POTTSVILLE, PA.

SATURDAY, OCTOBER 1, 1859. THE COMING ELECTION!

LET EVERY VOTE BE POLLED! THE IMPORTANCE OF SUCCESS. It is hoped that the friends of Freedom and Protection are fully alive to the importance of a thorough organization and a fall vote at the approaching State election. While we have the gratifying assurance from every other part of the State that the members of the People's Party are thoroughly natied and rangular of success in their respective localities, what are we of Schuylkill County doing? Are we fully alive to the importance of net only redeeming the State from Free Trade, Pro Slavery Buchanaulem ; but of relieving this County from the stigma of sustaining a policy which has prostrated our industrial interents, and brought our workingmen down to Ten Cent a day wages? Are our tax-payers, to a man, prepared on the lith, to vote for reform in Connly matters? Are they aware that through the malfemence of Democratic office-bolders, the Stat has obtained judgment against this County for \$15,000, which the already operously taxed citi sens of this County, will be compelled to pay again? Will they endorse these wholesale steal ings? Now that reforms in the conduct of the Alms, House and in township matters have been commenced by the Opposition, will our citizens retard the progress of the good work, by voting for the candidates of a party whose iniquities in this County have been the subject of comment be youd the boundaries of the State? Let the taxpayers answer these questions, and to the point

at the ballot-box on next Tuesday week. The triumphent election of THOMAS E. COCHRA to the office of Auditor General, and WILLIAM H Krin to the position of Surveyor General-the nominees of the People's Party on their State ticket-is unquestional. The people sickened by the vascillation, weakness and positive corruption of the Buchenan Administration, have determined to administer a most signal rebuke. Their denunciation will sweep like a whirlwind to the portals of the White House, conveying to its miserable inmate a warning of the fate his party will experience in the Presidential campaign of 1860. Of Pennsylvapia we are confident. She will do her duty on the 11th. But what shall we have to while the trade is so depressed, they are compelled record of Schuylkill County? Will she take a to rob the mines, as nearly one-half the Coal is a brilliant part in the contest, and come out re- lost, and the landholds a loose the reats entirely. generated and free? Shall our most admirable County ticket be elected by a handsome unjority? Compared with the Sham Domocratic ticket, ours stands Hyperion to a Satyr. Even old Democrats asknowledge the almost unprecedented strongth of our ticket, and one stated to us a few days since that be intended to vote it, from top to bottom. And thus it should ever be. When good men-men in whose ability and integrity we can place full confidence are nominated for office, they should be supported by every tax-payer, for the reputation of our County and our solvency, are more important than the mere success of a party or clique. Until this view is generally adopted, it is to be feared that the best men of the country will refuse to take office, and that the debasing grog-shop and shoulder-hitter influence will maintain its preponderating influence in the selection. of office-holders, from the President of the United States down to constable. We therefore, call upon every respectable citizen and tax-payer of Read the article under the Cual head on the subthe County, to support the People's County tiexet. | ject of the road. But to be successful we must impress upon our friends the necessity of active and unremitting exertion up to the day of election, and on that day. the daty of seeing that every Opposition voter shall come to the polls. Remember that the aggrogate is made up of individual votors; that tea votes left at home in each election district throughout Pennsylvania, will amount to more than twenty thousand roles in the State. Urge upon your friends and acquaintances to vote. Remember that the policy of the Buchanenites is to ateal a march upon us if possible. While they seem to be indifferent and inactive, they are secretly making the most tremendous exertions to rally their scattered and disheartened forces, and the unly ray of hope left to them is, that by tact and organisation, by the use of Government patronage and the people's money, they will bring their votes | New York of Domestic Produce; and Miscellane out to the election while ours shall remain at our Goods, including home. Men of Schuylkill County-yea who are now suffering so terribly from Democratic misrale and mismanagement, we urge upon you to let no feeling of over-confidence, no supineness nor indifference to prevade your ranks, and cause you to throw away the opportunity of inflicting another terrible and stunning blow on the ranks of the free-trade and sisvery extension Buchananites.

A PAR BANK NOTE CURRENCY.

As our readers are aware, we have at differen periods, referred to the subject of the interior banks keeping their notes at par in the metropolie of the State, and arged it as a duty due to the public that they should. Of course we have been assailed by the organs of the shavers, for the position taken : but it is a correct position, and we are happy to know that the business community so esterm it. The Germantown Telegraph of a which, while we transfer a portion of them to our columns, we most heartily endorse. They are as

A refusal to do so, caure their notes to be under per and worth less that the amount called for on the face of them, every where except in the immediate vicinity of the re spective institutions. This, it is supposed, is their object. Having lost their self-respect, they pur-aue that course which will keep their paper in cir-culation the longest; and if it should be destroyed and never returned upon them, so much the better. Common honery should induce these banks to

