is raised, readily gassifies, as gas is the peculiar natural condition of murintic acid; on escaping from the basin it quickly combines with the hydrogen and nitrogen of the mine, for which this acid has the greatest affinity, and needle like crystals of muriate of ammonia are deposited on the sides and surface of the mine. For agreeableness, the lid may be partially raised during the day. For greater security, a wire is introduced through the mine, communicating with an electro-galvanic battery on the bank of the mine, and every evening when the miners are absent, a current of electricity is passed through the mine which causes the gases more easily and quickly to combine, and by probing the mine ensures no aggregation of fire-damp, beyond that accumulated in one day.

A Little More Care, Johnny.—Recently the ship, "Tropic Bird," which arrived at Philadelphia on Tuesday from Port au Prince, consigned to the old established house of Thomas Watson & Sons, of that city, was fired into by the British gunboat "Jasper," off Magua, upon suspicion of being a slaver. Not content with this belligerent demonstration, the British officer in charge of the Jasper took the liberty of sending a boat to board the "Tropic Bird" and examine the ship's papers. It would be well for British cruisers not to dispense their gunpowder favors indiscriminately among American merchant vessels, or mayhap broadsides from American frigates will be forthcoming. Aug. 16. 18. Shuylivil Haven, May 13th, 1858 [43-Philadelphia Ledger copy.] The rates of freight demanded by the bostmen n the above proceedings, are the same at which hey opened, and are 20 cents per ton advance on the rate to which they fell last week. We underhad continued at the low rates, the Railroad Company would have been compelled to allow a corresponding drawback, to make up the difference, or lose trade. If the Managers had been forced into this measure, canal freights must have con tinued at the low rates, until a considerable portion engaged in carrying Coal were absolutely starved out, and compelled to abandon the business. The low rates at which Coal is offered at the different shipping ports near New York, will not permit our Coal Operators to pay high freights and compete with those Companies in the New York market, and for the Eastern trade. If an arrangement could be entered into by which freights shall be fixed at, say \$1 55 and \$1 50, until the lat of August, with the understanding that they were to advance from 5 to 10 cents a ton at that period, when the price of Coal will be advanced by the Coal Companies leading to New York—the Railroad Company might allow a draw

back on her rates of 10 cents per ton, until the 1st of August, each party would then be sacrificing a little in the early part of the season, for the common benefit of all. Miners' and laborers' wages are very low with uncertain work, and the M. Chunk and P. "Truth is Mighty, and Must Provail." Report of the Committee appointed to superintend th burning of the Iron Stafes at Reading, February 27th, 1857. READING. March 4th.

The undersigned, members of the committee, do respectfully report, that we saw the two Safes originally arreed upon by Farreis & Herring and Evams & Watson, placed side by side in a furnice, vis: The safe in use by the Paymaster of the Philipeliphia & Reading Railroad Company, in his office at Reading, manufactured by Farreis & Herring, and the safe in use by the Alexton in his storing and the safe in use by the Alexton in his storing. ring, and the sate in use by II. A. Lantz, in his store manufactured by Evans & Watson, and put in books and iring, and the sate in use by H. A. Lantz. In his store, manufactured by Evans & Watson, and put in books and papets precisely alike.

The fire was started at \$12 o'clock, A. M., and kept up until four cords of green hickory, two cords dry oak in half chemut top wood, were entirely consumed, the whole under the superintendence of the subscribers, members of the committee. The safes were then cooled off with water, after which they were opened, and the books and papers taken out by the committee and sent to H. A. Lantz's store for public examination, after they were first examined and marked by the committee. The books and papers taken from the safe manufactured by Evans & Watson were but slightly affected by the intense heat, while those taken from the safe manufactured by Farrels & Herring were, in our judgment, damaged fully diffeen per cent, more than those taken from Evans & Watson's safe.

We believe the above to have been a fair and impartial firial of the respective qualities of both safes.

Britain, as compensation for the loss of certain slaves cerried away by the British during the war of 1812. It provoked a warm discussion, and between Mesars. Garnet of Virginia, and Giddings, of Ohio, a personal war of words. The bill was consigned to that Slough of Despond, the Committee of the Whole on the state of the Union. We presume the claimants will be paid about the same time as the French Spoliation potitioners.

May 11.—In the Senate, the bill for the final May 11.—In the Senate, the bill for the final adjustment of private land claims in Florida, Louisiana, Arkansas, and Missouri, was passed. The bill to repeal the fishing bounties was then taken up. Mr. Hale opposed the repeal in a characteristic speech. The debate was subsequently continued by a number of Senators, and, without taking a vote, the Senate went into executive segment. In the House of Representatives, the bill for the

In the House of Representatives, the bill for the admission of Minnesota was the principal matter of public interest under the discussion. The bill finally passed, in the form in which it came from the Senate, by a vote of 157-yeas to only 38 mays. The bill to prevent the accumulation in the Post Office Department of deputy postimasters quarterly returns was passed. It appears that no less than sixty thousand bushels of these interesting "pub. does" have been accumulating at Washington. The House then considered the important preamble and resolutions, previously reported by Mr. Clingman, authorising the abrogation of the Clayton-Bulwer treaty. A motion to lay the subject on the table was defeated by a vote of yeas 84, nays 88. Mr. Sickels of New York, made a very able speech in illustration of the question. He expressed himself decidedly opposed to the precipitate action contemplated in the resolutions submitted. A long debate ensued but the House adjourned without taking a vote.

May 12.—In the Senute, a communication was received from Secretary Floyd, relative to the purchase of a site fields. JUST PUBLISHED,

ECROPRAN INVELLIBERGE.—By the arrival of the steamship "Persia," which reached New York on Tuesday, we have liverpoot dates to the lat inst. The intelligence from India, which is one week later than the news previously received, is very important. The British forces under Sir if. Rose, had succeeded in capturing Jhansi, a large fortified city in Bandelound. Ceneral Roberts had also succeeded in capturing the town of Kotsh, a popul ous, fortified place on the Chumbul. In both exploit, the alaughter of the native "relyis," as they are called, was immense. The English loss was comparatively-small. rable condition. There is no prospect that the revenue will meet the expenditures during the Buchanan Administration, unless the present Tariff system is materially modified, and even then, it can hardly operate in time to prevent Buchanan retiring from the Presidency, leaving the Government burdened with a debt, equal to an hundred millions of dollars. What a glorious Administration is Buck's! How happy are the people! How prosperous our condition! We fear another such Administration in succession, would lay us out cold. Five million of treasury notes were taken this week, by various parties at rates ranging from 31 to 5 per cent.

A REMEDY FOR DYSPERSIA.—Borhave's Holland Bitters is now the most simple, delightful and effectual remedy for dyspepsia, before the public. Many of our most worthy citizens testify to its efficacy. To persons subject to nervous, and sick headache, it is a valuable medicine.
