coal made rather/a had business of it—and Hetton Coal Company the Lackawarina & Great Western Company broke | Thornley & Kelloe, down last year under similar rates. What better prospects have they this year at largely diminished prices? It however amounts to a reduction of the transportation charges on their own Coal, into London by the several railways and canal in and secures a monopoly of the Coal business at the last two years: that point from Scranton. No other Company Great Northern, can pay the rates they charge for transportation North-Western, over their road, and sell Coal at these rates on board at Elizabethport, without a loss. This move only corroborates the position we

took some time ago, that no arrangement for the purpose of maintaining prices could be made this. year with the different Companies, because more Coal can be furnished than the market will require, particularly in the early part of the season, and consequently none of the mining Companies will be controlled by these arrangements. Whenthere is a full supply of any article forced on the market, it takes but a small extra quantity to effect the price of the whole product; and unless this Company can be prevailed upon to withdraw this circular and fix a higher rate, the few thousand tons of Coal they send to market weekly, will control the prices of the whole product, and the other Companies, having their shipping ports [Intlepool and West near New York, will find it necessary to conform to these prices in the early part of the season at Blyth, Scotch. least. Last year the trade suffered a heavy loss by Welsh, the action of the Pennsylvania Coal Companyand this year the Delaware, Lackawanna and Great Western Coal Company, has committed a similar folly by putting the rates lower than there was any necessity, even in the present depressed

If the rates at which the Scranton Company is offering Coal, are established at New York by the other Coal Mining Companies, our Carrying in-1857, by milroad, by canal, and by sea craft, Companies will be compelled to reduce their rates
was 4,386,528 tons.

As to the utility of employing screw colliers for proportionably, otherwise Schuylkill' County will be placed in the position of supplying only such where, we expressed our convictions in the Re Conl that those Companies cannot supply. Coal that those Companies cannot supply. The adoption of a sliding scale of tolls and freight by the different Companies has been auggested by a portion of the trade in order to induce those buyers who have capital to lay in their | gieter, Feb. 13. who mine, transport and sell their own Coal, been built in the State of Illinois. 10,444 3,133,459" REMARKS.—From the foregoing, it will be seen that the quantity of Coal imported into London, sea voyages from Philadelphia to Boston and elsement tending to their use, has yet been made i this city, we still look forward with confidence t

supplies early in the season. Those Companies . MESSES. LYON & HOYT'S COAL BREAKER -The Editor of the Brooklyn Daily Times states that he have heretofore adopted this plan. It would witnessed the operation of this Coal Breaker in the Pennsylvania Company's Coal Yard, at the

"During the portion of the day that it continued in operation, say about three quarters of an hour, fifty tons of lump coal were broken into sizes adapted to family use. The coals were fed from a hopper into an endless apron fitted with teeth, when a blow was inflicted with hammers from above, also fitted with teeth. Between the points of the two sets of teeth the coals were bro-ken as effectually as if by hand—the teetn rising inting the distance between which it was l tor," and was conveyed to the highest screen; bu respective heaps. The quantity of dust resulting from the fifty tons subjected to this process, was considerably less than one ton. The cost of the machine entitles it to as decided a preference over the existing breakers, as the

disproportion of waste. The proprietors inform us, that, inclusive of power, breaker, and screen, their machinery can be fitted up for from \$1500 to \$2500, having a capability of breaking 1000 tons per day. It will do as much work as five undred men breaking by hand." Coal Operators visiting New York ought to take the opportunity of seeing this Breaker. If it is great advantage in the small waste made. Lyon & Hoyt's Percussion Coal Breaker. Can be seen at their office, foot of North 10: Street, Williamsburg, New York.

WHITE ASH COLLIERY FOR SALE.

THE undersigned Lessessof the Lancaster Colliery, near the town of Engineering the mobile of the mobile of the said Colliery and attack of the said Colliery on satisfactory terms. This Colliery has been in openation since 1854, and has been successful beyond experience. tation.

The Coal is a superior article for all uses to which Anthracite is applied, and a good market has been established for it which can be extended.