The bank thus receives \$100.25 in cein, or its equivalent, for every \$100 of its paper! But this is not all,-the broker does not rederstanding goes farther:-he loans it out again nounce their will in distinct and decided tones? in the very face of the city banks, to needy peo-ple, and receives for this service one-quarter per And so the mill keeps grinding their grist to their own aggrandisement and the injury of the public. If this is honest conduct, and allowle in a Christian community, we withdraw our

By the influence of these delinquent banks, the act of Assembly which was in force one or two vestr, compelling them to maintain their notes at par in Philadelphia, was lately most anwirely repealed, thus giving them full power to flood the State with their snorted name. \$1,450,000 This sum will be sufficient to build the Road from Aubara to Allentows, with single track, graand for a double track, laid with Bails 69lb to the yard, with Iron Bridges, constructed in the most substantial manner for a Coal Railroad. This is a careful estimate of its cost, with sidlings, depots, &c.; equal to a capacity for carrying one million tons of Coal. in addition to the other business. With this subscription to the stock, the Company pledge themselves to build the Road for cash, without a single cent of debt. After the roadway &c., is built with cash, they propose irsuing Bends at par, for \$600,000, to procure an equipment of Locomotives, Cars &c., which would be the proportion of equipment fur the transportation of one million tons of Coal with the other

bneiness. We propose to divide the sum of \$350,600 as ollows, among the different interests : The quantity of Coal that will be mined in chaylkill County this year, will exceed THREE MILLION TONS the rental on that quantity, at an average of 28 cents per ton, will amount to EIGHT HUNDRED AND FORTY THOUSAND DOLLARS per ansum :

To the Coal land interest we put fown \$200,000 Payable in two years, which is 12 per cent. on the amount of rents received for the two years, t be exchanged for Stock of the Company. To the citizens of Schuylkill County, Coal Ope

If these interests in Schaylkill could not raise this sum in two years, all we have to say is, that they deserve to be totally broken down and ruined. and are utterly unworthy of any aid whatever, and ought to be abandened to their fate. The landhelders would save the 12 per cent. on heir rents in two years, in the better working of their collieries, and the incressed quantity they would produce of Coul, from the same area, because And by the increased product of the Mines they will receive the whole investment back again in two years after this road is built. These are fact

why we defy any person to controvert. Without this road we boldly state that the Bente will continue to decrease annually in Schuylkill County, and next year, if nothing is done, they will diminish at leat two or three hundred thou sand dollars.

A reduction of nearly one-half will have to be made, or their Mines must stand idle and go to ruin. Has not this season's business given you a foretaste of what will follow? Lindholders look to it in time, if you understand your interests. It s not a gift we ask, but an investment of \$200, 000 in stock which will earn 10 per cent. two years after the road is built and fully under way The New Jersey Central earned 12 per cent. divi dend last year, and carried only about a half mil lion tons of Coa', together with her other trade.

We would therefore advise the members of the committee recently appointed to prepare at once a strong circular setting forth the interests of the of subscribing the above named sum from the making the connection from Mount Carbon to Auburn, a distance of ten miles. These ten miles must be amalgamated with the route extending from Anburn to Allentown so as to make the conpections complete under one wanagement.

The Court directed the Grand Jury to wisit the Alma House, and to examine as I thought and supposed, all and everything connected with the institution, and experially into the way and manner in which the accounts were bept, that I had been informed that errors to considerable statent had been committed and that the some could and would be pointed out. I am certain that the Court acted upon information given by somebody. The Grand Jury failed in getting the promised ignormation, and therefore had to report accordingly. The Court had been decrived by somebody, and ough therefore not to be interregated as to what was accomplished by the Grand Jury visit.

(excuse me for calling ill, names.) knows very well from whence the report about errors in the Alms Houre's books and accounts emanated, and therefore should not now ask the question "how much did they accomplish." Let the public for instance, sak itself; who naturally gave origin to this report of errors lai the accounts? Would it answer, "Some one of the old officers." Is it resonable to suppose that any one of their would expose their own errors and frauds, if there were any? I think not, It must then be some one saxiout to gain notoriety, and in my opinion, will gain it ere; he becomes an "old stage?" as he calls one of the Grand Jurers. Unly let him continue his course, he will soon be a benefactor. It, therefore, that Uourt was declyied, whereis lies the deception? In the falsifier of course.

On our arrival at the Alms House, the Steward met us and conducted us through the variety buildings, and I believe it was the unanimous opinion of the Grand Jury, that as a Steward he performed his duty; everything appeared clann and neak and as well as could possibly se expected, and that he was entitled to the thanks of the public of which we made mention in our report to the Court.

At the Sebuylkill Haven Agricultural Pair o be held next week, we learn that the celebrated trotting hope Piler will be exhibited, and his poutes we precume tested. This will be an interesting feature of the Pair.

We seknewledge the receipt of a lot " beautiful Siekle Pears, from Mrs. A. Russel, group of goffee. on a tree which we sold her 20 years agafruit on this tree this year, at the name selling price in our cities, would have been worth from \$30 pb \$40.

