

SATURDAY, MARCH 13, 1858. Rg-Tax circulation of the Miners' Joyanat is equal to the aggregate circulation of any THREE other English papers published in the County—and as it circulates among the best portion of the population, an advertisement inserted in its columns is, of course, worth as much to the advertiser as if published in any three other, papers. In our cities the rates of advertising are always graded in price according to the circulation of the paper.

88 Friend Journal:—On last Monday evening
100 in exhibition was given at the Mahunuy House,
107 in this Borough; by the Reading Association, for benefit of the poor, which realized the hand-ome cum of about one hundred dollars. The piece read on the occasion, was Kotzebue's celewhich no doubt, you are well acquainted,) and which without exaggeration, was read in a style that would have done credit to many of our first class theatres. The piece referred to, is one in which good reading, is not only required, but also took acting; and without flattery, the ladies and the property of the style of the styl

CHARGE OF JUDGE HEGINS IN THE PRICE found in substance, the charge of Hon. C. W. the wants of the sick and needy in the Borough, found in substance, the charge of Hon. C. W. this public exhibition was given, and without Hegins, President Judge of the Schuylkill Houbt, more substantial aid was acquired, than Laber Case .- In another column will be County Court, to the jury impanneled in the means. trial of Mr. Price for libel. It is especially interesting, defining as it does more strictly than has been done heretofore, the boundaries which in the opinion of the Court, the press cannot in safety, pass. Elsewhere we notice at length, the able charge of the Judge, adverting at the same time, to a point in which we differ from him.

THE COAL TRADE.

The quantity sent by Railroad this week is 20,-377 tons, being an increase of 781 tons over the The trade exhibits no new features. The cold spell has increased the demand a little for immediate use, but as the weather is moderating, it

preparation making for doing business. The Raifroad Company is now 97,982 tons be tons compared with last year. Since the Reading Association has been formed The increase from the Lohigh Region is about 25,000, and from the Scranton about 10,000 tons,

> pared with last year. No change has yet been made in the rates o tolland transportation by our Carrying Companies. All are waiting for the action of the Managers of the Reading Railroad Company. All 9 cents per ton, which is an important item in the other Companies who control the avenues to these days of close calculations. market from the other Regions, are engaged in mining and solling Coal, except the Lehigh Valley policy to suit their own business. As the busi- Coal were increased 121 cents per ton from Pineness this year will partake of the character of a grove to Baltimore. They remain the same as "grab game," our Companies must take care that the other Companies do not get the advantage of them by securing important contracts before our

Operators can move in the business. Until they know what charges will be made, they can make) no contracts for the delivery of Coal. Whether any change is made or not, it is important that the

very good husband, and in time realize a better income than the young main in a profession, whom' in vain she woulddress to please, in all the adornment of coatly silk diesses, evening dresses, hats and feathers, and indulging in that useless, though expensive article, embroidered pocket handkerchiefs, &c. &c. What yound mu entering a profession, my dear girls, notwithstanding your beauty and wit, can, in addition to his own, support expenses like these. A young lady also sometimes; thinks it "sounds pretty" to boast that she "can't make; a shirt," "and knows very little of housekeeping." You cannot, my dear young lady, adopt a surer method than this th drive away all id. so of matrimony from the mindiof your lover, if he be a sensible man, for heavill be afraid to trust his dome-tic comfort and the earnings of his labor, to one who professes so little knowledge of the duty of a woman, much more of a wife.

There is also another bad habit which does not at all facilities imarriage—that of going to evening amuse. CAWAL FREIGHTS learn, complain, because we stated that freights would in all probability go down to \$1 65 and \$1 60 from Port Carbon and Schoylkill Haven to New York, in the early part of the senson. This is only 5 cents less than what Boatmen are already offering to make contracts at for the whole season -and it is our firm conviction that freights will rule as low this season as they have done at any period for the last fifteen years. We are aware that the Boatmen are willing to take the lowest paying figure, provided, the tolls are arranged to facilitate marriage—that of going to evening amuse, facilitate marriage—that of going to evening an uncertainty of the considered an entertainment half over—nine, or may be, ton o'clock is now the time for guests to assemble aven for only a small gathering, and do not think of vithdrawing before two, three, or half past threes next morning. This practice, though very fashionable, i very injurious to health. Sleep is the great restorer of both mind and body—deprived of that, the constitution is considered to the constitution in the woold broken. Whereas, if people would assemble at a seasonable hour, and return home at a seasonable hour is the fact that the constitution is constructed. We are now in the midst of Free Trade—our standard is reduced down to the "European standard," which was so lauded in Congress by James Buchanan; the country is now reaping the "blessings and prosperity" which it was promised would over the country all over, under this blessings conferred by this system, they must too for the next soirce. In the alternoon, it may be show for the next soirce. In the alternoon it may be show for the next soirce. In the alternoon it may be show for the next soirce. making 35,000 tons, which will make the supply short about 100,000 on the first of April, com

many Old Maids" Nowadaysa;

