ASHLAND. The last number of the Miners' Gaz nins an editorial article commencing as follows "The Bill to raise our Borough taxes from five to on mills, bas passed both Houses of the Legisla ire, and with the Governor's signature, has beome a law." This is either a mietake ar mie intement. The recent Legislature passed no Act raising the Borough taxes in Ashland. There was a Supplement passed to the Charter of that Borough, nuthorizing the citizens hereafter to elect nine Councilmen instead of five, the number heretologic elected, and authorizing the Town bancil thus elected by the people, to levy such edient and necessary, not exceeding ten mills on he dollar of the valuation for County purposes. is true that by the original Charter the power of the Council was limited to five mills tax for Borough purposes, and that the Supplement inreases their power to the same extent already xisting in the Borough of Pottsville and in every lownship, and almost if not entirely every Boough in Schuylkill County, but it does not folow that the power of taxation will be exercised o its limit. The people of Ashland will continue control their own taxation and limit it to whatever is necessary, by selecting wise and lis- to Baltimore, for 1859, as follows: the Gazetteer, that before designating the pew law as a Know Nothing and Republican measure, it would have been well to have made some inquiand examination as to what citizens of Ash. and were among the petitioners to the Legisla-

EXPLANATORY. Last week's number of the Democratic Standord, a paper published in Pottsville, by a grateful, particular friend of Governor PACKER, complains articular friend of Governor Packer, complains are equally quiet, but prices are accounted; sales if the publication in pamphlet form of the of 50 tons refined English Bars at \$57 56, 6 mos. peeches of our Representatives on the Bill for the protection of the wages of labor, and alleges that it was done specially to deceive the miners of this County. As the pamphiet alluded to was

rsued from this effice, it is no more than simple justice to say, that our Representatives had nothing to do with its publication, and that it was or lered by some of our friends, who desired to show to the public that the pledges of the candidates of the People's party in the campaign of D. II. Frost. Room? No. 2, 110 Broadway. dates of the People's party in the campaign of for One & Co., 5th and Chesnut streets 1858; had been redeemed. As for the miners and laborers, they can afford to be deceived by speeches and votes ending in laws for their protection, much better than they can afford to be deceired by the false professions and promises of the Buchanna Democracy before the elections, resulting in speeches, votes and laws destructive of their interests, after the elections.

The Standard asserts that "if the members from this County have endeavored to do their duty, they have only done what they were elected to do." This is true. Our Representatives have done no more than we promised for them and they promised for themselves, before their election-their duty to the people who elected them, and the only explanation that we can give of the numerous encomiums passed upon them from all quarters, is, that the people of this County were ngreeably surprised to find that the recent Legislature was not se formerly, when we were repreon MONDAY, June 6th, 1859, at 1 o'clock, sented by Democrats, a mere "Circumiccution P. M., for the purpose of electing Delegates Office," apparently occupied in contriving how not to attend the "State Convention," to be held to do anything, but that some regard was paid to at Harrisburg, on Wednesday, June 8th, 1859, the interests of Schuylkill County, and some legislation recured calculated to advance its wel-

fare and prosperity. As the Standard is "gathering facts in regard o the defeat of the Dimes Saving Institution of Pottsville, for the purpose of unmarking another political demagogue," we will furnish some facts with regard to that measure, which may or may not faellitate its labors. The Bill passed the Republican House in unexceptionable form, and BISHOP DOANE of New Jersey, ded at Burling went into the hands of the Democratic Committee on Banks in the, Democratic Senate. The Committee, after holding it for several weeks, reported it to the Senate with a recommendation that it be negatived, as it did every other Bill for an-flepublican, we are indebted for a list of the the Incorporation of a Bank or Savings Instituofficers of the Old Fellow Lodges of the County tion. Every one of the Bills thus negatived by the Committee that was afterwards voted on by the Senate, was defeated by Democratic votes, and of Mr. Joshua L. Bailey-New Trade Dry Goods the Dimes Savings Institution would inevitably House of Philadelphia. He advertises a complete have shared the same fate if it had been voted on. Of what possible service could it have been to force the Bill to its defeat, in the face of a steadfast Democratio majority against every similar proposition? If the Standard thicks the Bill was a good one, and calculated to advance the interests of the economical, Dime Saving poor, let it "unmask the demagogues" of its own delecta-

ate rendered its passage impossible. Tue municipal election of Philadelphia, will be held on Tuesday, next. The People's Party has nominated an excellent ticket, and is sanguine of success. Philadelphia on Tuesday next has a double duty to discharge-first to rebuke the corrupt and tyrannical Buchanan Administration; next to encourage the interior in its determination to give a death-blow to that dynasty in October. Will she do it?