The Breaker and strurps are of the very best character and in complete order, and will recommend themselves to persons acquainted with the business.

The Lean was to July 1, 1864, and is a Savorable one for the operator. For further information apply at the Colliery, in person, or by latter to Shamokin P. Oc.

CUCHRAN, PEALE & CO. February 13, 1858 COOD BARGAIN CAN BE HAD! THE SUBSCRIBER offers at private sale the old established works known as The Franklin Iron Works,

The property consists of turning lather, planing m ny person wishing to engage in the busic m-opportunity reldom offered. t Kirk & Baum's office, Pottsville. St. Clair, Feb. 24, 1858 VALUABLE COAL LEASES.
THE Locust Mountain Coal and Iron

Company, offer to good towards averal valuable Codificates upon the Company's property, in Columbia and Northumberland counties. The voins offered are the large White Ash veins of the Locust Mountain, upon Which, collieries have been already established by Mestra, Bast. & Pearson, Geo. S. Repplier and M. G. Ieliner.
The mammoth vein averages about 25 feet in thickness, and the underlying vein some 12 to 14 feet. Both
reins afford a large body of Coal above water level. The
quality of the Coal is well established in market.
The Mine Hill Railroad affords an avenue to the
Eastern markets, and the Philadelphia & Sunbury Railastern markets, and use reasonpus a business, and to the Couthern and Western markets. Both of beer railroads are completed to the colleries upon the ompany's property. For particulars, inquire of J. ANSPACH, Jr., Prest.

No. 88 South Fourth Street, Philadelphia Or ALEX. W. BEA. Eng. & Supt., Centreville, Columbia Co., Pa February 13, 1858 FRUIT TREES, SHRUBBEI SHRUBBERY, THE SUBSCRIBER is Agent for several reliable Nurseries, and will furnish good Fruit Trees, which can be relied on as being true to name. Three fourths of the Trees sold through the country by Agents are the refuse generally of the Nurser Free ranks from the amjority of instances marked to suit any kind ordered. We furnish all Trees at the lowest Nursery prices, and warrant them to, be what they are represented. All kinds of Appless Pears, Peaches, Plums, Apricota, Cherries, Noctarines, Quinces, &c. .

Also Grape Vines, such as Isabella, Catawba, Clinton and Diana; Strawberries, Respected, Currants, Gooseberries; Victoria Rhubarb Roota, Arparagus Roots, &c. All kinds of Rose; Bushes, Climbing Planta,—Ornamental Trees and Shrubbery, &c., of all kinds, including the Horse Chesnut, Silver and Sugar Maple. Catalpa Magnolia, Elm, Mountain and Flowering Ash, European Linden, Double Flowering Peach and Cherry, Abeles, Larch, &c., &c.

Linden, Double Flowering Feach and Cherry, Abeles, Larch. &c. &c.

The reason that Trees taken from Nurseries will grow when those taken from our Mountains will not, is that those in the Nurseries are frequently transplanted, which gives a greater abundance of the smaller roots, which are the life of the Tree. This is the reason why so few of the trees transferred from our mountains grow when transplanted. hen transplanted. Any information with regard to Choice Pruit Grape

This American officer died in New York on Thursday, at the age of seventy. His life has been most useful to his country, but the public duty which more particularly will associate him with the historical records of his native land, was his successful command of the expedition to Japan, since followed up by further concessions, and speedily to be crowned by the reception of a Japanese Ambessador at Washington.

The Kansey, and Himnesota Questions.
In the United States Senate, Senator Clark intends moving an amendment to the Kansas bill, admitting it as a State on condition that the power to amend the Constitution be expressly reserved to the people, whenever they see proper, and that neither its admission with the Lecompton Constitution, nor the Constitution itself, shall after the admission, any law or regulation re-pealed by the Territorial Legislature, before the passage of this act, without the re-enactment of

The Schate Committee on the Judiciary have completed a report, concluding with the resolu-tion that Minnesota is not a State in the Union. This device to Mr. Shields the right, which he claims, to be admitted to a seat in the Senate.

