DISSEMINATING INFORMATION. The Philadelphia North American objects to any further soliation on the question of slavery, because as our cotemporary states, it being issued in a chesp form by the enterprising is prattically settled. Freedom has practi- arm of T. B. Our object will be as long as this question of slavery is forced upon the politics of the country, to maintain a National position; and that potry. It is an accident; a disease which af. atvla in which it is issued is unexceptionable... flicts the body, but which we hope to eradito check its progress. If we have succeeded, as we are inclined to believe from the decided | long been needed by thousands who have not felt gratulation. We cannot part from the Atlantic for merit of the respective systems, free and slave April, as far as our readers are concerned, withlabor. In short it gives information requisite to intelligent voting by the masses. An ignorant use of the elective franchise has frequently plunged this country into turmoil, and arrayed section against section. It has too often kept in power the Democratic party. a party hostile to the interests of free labor Inasmuch as it has worked much, almost in reparable mischief, we advocate the dissemination of all knowledge tending to counteract

the evil. Looking therefore, upon Mr. Helpur's work as meritorious, inasmuch as even its enemies can find no loophole through which to attack successfully, we believe that the proposed issue might with judgment and propriety, be increased to two or even three hundred thouand copies. Many of them might be distributed in the Slave States, while the same facts read generally in the North, would produce a harmony of interest and action of the happiest description. We need not enlarge upon the degrading position into which the poor whites of the South are forced; nor upon the dispiriting position of the Southern Opposition to the sham Democracy. These facts are fally recognized, and we of the North are called upon to elevate the one, oppressed brethren, and strengthen the hands of the other. This can only be effected by producing harmony of interest, which harmony must be the growth of disseminated information. To the Republican party is confided the work of organizing the legions of stout hearts and 26 SATURDAT,..... 5 55 6 18 New BL. Union contains them.