THE COAL TRADE. **州岛首直面 第二十二**

Pottsville, April 30, 1859. The quantity sent by Railroad this week is 30,184 14-by Canal 33,470 14-for the week 63,655 08 tone, against 67,231 tons for the corresponding week last venr. The Canal, it will be observed, leads the Railrond again over 3000 tons. The trade has improved a little within the last

week, but prices rule ruinously low. The trade sums up this week as follows:

101,975 910,887 125.028 1,171,695 101,975 910,887 22,053 260,808 an the verdictin the Sickles case, as a great All the Regions show an increase for the week rage. 13,496 DELAWARE, LACKAWANNA & WESTERN R. R. COMPANY, April 12, 1859 .- The following will be the prices for Scrapton Coal during the year 1859, delivered on board vessels at Elizabethport :

The above are each prices. 40 cents per ton additional Bedelivering Coa n New York. The prices for Frate, Egg, Stove and Chestne Coal are 5 cents per ton higher than the prices charged by the Delaware & Hudson Company on board of vessels at Rondout, and from 20 to 25 cents per ton higher than the prices promulgated by the Pounsylvania Coal Company. All the Coal Companies centering at New York,

pursue a very judicious policy in fixing the prices of their Conl. For instance, they sell Lump and Steamboat from 10 to 25 cents per ton lower than the prepared kinds, thus creating a demand for Lump Coal without the necessity of breaking it up at the mines, thus saving the wastage in breaking, and preventing the accumulation of immense dirt piles-while they add the wastage in breaking to the price of the prepared kinds. By this means they are enabled to sell large quantities of their Coal in Lump. In this Region, Lump, Broken, Egg, Stove, and large But, generally sells at the same rates. Occasionally, when there is a great demand for Stove, it commands ten cents a ton advance on the other kinds. There is one foature however about this business that may as well be mentioned, and that is, that the prepared Coul is improved in proportion to the amount of Lump broken up into the smaller kinds, and that is one reason why the Schuylkill NEW ADVERT'MENTS different markets, over the Prepared Coal of the other regions, for household purpozes.

We have Liverpool dates to the 16th instant. The tener of the news is warike. It is not improbable that by July hestilities may commence. Lady Morgan and Boslo, the prima donna; are dead. Distressing.
A young lady, named Matilus Sawyer, beautiful and intelligent, and who was to have been married in a few days, was burned to death, in

New York on Thursday morning, by a burning fluid-lamp exploding, and setting her dress on

The Tribune is Right. The Tribume is syight.

The New York Tribume says that it utterly seems the fashionable assumption that such exposures as those of the Key tragedy are demoralizing. On the contrary, it regards them as the thunder storms by which the moral atmosphere is improved if not absolutely parified.

Bormidable Strike.

A "strike," which has been in progress among the brick-yard laborers in St. Louis for some days, assumed the form of a riot on Wednesday. The police being unable to quell the disturbance, it was found necessary to call out the military, and the result was the wounding of a number of persons on both sides, and the burning of a sawmill, with a considerable amount of property.

We recently gave as our opinion that Europe would be convulsed by war before the close of the year. The Lundon Times of April 11th, says:—"It would be vain to shut our eyes to the truth that the preservation of the peace of Barope ap-pears to the closest observers to become every day more desperate, and that all probability favors the kelief that the struggle is even now upon the

ere of its commencement." The New York Tribuse says:

The appointment of the Chevaller Wikoff as bearer of the Chinese Treaty, as already autonuced in the Tribuse, is in the nature of a compressive of the yet unadjusted balance for carrying the dispatches to Russia last year. Over and above the liberal allowance previously made, which the President refused to pay, Mr. Wikoff threatened our venerable President with the disfavor of the Herald. So the secret service fund favor of the Herald. So the secret service fund

