THE LAW OF NEWSPAPERS.

If subscribers order the discontinuance of their newspapers, the publisher may continue to send them until all arrearages are paid.

If subscribers neglect or refuse to take their newspapers from the office to which they are directed, they are held responsible until they have settled the bills and ordered them discontinued.

If subscribers move to other places without informing the publisher, and the newspapers are sent to the former direction, they are held responsible.

The courts have decided that refusing to take newspapers from the office, or removing, and leaving them uncalled for, is *prima facia* evidence of intentional fraud.

HOWARD ASSOCIATION,
Philadelphia.

A benevolent Institution, established by special endowment for the relief of the sick and distressed, afflicted with Virulent and Epidemic diseases.

THE HOWARD ASSOCIATION,

In view of the awful destruction of human life, caused by Quacks, and the deceptions practised upon the unfortunate victims of such diseases by Quacks, several years ago directed their Consulting Surgeon, as a CHARITABLE ACT worthy of their name, to open a Dispensary for the treatment of this class of diseases, in all their forms, and to give MEDICAL ADVICE GRATIS, to all who apply by letter, with a description of their condition, age, occupation, habits of life, &c., and in cases of extreme poverty, to FURNISH MEDICINES FREE OF CHARGE. It is needless to add that the Association commands the highest Medical skill of the age, and will furnish the most approved modern treatment.

The Directors, on a review of the past, feel assured that their labors in this sphere of benevolent effort, have been of great benefit to the afflicted, especially to the young, and they have resolved to devote themselves with renewed zeal, to this very important but much despised cause.

Just Published by the Association, a Report on Spermatorrhœa, or Seminal Weakness, and other Diseases of the Sexual Organs, by the Consulting Surgeon, which will be sent by mail, (in a sealed envelope,) FREE OF CHARGE, on receipt of TWO STAMPS for postage.

Address, for Report or treatment, Dr. GEORGE R. CALHOUN, Consulting Surgeon, Howard Association, No. 2 South Ninth street, Philadelphia, Pa.

By order of the Directors. EZRA D. HEARTWELL.

Entered according to Act of Congress, the year 1858, by G. S. HOBENSACK, *in the Clerk's Office of the District Court of the U. States for the Eastern District of Pa.*

HOBENSACK'S
AROMATIC IRON BITTERS,
FOR THE CURE OF

Liver Complaint, Jaundice, Dyspepsia, Nervous Debility, Asthma, Diseases of the Kidneys, and all Diseases arising from a disordered Liver or Stomach, such as Constipation, Flatulency, Inward Piles, Rushing of Blood to the Head, Fullness or weight in the Stomach, Nausea, Acidity of the Stomach, Heartburn, Disgust for Food, Sour Eructations, Sinking or Fluttering at the pit of the Stomach, Swimming of the Head, Hurried or Difficult Breathing Dimness of Vision, Dull Pain in the Head, Yellowness of the Skin and Eyes, Pain in the Side, constant imagination of evil, and great Depression of Spirits.

These Bitters are a most useful remedy for those complaints the female sex are generally subject to, by giving tone to the digestive organs—the iron, entering the blood, cleanses, purifies and induces a vigorous circulation, overcoming the obstructions to which they are liable, assisting nature in the performance of those functions whereby health is recovered, and the patient, from looking pale and sickly is restored to a lively complexion.

We would recommend this as a Tonic of superior efficacy; and are assured in doing so, from the fact that we have taken great care and spared no expense in its preparation, in order that it should contain the full strength of the active ingredients of which it is composed, and that the attention of Physicians has been drawn to it, and proscribed in numerous cases with the happiest results.

CERTIFICATE:—"Having been in delicate health for some years, arising from Dyspepsia and General Debility, I was advised to try HOBENSACK'S IRON BITTERS. I used One Bottle and was restored to my former good health. I deem it my duty to recommend it to the afflicted, particularly those of my own sex, believing it will be the means of restoring many from an untimely grave. Further information cheerfully given at my residence, &c. MRS. E. OGLE,

Duke Street, below New Market, Philadelphia."

Prepared only by
GEORGE S. HOBENSACK,
PHARMACEUTICAL CHEMIST,
N. W. corner of Third and Green streets, Philadelphia,
To whom all orders must be addressed.

☞ Sold by JOHN G. BROWN, and CHARLES W EPTING, in Pottsville, and by Druggists generally.

