Miners' Journal. POTTSVILLE, PA. "ATURDAY, APRIL 23, 1839.

ARE WE AMATION OF FOOLS Verily, yes. Trade is dormant; set the foreign importations at New York alone, dast month, excreded the exports by upwards of fifteen millions of dollars. By some this sinte of affairs is hailed as a rigo of returning prosperity ; but to the mass of the people, the fact is apparent that flooding denod tax payers, and which could with safety, the country with millions of dollars worth of goods manufactored by low-priced labor in forrign constrier, cannot but have a depressing effect upon the industry of the country, and impoverish the people. Insemach as we tolerate a secure these all else are but matters of secondary policy which encourages importations and closes our mills and factories, our vaunted wisdom may mind, when the settling day arrives, well by called in question. In connection with this subject we observe that the prosperity of France and Bussin, the exponents of Protection, car mines for the purpose of transporting Coal placed in opposition to the condition of Great to the foot of the slope or shaft. It is slow and Britain and the United States, the champions of tedious work, and we have often wondered that free trade; begins to excite comment among posmall becomotives have not been adapted to it .litical economists and statesmen. The enquiry They would be more economical and staisfactory. naturally is, tays the New York Courier and En-It has been urged as an objection that the smok quirer, how can the free trade theory be a true from them could not be borne. Now it is wall une when in opposition to facts and when not upknown that there is but little smoke from a held in practice ? . It is not questioned but that coal-burner, and that little with the progress of this country and Great Britain have superior natthe engine under ground, would rather be a beneural elements of wealth over France and Prussia. it, tending as it would to act as a purifier. The Whence then the anomaly of the greater prosmuke-stack could be placed in a horizontal posi perity in the poorer countries ? There can be no tion.' In many mines Coal is transported a long other answer than by allowing the superior polistance before it is boisted to the surface. To litical economy of the successful countries. Why, uch operations an adaption of this character then, do we not profit by the example? Simply would be of the greatest importance. Our inver because as a people we are too busy in acquiring tors should turn their attention to; this desider. wealth to be willing to waste time in studying tum in Coal mining. proper economy in expenditure and saving. Hence our present situation. We do not care to compli-"ANOTHER LEAK IN THE TREASURY .--- On the ev cate the question by bringing in Great Britain, of the adjournment of Congress, Senator Johnwhich is at best only half a free trader, and that son, of Arkansas, succeeded in fastening spon the half warily chosen after the experience and dis-Indian Appropriation Bill an amendment appr cussion of Bre centuries. The pertinent question pristing \$10,000 for the purposed of returning to ourselves is, why are we, with a country the some children to their friends in Arkansas, who richest in resources in the world, in the present had been captured by Indians and subsequently condition? Just out of bankrapity and with a rescued and are now in Utab. Immediately after foreign debt of fice handred millions of dollars ! the passage of the appropriation. a brother in law We have sold our cotton and tobacco, crops, and of Senator Jubnson, and another person, a partichave already realized in imported fabrics the full plur friend of Mr. Denver, then Superintendent amount. We shall have no bing more to export of Indian affairs, were appointed to return the until next fall of material amount unless in case of an European war. We have imported into the port of New York already this year, nearly seventy millions of dollars, and are importing goods at the childron at a cost to the government of six the rate of rix millions of dollars a week. How hundred dollars ! and when shall we obtain means of payment unless we draw against future crops? This course is the universal one of producers, both individu- Cass and Buchanan, are reinvigorating themselve als and nations, and until we cense to be depen- | for a race over the Charleston track next year, for dent upon pauper Europe we shall countinue in the Presidential sweepstakes. the same course. The fact is forgotten in the the-

ories of free trade for farmers, etc., that other things being equal, nations are rich and prosperous in the order of their manufacturing independence; or, in other words, that in a list of the countries, in the order of their wealth, the lowest taking, which commot fail to be beneficial to the would be the producers of raw material, and the whole reading community. We allude to the edihighest, the manufacturers ; see the countries of tion of Sir Walter Scott's novels, now in the course Europe for example. The statement is a suggesof publication by them, and which is to be comtive one that Great Britain makes as much out of our colton crop, after clothing her people, as we a piece, or five dollars for the whole. These volduy and it is not exaggeration to say that the to-umos are printed in double column octavo, and drudgeries connected with He tal prefits on our cuttin erop do not equal the each will contain about one hundred and twentyprofits of the mills in Great Britain in a radi- fire pages. The entire sett of twenty-six volumes be of twenty five miles. Let us examine the star will be mailed, free of postnige to any person re- attained by Juhnson's Patent tistics of the subject. The total value of unman- mitting five dollars to the publishers. This is an one of which we have in, use ufactured Cutton imported into Great Britain last opportanity, never before had, for obtaining the satisfaction. The principle is year, and the exports of manufactured Cotton Waverly Novels entire, at a price within the means tion gairk, and the save in we

