One of the reasons for the prophecy is,

It is probably, our duty, to notice that our conemporary, the Ashland Guzetteer, has donned political rober, and is doing tattle for Domocratic principles. Democratic principles! A curious 'olla podrida," are these same Democratic principler. They are like Paddy's fles, you put your forger on them and they are not there. Ark a Pennsylvanian Democratic politician to analyze his principle returns to in a first return his principles, and ten to one, he is a first rate National man, and an uncompromising friend of the Tariff-upon "the stump." Ask his brother at the South, and his Democratio principles are, more Slave Territory, "any way we can get it," merited. and Free Trade Now, pray what are Democrat-

ic principles? In the days of Jefferson and Jack. son, the people had some idea of what they consiated. At this day, in the hands of thimble-rig politiciane, Democratic principles are present to he people in pretty much the shape of the little

ball under the black leg's cap-"now you see it, and nuw you don't see it." Democratic principles, are apparently, airy nothings, used to amuse; of no value to the people; but rather detrimental o their private treasuries. With the Hendler and Cake factions, spoils of office appear to be the principal principles ; in their greed for which they lately at the Court House in this Borough, came near making valuable jubs for the surgeon and undertaker. It seems to us as if Democratic 2 00 principles had become somewhat mixed up, like trains upon a railway collision, and that it is difficult to detect in the wreck of matter anything in a sound and healthy condition. Come, friend Gazetteer, you have taken an importantestep.-What are your principles? . If you are in favor of a Protective Tariff, and opposed to the Lecompten swindle, you stand on a different platform from your Southren brethren. If you favor Free Trade and are willing to see Kansas enter the Union as a Slave State-the work of violence and fraud-you still stand aloof from a considerable number who trample those principles beneath their feet. Your Democratic principles, Guzetteer ; come let's have them. We are curious to know what they are. FROM UTAR .- The Salt Lake mail has arrived it St. Joseph, Mo., with dates to the 19th Jane.