☞ Price $1 per bottle. *Discount to Dealers.*

WILLIAMS'
ANTI-DYSPEPTIC ELIXIR.
Dyspepsy! Indigestion! Dyspepsy!
MORBID SENSIBILITY of the

Stomach and Bowels, attended with obvious disorder of the digestive organs.

Dyspepsy and its attendant ills, such as
Nausea, Headache,
Vertigo, Dimness of Sight,
Debility of the Nervous System,
Hypochondria, Jaundice,
Loss of appetite,
Wasting of the Strength,
Flatulence, with frequent belching of wind,
Vitiated taste,
Constipation and uneasiness of the Bowels,
Bilious Vomiting,
Burning sensation at the pit of the Stomach,
Liver Complaint,
Oppression after Eating,
Palpitation of the Heart,
Pain in the pit of the Stomach, or towards the right side,
Sallowness of Complexion,
Depression of spirits and irritability of temper, &c.,

Have in many cases defied the skill, heretofore, of the best medical practitioners in the world, and many cases have been abandoned as incurable.

DR. J. WILLIAMS, Chemist and Pharmaceutist, after studying closely the practice of Drs. Abernethy and Johnson, England, and observing the nature of the disease in all its forms during a sojourn in the southern and western portion of the United States, where it prevails to a greater extent than elsewhere, procured from South America, certain roots and herbs, from which he prepared an "Elixir," which, after eighteen years of practice in private practice, has proved itself more efficacious in the cure of Dyspepsy, than any medicine that has ever been prepared in any age or any clime, for the same purpose.

Having submitted it, with an explanation of its components to a number of Physicians of Philadelphia, among whom were the late Drs. Joseph Hartshorne and J. D. Griscom, in addition, it has received their entire approval, and many of the Medical Faculty are now not only prescribing it for their patients, but are using it themselves, personally, and in their families. As a tonic, it is unequalled, and its properties are of so invigorating a nature, that it is given with perfect safety and success to the most tender infants.

The "ELIXIR" is very gradual, but certain in its action upon the organs of digestion, the increased secretions of the liver, pancreas and mucous membrane of the Stomach, and requires that only one dose be taken in twenty-four hours; for confirmed Dyspepsy can only be cured by *gradually* restoring the organs of digestion to a healthy state. The great success met with in curing the most aggravated case of Dyspepsy, accompanied sometimes with the high grade of hypochondriasis, has established the most unbounded confidence in the curative properties of this "ELIXIR," in corroboration of which read the following testimonials:

ATTESTATION.—We, having used Williams's "Anti-Dyspeptic Elixir," with the most perfect satisfaction and success, take great pleasure in recommending it to all persons suffering with Dyspepsy, as we are fully convinced of its most estimable qualities in restoring the digestive powers, removing all pains and uneasiness, and imparting a healthy tone to the Stomach.

John R. Penrose, 34 South Wharves; Casper Morris, Tacony; Thomas Allibone, President of Bank of Pennsylvania; Abner Elmes, Market street above Sixth; Edward B. Lowrey, No. 14 North Wharves; Michael Dunn, Superintendent Merchants' Exchange; Hannah Stiles, Frankford Road; Hannah Webb, 28 Filbert street; H. N. Sperry, 12 Edward street; Lawrence Newbold, No. 236 Chestnut street, Philadelphia; Wm. Yard, 6 City Row; Rudolph L'Arni, 267 Broadway; H. N. Winans, 94 Water street, New York.

The list of names could be extended to almost any length, but the foregoing is deemed sufficient.

Testimony of H. N. SPERRY, who was abandoned as Incurable, and given up to Die.

DR. J. WILLIAMS—*Dear Sir:*—For fifteen years previous to 1854, I suffered so much from Dyspepsy, that I became completely prostrated, both in mind and body, and at length became so weakened I could not attend to my business, and was sinking into a decline, and it was believed I never could recover; the best medical aid was procured for me, and every means resorted to without any relief, till I was advised to use your "Elixir," and from the time I began taking it I gradually improved until I was completely restored to health. The dreadful sufferings I endured from Dyspepsy I cannot describe; but I am confident that without the use of your "Elixir," I should be in my grave. I assert that I solemnly believe your "Elixir" has saved me from an early death.—I continue now in the enjoyment of most excellent health. H. N. SPERRY,

June 6th, 1857. No. 1104 N. Third st., Philad'a.