What a pity that such an intelligent, independent nation as this should begin to deteriorate, and that society should suffer from the bad example of other countries. A few years ago it was the boast of American women, and the pride of their husbands and lovers, that they were both competent, and not above, cooking, baking, making, and mending for themselves and families, and yet could enter their pariors and theiro shine among the most beautiful and accomplished of their sex. In those days old maids were scarce, and bachelors, also; now unfortunately, it, is the reverse—for they are but too numerius in every community. How comes this? Is it that marriages are out of, fashion? No! that is not the case; the marriage state is desired as much as ever by most women, but particularly by those of a certain age, since it places them in the sphere they were intended to fill—where they find ample scope for the use and full development of all their attributes; and then woman feels she was not created in, vain.

The cause of this multiplicity of old maids and bachelors is certweagance. Extravagance in dress, in attoudance and in time; and a failse notion of position. A girl would now reject a respectable mechanic as keing utworthy of her hand, when perhaps, he would make her a very good husband, and in time; realize a better income thus the young main in a profession, whom'in vain she would diress to please, in all the adornment of costly trade should now know it, in order to shape their retard consumption and diminishes business .-Coul business is very much depressed in Eng- Rupert to Milton 23, making the distance to that land-prices rule much lower than usual. deposited at the machine shop of Wm. C. Smith, of this Borough, for examination. Jacob Gass and George Mowton, of Trevorton, are the patencees. The construction of the machine is such by means of parallel bars inside the screen, that slate is prevented from sliding, and at each revolution must pass through the apertures, thereby separating the Coal and Slate. The machine is placed between each division of the larger screens of a breaker, and must thoroughly perform its work. The machine varies in length from five to eight feet. A fact which speaks strongly in its favor is, that at Trevorton where it is now used. much of the Coal was hardly marketable before the machine was adopted. Now it goes to market the machine was adopted. Now it goes to market the machine was adopted. Now it goes to market the machine was adopted. Now it goes to market the machine was adopted. Pottsville, Feb. 18, '58 #-3m'
Draggist. To Invalids. DR. HARDMAN. Analytical Physician and Physician for Diseases of the Lungs, ORMERLY Physician to Cincin-nati Marine Hospita; and Invalide Retreat: Cor-responding member of the London Medical Society of Observation, author of "Letters to Invalida," and editor of the "Medical Stathoscope," may be consulted in POTTSVILLE, at the Fennsylvania Hall, on SATURDAY, MARCH 20th, for one day ONLY!

E3-Dz. HARDMAN treats Consumption. Bronchitis, sryngitas, Asthus, and Diseases of the Throat and ungs, by Medical Inhelation! Dr. HARDMAN'S claims to public confidence are foun ded upon the following facts:

1. His thorough and complete acquaintance with the practice of the most calebrated physicians of Europe as 1. This thorough and complete acquisimance with the practice of the most eulebrated physicians of Europe as well as America.

2. The peculiarities of his system of medication—differing from every other every stadopted—does not make sick to make well; nor tear down to build up again—discarding all dangerous drags and misomous minerals.

3. His unprecedented experience in liberital practice, where every form of disease was presented for theat ment, and, in cases of death, an examination of the dead body made, and the appearances of the affected parts carefully moted down by his own hand for duture reference. These notes and observations thus made, when completed, will form two large volumes of five hundred pages each, which will be published for the benefit of the Medical profession.

4. In addition to this, his vast experience, acquired by traveling nearly five years, treating thomands annually, have afforded great advantages for observation and the study of all diseases incident to the human family. In this period of time he has traveled a distance nearly equal by two entires circuits of the globe, and has seen, prescribed for and been consulted by nearly thirty thoughts.

ALL DISEASES TREATED!

In relation to the following diseases, either when complicated with Lung Affections or existing alone, I also invite consultation—usually find them presuptly curable.