A NEW AMERICAN SCULPTRESS AT ROME -An extract from a private letter, received in New York City, gives information of a new triumph schieved by American art, with the aid and comfort of American liberality and good taste, in the Eternal City. The correspondent writes that
"The Americans who muster in force this Winter and find few pleasanter salose than that of Miss Cushman, are greatly delighted with the first completed work on any considerable scale, of a new American lady-candidate for fame in that and of surpture which seems to be the special vo-cation of our much whittling nation. The lady in question, Miss Stebbins, of New York, has profited, like Miss Hosmer, by the counsels and super-vision of Gibson, and the careful instruction of Akers, to such a point that a statue just fresh from her chirel is now attracting the highest suffroom accounts in now attracting no nignest sun-rages. This work is one of two ordered by your townsman, Mr. Heckenber, in a double spirit of homage to the Arts and to that great Industry of which he is so honorable a representative. Mr. Heckenber, who is well-known as the largest coal owner of the United States, desired the lady arities to execute for him two typical states—one of Industry, the other of Commerce. It is the Industry which has now been completed, and which has been clothed by Miss Stebbins with graceful good taste in the attributes of the Miner. The fourte is that of an athletic administration. good taste in the attributes of the aimer, and figure is that of an athletic, admirably propertioned youth, who bears upon his right shoulder the pick, and in the front of his picturesque slouched hat the miner's lamp. The weight of the body is thrown easily and naturally upon the right leg and the left hand rests with the care ness of manly strongth upon a block of marble, drilled and hown in the manner of a mass of coal The symmetrical vigor of the figure, admirable as it is, is not more admirable than the lefty in gennous beauty of the classic head and face poised in an attitude equally unforced and striking upon the graceful, well rounded throat. The ing upon the graceful, well rounded throat. The drapery of the full shirt, open-at the neck and close gathered about the waist; is managed with peculiar skill, and while the whole figure reminds ones trikingly of one of those magnificent Gothio Kings, whose images stand in the vestibale of the Museo Borbonico, at Naples, the spirit and air of it are purely modern and American. It is, in truth, one of the most felicitous combinations of every-day national truth, with the enduring and cosmopolite truth of art, that I have ever seen, and it is to be hoped that on its arrival in Amere ica, the liberal owner will give the public an op-portunity of enjoying a work which does equal credit to the sex and the country of the artist."

CANAL LANDINGS-GREENWICH AND SPRUCE STS. THE PLAY OVER .- On Tuesday last the curtain dronped on the Sickles farse, and the dramatie persone,-court, counsel, jury and prisoner,have retired and taken, off their costumes. Of course Sickles was acquitted. No other result was anticipated. It had been better if no trial had taken place, rather than that farcical proecodings should have been spread before the country. Life is held already, at too chesp a price in this country. A Washington jury offers a premium to assassination, and American women have the equivocal compliment paid them, that the pistol and knife are indispersable to protect their virtue. We have no sympathy with Mr. Key, for his crime merited punishment, although committed with a wanton; but we believe a full expose of Mr. Sickles's previous career, would place him in an unenviable position, and much mitigate the alleged offence against his peace and honor. At any rate we protest against the acquittal by a jury, of a man known to be guilty of a crime. It is subversive of justice. It is ruinous to the morals of society. Its effects will be reaped in blood. We therefore, condemn the action of

the Washington jury, on the evidence adduced in THE POST OFFICE DEPARTMENT.-For some time part we have received frequent complaints about the delay in receiving the Journat on the part of our subscribers abroad. This week we received a letter from one of our subscribers in New York, from which we make the following ex-

. "We may also siste at encer that your Jour." nalis always reach us very late, frequently only on Tuesday, seldom before Wednesday afternoon, whilst the other papers from your place are al-ways received on Monday morning." Our papers are placed in the Post Office bere on Saturday morning in time for the morning mail which takes the other papers, and our Postmaster assures us that they are despatched on Saturday morning. They ought to go to New York by Saturday night's mail, and our subscribers should receive their papers on Monday morning also, unless there is rescality practised at some point in order to detain our papers from our subscribers while the others are delivered. We have written to the Postmasters of New York and Philadelphia, for the purpose of ascertaining where the fault really lies.