We, the undersigned, have known Mr. H. N. Sperry for several years, and take pleasure in stating that his assertion can be perfectly relied on, and that we ourselves know that he has been wonderfully restored to health from the brink of the grave; and we believe, as he asserts, solely by the use of Dr. Williams's "Elixir."

THOS. C. CHARLTON, No. 143 Phœnix st.
JOHN EBERT, Race st., above Second.

Personally appeared before me, (one of the Aldermen of the city of Philadelphia,) H. N. SPERRY, who being duly affirmed, doth depose and say, that the facts set forth in the above certificate are true in every particular. Sworn and subscribed this 6th day of June, 1857.

DRAINAGE AND WATER PIPE.

Just the Thing Wanted in the Mining Regions.

THE subscriber has been appointed Agent for the sale of the Vitrified Stone Water and Drainage Pipe. This pipe ranges in size from 2 inches up to 42 inches in calibre, and will bear a pressure of from 60 to 100 feet fall of water, is already laid as iron pipe,—connections can be made to any point—is indestructible—will last forever—in fact more durable than iron pipe, because it does not rust—and is afforded at the following rates at our works, delivered, or can be sent direct to points where Rail Roads run from Philadelphia when quantities are required. Freight included in these prices when parties receiving the Pipes pay Freight.

2 inch pipe	-	14 cents per foot.

S. D. & H. W. SMITH,
MANUFACTURERS OF
Melodeons, Organ Melodeons, and Pedal Sub-Bass Harmoniums,
511 Washington Street, Boston.

THE ATTENTION of Clergymen, Committees, Schools, Lodges, &c., is invited to the new Pedal Sub-Bass Harmoniums, made solely by the Manufacturers.

It is arranged with two manuals or banks of Keys, the lowest set running an octave higher than the other, and may be used separately, and thus get in one case two distinct instruments; or, by the use of the coupler, the two banks of keys may be played at the same time by use of the front set only. This organ, with the Sub-Bass, will produce the effect of a large organ, and is sufficiently heavy to fill a house that seats from 1000 to 1500 persons.

THE ORGAN MELODEON

Is designed for parlor and private use. The construction is similar to the Church Instrument, being arranged with two banks of Keys, and when used together, by means of the coupler, is capable of a great volume of power as the Church Instrument, when used without the Pedals.

Also, every variety of MELODEONS for Parlor use.

Purchasers may rely upon instruments from our Manufactory, being made in the most complete and thorough manner. Having removed into our new building, 511 WASHINGTON STREET, we have every facility for manufacturing purposes, and employ none but the most experienced and skillful workmen.

In store, we will receive from manufacturers an Instrument equal if not superior to any Manufacturer, and guarantee *ENTIRE AND PERFECT SATISFACTION.*

Music constantly on hand, to enable those interested in musical matters, are respectfully invited to visit our rooms at any time and examine or test the instruments ere a selection for sale, or to their pleasure.

As an still further guarantee to the public as to the excellence of the MELODEONS AND HARMONIUMS from our Manufactory, we beg leave to refer, by permission, to the following:

PIANO FORTE MANUFACTURERS OF BOSTON.

Who have examined our Instruments and will give their opinion when called upon:

George Hews, Woodward & Brown, Newhall & Co.

Melodeons & Harmoniums Rented.

Persons who wish to hire Melodeons or Harmoniums with a view of purchasing at the end of the year, can have the rent credited as part payment of the purchase money. This matter is worthy of special note, as it enables those who desire a fair test of the instrument before purchasing, to obtain it at the expense of the manufacturers, to the extent at least of a year's rent.

Orders from any part of the country or world, sent direct to the manufactory in Boston, with cash or satisfactory reference, will be promptly attended to, and as faithfully executed as if the parties were present, or employed an agent to select, and on as reasonable terms

EXTRAORDINARY
Cheap Roofing,
Both Water and Fire Proof.

THE SUBSCRIBER has been appointed Agent, and is prepared to put on H. M. Warren & Co's celebrated Fire and Water Proof Roofing, —it is composed of *Felt*, Composition and Gravel—it is more durable than either shingles, tin, zinc or iron requires no painting, and can be put on complete at a little over one-half the expense of other roofing—The advantages of this Roofing may be summed up as follows:

It is both WATER-TIGHT and FIRE-PROOF.