Prolapsus and all fogms of Female Complaints, Irregularities, and Weakwess.

Palpitation and other forms of Heart Disease, Liver Complaint, Dyspepsia, and all other Diseases of Stomach and Bowels, Piles, &c.

VALUABLE COAL LEASES.

THE Locust Mountain Coal and Iron

Coal leases upon the Company's property, in Columbia
and Northumberland counties. The veins offered are
the large White Ash veins of the Locust Mountain, upon
which, collieries have been already established by
Mestra, Bast & Pearson, Geo. S. Repplier and M. G. Heliner.

The mammoth vein averages about 25 feet in thickness, and the underlying vein some 12 to 14 feet. Both veins afferd a large body of Coal above water level. The quality of the Coal is well established in market. The Mine Hill, Railroad affords an avenue to the Eastern markets, and the Philadelphia & Sunbury Railroad to the Southern and Western markets. Both of these railroads are completed to the collieries upon the company's property. For particulars, inquire of J. ANSPACH, Jr. Prest.

No. 83 South Fourth Street, Philadelphia.

No. 83 South Fourth Street, Philadelphia Or ALEX. W. R.K.A. Eng. & Supt. Centreville, Columbia Co., Pa 7-47. February 13, 1858 cer in any honorable way.

prices.

The following is an extract from the report of the The following is an extract from the report of the committee appointed to superintend the recent trial test of birning Safes at Reading:

"On the 28th of February all the members of the Committee met to witness the bise and Books; and papers, (placed in them) and were perfectly satisfied that all was right. The day following the burning took place, under the superintendence of the Committee. After a fair and imparital burning for five hours in the furnace of Messrs. Farrels of Herring, the Safe of Messrs. Evans of Waston was first opened, the Safe being on fire inside, and the contents partially consumed, while the contents in the Safe of Messrs. Evans of Incring were in good condition, and no fire inside. Safes at Messrs with fifty business men, who attended the burning of the Safes, teatify to the truth of the above statement.

Latese News.

By Telegraph and Yesterday's Mail. This gentleman lectured in Harrisburg last eve-ing. Subject—"Character of Washington."

The License Lew-The Legislature is tinkering it. On Thurs-day, in the House, Mr. Ebur of this County, offered an amendment to Mr. Ramsey's license law, reviving the law of 1849. Pah! Give as Prohibition. Everything else so far, has failed. Vacant Judgeship-Removal of M'Cas-Hon. John Cadwaltader will be appointed to the vacant judgeship in Pennsylvania. Mazwell M'Caslan has been removed from an Indian agency, because he wrote to the Press a statement of the condition of affairs in Kansas Territory. Thus far has the absolutism of the present prescriptive policy gone.

We have advices from the city of Mexico to the 5th inst. Civil war is raging, and the coun-try is in a lamentable condition. Ges. Alveres is reported in the field with 3,600 cavalry, in epposition to the new Government, and the down-fall of Zelongo is considered certain. Commu-fort is the proper man for Mexican administrative

The Meney Market. Yesterday's Philadelphia Press says:—The money market is supplied abandantly with capital, for which there is no demand from active business, and altogether the prospect for modey, lenders is quite, discouraging. Altogether, the prospect of speedy amelioration in business is not good, and it may be many months before enterprise and industry will have full scope and

Well dome, New Hampshire.

The "Granite State" is "right side up" for Freedom. The Republicans have elected their all the Conneillors, two-thirds of the hus Insuring the election of a Republican to the sent in the United States Senate, now occupied by the Hon. John P. Hele. This is the first ion of the spring, and opens the campaign most auspiciously.

Being Rewarded. The Washington correspondent of the Tribune, in his letter of the 10th, says:—Various members and movers of the recent Harrisburg Convention here are getting their rewards in the shape of contracts for the Mormon war and valuable pinces Popular sovereignty pays well. The Departments and members of Congress are crowded with Pennsylvania applications for furnishing mules, wagons and other outlits for the military expedition. These fortunate men will yet be immortalized in print to verify their disinterested

The Lecompton Question in Congress-In the House on Thursday, Colonel Harris rose to ask, as a matter of privilege, permission to preent the facts attending the meetings of the Special Committee on Kausss, in order to show how the order of the House had been totally frustrated. The Speaker decided it was not a privileged question, so that under the rules the matter must lie over. Colonel Harris appealed from this decision. Mr. STEPHERS, of Georgia, moved to lay the appeal on the table. This motion was defented by the gloriously eignificant vote of 97 year, 112 naye! Lecompton may yet be crushed. All

