THE GOVERNOR'S MESSAGE With the exception of one or two points in

Gevernor Packer's Mes-age, we like it, for basides giving a cheering view of the finances of the Stoto, be makes some practical suggestions, and uspresers his opinions frankly. It is a plain, straight forward, manly Panhayivania Massago. Financially, it shows that \$421,495 of the public debt has been extinguished; that an excess over any amount, can be purchased at fify cents receipts for damages and old claims on the public on the dollar. It is asserted that if the taxes of works from which we shall be free heresfter, was paid to the amount of \$245,865 ; and that, at the belancing of the books on the first of December, the true excess of the receipts over the ordinary-

expenditures, for the fiscal you, was \$903,382,.... The entire debt of the Commonweelth, funded and unfunded, is, at this time, \$39,268,111; against which the State owns, of secured bonds received even the influence of Associate mourg, to effrom the sale of the public works, \$11,181,000; this County, was exercised y fanding to check leaving a balance unprovided foriof \$23,087,111. feet the repeat of low my ter again under notice, The Gaveraor thinks that this debt can be easily there evils. The act of May 20th, 1857, is referred to as well adapted to secure the services of gook teachers; but as the scarcity of money, since it was passed, has prevented the people from setling under it, it is recommended that the State render such aid as may be necessary to test the efficacy of thy act. This, it is proposed to do by a law guaranteeing a moderate sum to one teacher's school in each district crea-ted by the act of 1857. This plan we have long been in favor of, and should like to see it carried effectively into operation. The Governor alludes to other important mat-ters at length, and we commend the persual of the Message to our readers. A PRINCELY CHARITY .-- Not long since there was inaugurated at Halifaz, Bogland, a beautiful park, containing some twelve scree, laid out with taste, and ornamented with mathle statusry and a fountain. It was presented to the town by Mr. Frank Crossley, for the use of the working peo-"ple; it is named "People's Park!" and cost the donor one bundred and fifty thousand dollars. The only restrictions secompunying the gift are, that bands of music shall not perform in it on Sunday, and that dancing shall not be allowed in it at any Mr. Crossley is a gentleman of humble birth.

The son has been enabled to fulfill the obligation in the princely manner stated, while his aged mother still lives to witness its consummation.

A lesson can be drawn from the occurrence which might be profitable here. When we consider the fortunes that have been drawn from this Re

SCHUTLEILL NAVIGATION COMPANY .--- The an nusl Report of the Managers of this Company will be found in another part of to-day's Journal. It is a satisfactory exhibit of the affairs and condition of the Company. The business of the Company during the past year was good, leaving a large balance to be carried to the credit of the profit and loss account; but in order to place the Company on a good financial footing, it has been resolved, and wisely, not to declare a lividend .---An inferesting fact is exhibited in 'connection with the carrying capacity of the line. With its

present facility the Co. can pass in a reasonably favorable shipping season, and with no impediments from strikes, at aggregate Coal tonnage of 1,900, 000. By doubling its locks, at points where there is a combination of lockage, the line could transport 2,000,000 per annum. If steam should be succorsfully introduced on the line for canal and tidewater transport, it could under other favorable auspices altain the tonnage named above. The

It is not the intention to abolish the Board of Directors, but that it shall co-operate with the Judges of the County in the management of the Institution. The bill provides for the employment of a competent man towork the farm ; and also for the employment of a resident physician, part of while duty it shall be to keep the books of the Institution. The appointments of all the officers to be in the hands of the Directors. This bill we think, is a huge step for. night, by cutting his throat from ear to ear. (UENTLEMEN :- Although the year just cloved bas been one of, great depression in the business and monetary affairs of the country, I am happy to be able to approace to the Representatives of the People that the finances of Pennsylvania are in a most satisficatory condition. The receipts at the Treasury, from all sources,

for the fiscal year, ending on the 80th day of No-vember, 1858, were \$4,139,778 35; and the exvemoer, 1030, were 3-100110 30; and the same timb, were \$3,773,857 06. This presents the subject in a light that cannot be shut out; and, though the great and commend-able efforts recently made by the teachers of Pennsylvania, for their own improvement, are fully recognized, it cannot be concealed that there is a work yet to be done, in this relation, which would seem to be beyond their unsided power to accom-

When, however, we look further into the special statistics of this branch of the system, the masterial of improvement is found to be of the most promising kind. | Of the 12,828 teachers of our common schools, 10,889 are under thirty years of age, and 10,946 are natives of Pennsylvania; and a larger portion than in most of the other States, are permanently devoted to the profession of teaching. To render these at for the position to which they sepire-undoubtedly one of the most useful and honorable in the world, and to raise up a constant supply of well qualified suc-cessors, is the work to be done.