Democratic State Convention.
This body met at Harrisburg on Thursday, to commute candidates for Judge of the Supreme Court and Canal Commissioner, Hon. John L. Dawson, of Fayette county, was chosen President The Convention is in favor of oppression, for the Chairman appeinted to draft Resolutions, a com-mittee of "packed" men to favor the Lecompton who would the to make something selling it, would do well to send for a recipe and make their own, which can be done for a recipe and make their own, which meet the approbation of the people." After the appointment of the committee a spirited for the first control or six cents in larger qunities. The above will be sent to any person for six cents in a stange or silver, by addressing and the six of the suppointment of the Committee a spirited debate ensued, in which the minority warmly denounced the "gag" movement. Mr. F. W. Hughes, a representative delegate in the Convention from to five cents in larger quantities. The above will be to any person for six cents in state or a silver, by ressing B-F. BOARDMAN & CO., bruary 13, '58 [7-3m] East Chester, N. H.

PATENT COAL SLATER.

Visited States, bearing date the 24th day of No. Bear. D., 1857, were granted to the undersigned for A New limit Informed Machine for Stating Coult.

OTICE is therefore, hereby given that coal operators. been permitted to emerge.

THE Maysville (Ky.) Eagle contains the following pertinent paragraph:— WHAT NORTHERN DOUGH FACES DARN'T SAY.—The Constitution that is now being forced on the people of Kansas, is a cheat nd a swindle, and they have so denounced it by their voices legally and fairly expressed at the polls—and if therefore, any man gives his support to the measure advocated by Buchanan's message, he does so with a full knowledge of the manner in which the rascally oncern has been made successful thus far.

WHERE are we drifting?-Forner's Press. Where all traitors and apostates go-to potical perdition .- Columbia Democrat. Mr. Tate we fear, does not appreciate the position of the anti-Lecomptonites. They are striving now for precisely similar principles, to those fought for earnestly and bravey, by our fathers of the Revolution, namely, Freedom, and the right of the majority to ule and make their own laws. Tyranny and fraud, Mr. Tate, will not be endorsed by the Freemen of the North and South, be they Democrats or Republicans.

HEADACHE.-From an Eminent Clergynan.-Pittsburg, July 9, 1855.-Messis. B. Page, Jr. & Co.-Gentlemen : I take great pleasure in saying to you that I made use of Borh. ve's Holland Bitters, which I obtained at your store and found special relief of a severe headache, from which I had long suffered and I believe they were of service to me in relieving my stomach and head. Very respectfully, &c., S. E. BABCOCK.

HEADACHE AND DEBILITY. Mr. Silas J. Liscomb, of Birmingham, says: "I have found in Borbave's Holland Bitters a remedy for Headache and Debility .-My wife has also used it with the greatest benefit. Mr. A. S. Nicholson, of Pittsburg, also remarks that he has experienced much relief

from its use for headache. 🕚 STRENGTH AND HEALTH RESTORED. Mr. John Davidson, living ten miles above Pittsburg, on the Pennsylvania Canal, says: "When I commenced taking Borhave's Holland Bitters, I could hardly walk. Now I enjoy excellent health."

How to Pronote Health .- American. mothers are doomed to early graves, in consequence of their sedentary in-door employment. Every consideration of affection, duty and the preservation of a healthy posterity, should prompt the heads of familes, and others, to assist in in averting results so disastrons to the well being of society at large. Thousands of house wives have recently found ample leisure for healthy, out door exercise, by purchasing and using one of Grover & Baker's Family Sewing Machines, by which they have been enabled to do all their sewing n a stronger and more beautiful style, than they could do by hand. The transition from the slavery of the needle to the joyous exercise of the largest liberty, has had the hanpiest effect upon the health and tempers of the fair possessors of the Grover & Baker machine, and every woman who is practically familiar with their value, regards them with great favor, as the only Missionary Agent that is at all likely to emancipate the sisterhood