The Washington correspondent of the Tribuse says that Keitt's speech on Wednesday, declaring that the Kansas State Legislature would have no power to change the Constitution before 1864, has produced a fluttering among the Democrats in-compton Constitution can be changed by the peu-ple before 1864, if Kansas is admitted under it, is false, and is only made to blind the North. We thought that Forney's Press had exploded that swindle, as far as Pennsylvania is concerned, long

Foreign News.
The latest is to the 27th ait. It is important. The Palmerston cabinet has resigned, and been succeeded by a new ministry, with Lord Dorby at succeeded by a new mining, and the head. In this there was subsequently a modification, Lord Stanley taking the Colonial department in place of Balwer Lytton. The Indian war is about over. Canton is in the hands of the French and English. In Paris the hands of the French and English. In Paris the trial of the conspirators against the life of the Emperur, har resulted in the conviction of Orsino, Radio, and Pierri, who were sentenced to death, and of the convenience of the control of the convenience of the conven life. The Danish ministry had resigned. There was an advance in cotton. Breadstuffs were and provisions had a declining tendency.

WHERE ARE WE DRIFTING?-The corrup tion in high places both in the Government and in other stations, has already astounded the whole country, and every day more is leaking out. If "the honest and thinking men of all parties do not soon unite and hurl them from power, and all their aiders and shetters the whole mass of the people will be corrupted, public virtue will be a by word and reproach, and the Government of the country become nothing but a seething and rotten mass of corruption.

Among the scandalous rumors current at Washington, the N. Y. Tribune gives the fol-

lowing as prominent: 1. That, in dissecting the course of the late Bank of Pennsylvania, it was found that \$25,000 had been paid by said Bank as a bonus for effecting the sale of its former banking-house and lot to the Federal Government for a Post Office, and that one high in office, under the last [Pierce's] Administration, pocketed the aforesaid comfortable sum. Of course, the allusion to the late Postmaster General Campbell is unmistakable. 2. That the Hon. Henry M. Rice, U. S. enator elect from Minnesota, has refused to testify before the Fort Suelling Investigating

Committee, pleading his privilege as a Mem ber of Congress, though he has not yet been admitted to a seat. 3. That when the Fort Snelling and Wilcins's Point Investigations shall have touched bottom-provided they ever do touch bottom —there will be an ugly hole made in the reputation of Gov. John B. Floyd, the present ecretary of War.

A'REWARD IN OFFERED!-For the detection of any person counterfeiting, imitating, or the vender of any such counterfeit or imitation of Borhave's Holland Bitters. The genuine, highly concentrated Holland Bitters, is put up in half-pint bottles only, having the name of the proprietor, B. Page, Jr., blown in them, and his signature around the neck of each and every bottle.

This delightful Aroma has been received by Americans, with that favor which is only extended to really scientific preparations .-When we consider the marked success attending its administration, in the most stubborn cases of Fever and Ague, Weakness of any kind, Dyspepsia, Heartburn, Acidity of the Stomach, Sick and Nervous Headache, Indigestion, Costiveness and Piles, together with the complete control it exercises over all Nervous, Rheumatic and Neuralgic Affections, we cannot wonder at its popularity.-Well may the invalid value this remedy.

"A THING OF BEAUTY IS A JOY FOREVER." -An ornamental article of household furniture, if also useful, gives double pleasure,-This is especially the case with Grover & Baker's Sewing Machine, which is a beautiful parlor ornament, and is a gentle and industrious seamstress, that will do more work in a given time than a dozen pairs of hands, and will do it better, too. It sews a seam that will not rip; sews it stronger than by hand; is easily managed and kept in order, and what is more important, gives leisure for the cultivation of health by out door execise. Offices of exhibition and sale, 495 Broadway/New York; 18 Summer street, Boston;

and 730 Chestnut street, Philadelphia. THE annexed toast given at a recent 22d celebration in Georgetown, D. C.,-a brilliant specimen of "high-falutin,"—was the joint production after weeks of severe labor, of the Sophomores of Georgetown College: "James Buchanan-The embodiment of the spirit of Washington!"

Decidedly a poor spirit then. The Markets. POTTSVILLE MARKETS. (Wholesale Prices.)
