ATMOSPHERE AND THE FARMER.

sief business of the cultivator, of course, the soil beneath his feet; it is by draining, ag, and plowing that, that he must expect prosperity. But is he not also depenthe air above him ? Indeed, a little rewill show that no unimportant part of his in the atmosphere enveloping the soil t he delves so industriansly. He owns an ocean-fifty miles deep above his head ; vholly invisible, either, for if he looks ad upward, he sees it tinged with a beau. . He can feel it more plainly than he l, especially when its waves are put in winds. Then, it fans his burning cheek, luzuriant grain, and if lashed into fury, ) his trees, overturns houses, and spreads o far and wide, 🔌

ight of this superincumbent 'ocean is unds to every square inch, never more ; not this pressure the same on all sides, as well as down sards, it would oppress, ash every living creature. Men drink ughts from this ocean continually. The ad other out door laborers, public speak. agers imbibs it more largely than men ary pursults. A person of medium size health, drinks eighteen times a mina twenty-four hours consumes fifty-one of air,

opping all figure, the atmosphere as flod in is rightly compounded to promote s of man, animals and plants. It is chiefly of two gases, oxygen one fith nitrogen four-fifths, with a trace of car-r Oxygen, being the chief supporter of

e fraction of it in the air so small, it is gly important to preserve it unvitlated. ase of carbonic acid in the air is injuhe health of all animals. It is increased tion, by the decay of animal and vegeters, by stagnant water and by combus en pure air, and enough of it is inholed the blood and promotes the general the system : impure and insufficient air very citadel of life. The air of damp of stagnant marshes is anwholse ine ; ated with gas, and heated by coal stoves draft, are often filled with carbonic acid

A CHANCE FOR BUSINESS MEN! "The Wiconisco Store" for Sale!