It will not expand and contract, with heat and cold, like metal roofs.

One inch to the foot is all the inclination required. The roof can be walked upon without injury.

It can be used for drying purposes.

It is of great advantage to firemen when adjoining building are on fire.

It is not injuriously affected in the least by changes of temperature.

It is adapted to every climate.

It is not affected by the jarring of machinery.

It will bear more than double the heat of zinc, tin, or galvanized iron, without danger to the boarding beneath it.

It is easily and quickly repaired, if injured.

Gutters of the same material can be formed on the roof.

ITS COST IS MUCH LESS THAN THAT OF ANY OTHER FIRE-PROOF ROOF NOW IN USE.

Insurance is effected at the same rates as on buildings covered with the best fire-proof materials.

Hundreds of certificates can be seen at B. Bannan's Book Store. We append one or two to show that it is no humbug:

We, the undersigned, had our Banking House roofed with Warren's Fire and Water-Proof Roofing about three years ago, and so far have had no reason to doubt its efficacy and durability, nor regret having had it, and should in building hereafter prefer it to any other roofing.

Philadelphia, March 12, 1857.

PHILADELPHIA, June 20, 1857.

Messrs. H. M. Warren & Co.—GENTLEMEN:—I was present by invitation, at an experiment of H. M. Warren's Fire and Water Proof Composition Roofing, on the 21st of May last. The object, I suppose, was to give persons not acquainted with the nature of the roofing, an opportunity to see it tested. I ascended on the ground about 1 o'clock and saw the boards put on the roof; they were in a rough state, the edges not jointed, or grooved and tongued. After the boards were on they were covered with three layers of felt, and then by a heating of Composition, and the whole covered with gravel.

A quantity of combustible material was placed within, and at the appointed time a match was applied. A furious fire soon burst from all sides of the house, and enveloped the whole building in a flame. It continued to burn for at least three quarters of an hour. At the close of the fire, I felt a desire to know how the roof would stand if water was thrown upon it, and asked permission to try the experiment, which was granted, and, I applied three or four buckets of water on the roof which run off as though there was no fire under or around it.

Gentlemen, my opinion is, that so far as fire is concerned, it is the best kind of a roof, from the fact that its air tightness prevents combustion In case of a fire in a building where the roof is of your material, the fire would not be likely to extend to the adjoining buildings. I had an example of this kind last winter, on the 4th day of January, at 4 o'clock in the morning. A fire broke out in a row of Brick Houses, on the south side of Seybert St., west of 22nd street. It had a roof of your Composition, and the fire was confined to the house where it originated. I have no hesitation in saying that if it had been an ordinary roof, the whole row would have burned down, from the fact that it was one of the coldest mornings we had last winter, and the wind blew a hurricane at the time. Seybert street is north of the Girard College property, and at that time of the morning, together with the coldness of the weather, made it a long time before we could get water on the building.—Notwithstanding this, we extinguished the fire without injury to the adjoining buildings.

I therefore recommend your roofing to the community as a superior preventive of fire.

Very Respectfully Yours, &c.,
SAMUEL P. PEARON,
Chief Engineer of the Fire Department.

Any further information with regard to this Roofing can be obtained by calling on the subscriber at his Book Store, Pottsville. BENJ. BANNAN, or
JOS. DE FREHN,
Carpenter in the Orchard, Pottsville.

Who will put on the Roofing at short notice.

For Colliery Establishments, Miners' houses, Engine houses, Breakers, &c. in this Region, this is just the roof required, as it is fire proof, and no sparks falling on it will set it on fire.

☞ Shingles and tin roofs covered with the material if the pitch is not too steep.

VULCANIZED RUBBER HOSE,
For Hydrants, Locomotives, Fire Engines, and other purposes.

THIS HOSE has great advantages over leather, as it needs no oiling, is perfectly tight, will stand any high degree of heat without injury, and is not affected by the severest cold. It was awarded a silver medal, at the late Mechanics' Fair, and also the first premium at the Maryland Institute Fair, held in Baltimore, 1857, for the best article of the kind exhibited. It is manufactured by the subscriber, and for sale at his Rubber Manufactory, Nos. 421 and 423 Commerce street, Philadelphia, and at his Depot, No. 23 North Second street, Philadelphia.

The Hose is warranted to stand any pressure required, and can be returned to the manufactory if not found to answer the above recommendations.