THE REDUCTION OF THE STATE TAX .- In noticing the fight adjournment of the Logislature, we etated that the bill reducing the State Tax on personal and real estate to two mills on the dullar, had been enacted. This is ministake. It. passed the Rouse by a unanimous rote; but in elected in July following by the commissioned the Senate it was referred to the Committee of "officers. are given in the following estimate :

ty-five millions of dollars. The total value of our Cotton crop is only one | will; The Anaore forming the sixth volume of hundred and sighty millions of dollars. We see their series of the Waverley Novels was published then that Great Britain from her cotton manufac. last wock. tures has a home consumption of cotton goods for thirty millions of people, and a profit equal to half the gross value of our cotton crop. Which makes the most, the producer or the manufacturer? It is often also held up that our export of agricultural products to feed the working classes of Europe is a return for using foreign labor .--

Let us examine the figures. . The exports into the whole country for last year were as follows : Production of Fisherles and Forest. \$19,347,445 Do. Agriculture (Cotton oxcep'd), 70,245,747 Do. Cotton. 1:1,386,661

Do, Colton, Do, Mauulactures.

\$251,222,849 The total exports of agricultural products, cutton-excepted, for the last year, from the whole country, are just about equivalent to the imports into the port of New York since January 1st .-The total export of manufactured goods last year. To the Bard of Ashland, J. A. Hen-nessy, Esq. it is an Yankee invention. We advise sportsmen will not pay the annual interest on our foreign debt. But it is useless to multiply examples .--Individuals content themselves with thinking that their share in the loss, by a false national policy, is small, and not worth their interference forgetting that the effect of a nation's bankroptcy is individual ruin, for proof of which see example of last year. If the experience of that period will not change our national policy, arguments are useless, except as cautions to the few who benefft by warnings. As for the rest they will still wear the cap and bell ., and we shall still be recognized throughout Christendom, as a nation of fools. Enviable reputation; truly ! . .

BOROUGH ELECTION. An election for Borough officers will be held in Pottsville on Monday, May 2., It is hardly necessary to advert to the importance of solacting for all the offices to be filled, good men, for we believe that our citizens very generally, recognize that fact. Yet we cannot refrain from urging upon them attention to the matter, and when the day of election arrives, a discharge each and all, of their duty at the polls. Many worthy people are accustomed to imagine that a local election is April of small importance, and leave too frequently, to injured, have those who neglect their duty any right to complain? Assuredly not. To avoid Thermometrical Record for the Week

therefore, any such result, we enjoin upon our citizens generally, to vote on the 2d proxime. Among the most important officars to be select. [3at., April 16,-470] [450 ed, are councilmen and school directors. nountain frowns in bold outline, gradgingly admitting the inclined planes of the Mine Hill Baliway through a deep. dark, and savage chasm. The planes terminate about one mile from Perote, and the railway is thence worked to the coal mines at Ashland by loc-motiva properties of Holloway's wonderful restorative. power. Coal exists all slong these planes. Mr. Wybkoop has been engaged in explorations, and has stru the out-crops of several distinct veius-all of which di with a steep angle. Besides adding to the embellish ment and Improvement of Perete, Mr. Wynkoop has re MR. KENNEDY, of liozbury, has discovered in one of our common pasture woods a remedy that waily embarked in an enterprise, the success of which aunot fail to add to the material interest of the country. 'He has appropriated five or six acres of ground fo a vineyard, and has planted 'no less than six thousand three-year old roots of the vine. principally of the varie-

ties known as the Isabella and the alawba, with a few odds, one of the finest grapes ever yet produced. He has selected a field having a sterp acclivity, and a south-