28 The Good Intent Fire Company of this Town Hall on Teepday evening next. As the Good Intent is always prompt when duty calls, its friends should be prompt next werk in sceing that its ball shall be a complete success.

The Improved Speciacies of Joseph Stern Optician, are admirable articles for strengthening and preserving weak and impaired vision. His office this week is at Wintersteen's store, Main street, Schuylkill Haven. Mr. Stern bas also, a awair bes sequences at a transfer and views. BO A Good Morement.-A meeting of the

Pottsville Rolling Mill men, and others favorable to the organization of a Workingman's Library, will be held at the Mill this afternoon at 5 o'clock. Hon, James H. Campbell, Robert M. Palmer, Biq., and others, will speak. The workingmen should attend it en masse.

25 On the 5th proximo, will be sold one of the most valuable farms in this County. It is situated in West Penn township, four miles east of Bingrold: contains 330 seres, and is known as the "Kepper Farm and Tavern Stand." For particulars we refer to advertisement, signed Jacob Hammer, Executor.

Za The Perserennes Pire Company of Tamaque, had a parade and ball on Wednesday, in which the Humane Hose Company of this Borough, participated. The Humane members speak in the highest terms of the hospitable treatment they experienced. The carriage of the Perseverance is said to be a nest affair.

Dr. B. S. Langdon exhibited to us a few days since a collection of flowers which he had received from the American Consul now at Antwerp. They were selected from the public gardens of Liverpool, London, Brussels and Antwern. They were not in the least mutilated by transportation, and their colors were as perfect and as vivid as when plucked from the stock. These flowers we believe are not indigenous to the American Continent.

25 Cricket .- The first eleven of the Pottsville Club will not go to Philadelphia until Thursday next. They play the Germantown Club on Saturday. On the following Monday the "All England" play twenty-two at that City." The first dievens of the Pottsville and Oak Hill Cricket Clubs will play a match on the ground of the former fo-day. The wickets will be pitched at 10 o'clock this morning. The first elevens of the Pottsville and Atlantic

of Mesers. J. W. and J. I. Alexander. These dies relative to musical theory and practice, un-

feeted, the corps will start on Monday morning next, for New York City, via. Easton. It will be accompanied by the Hamburg Cornet Band. The Company will be received at Easton and escorted to its quarters, by the Citizens' Artillery Company. In the evening a ball will be given, at which the corps will be present. On Tuesday morning the Company will start for New York, at which point it will experience a brilliant military recen tion. A committee of Pennsylvanians in citizen's dress, will also be at the wharf, to juin in the recepton. The corps will remain in New York un til Thursday, when it will return home via. Esston. The Company will take some fifty muskets, and we doubt not the excursion in every respect

will be one of the most delightful the Company ever experienced. Under the admirable instruction of Major James Nagle, we are happy to know that the corps will go in effective condition Antunnal.-We have now fally entered

upon the and, sweet season of the erere and yellow leaf." The forest monarchs are rapidly being despoiled of their gorgeous diadems, and every thing in nature indicates that summer's glories are "passing away." On every hand we behold evidences of the fact that-

"The melancholy days have come, The suddest of the year." And while we regret the departure of summer and its many scenes of besuty, we cannot but look with pleasure on the varied glories of automa. The trees, which a little while ago were clad in bright green, are now changed to red, and yellow; and the gay flowers which gladdened the eye bave withered away, yet we have the rich fruits of the tree and the vine, mellow and delicious to the taste. Yes, autumo, with its melancholy, still

peresses many redocuting features. Morn on the mountain, like a summer bird,
Lifts up her purple wing, and in the vales.
The genile wind, a sweet and passionale moore,
Kieses the blushing leaf and sire up life
Within the colemn words of ash deep rrimon'd,
And tilver beach; and maple yellow-leaved.
Where' Autumn; like a faint old man, aits down

A QUESTION ANSWERED. TO THE TUNE OF TANKER DOODLE.

BY THE BARD OF TOWER HALL. We're had a note—"You noisy Bard, Why don't you step your expers, Displayed in your fautastic tricks Of writing sough for papers!"

We say, because whenever we With pen of steel indite them We wound some knore who, writhing, turns And asks us why we write them Sometimes, at least, with illumor's spice A poem we can season, While Fact and Fancy, closely linked, Are seen with Rhyms and Respon.

The Journals, strong against a wrong, Can fee opposing scatter— "Great Guns" they have, and "He our wish To furnish "Leaded matter," To shoot at "foilies an they fly,"
For if we rightly sing them,
With nerve, and well directed sim,
Nine times in ten we'll "wing" them.

Vice stalks abroad and well we know Some sinners will be toasted. By fires of wrath, if their accounts Are in the papers posted; And such, with all the *Jacks and Hils," The hills of felly climbing. We shall to public seem hold up, In sharp, surrastic rhyming.

We'll take them carnestly in hand With neither glove nor mitten, And strong in right our lines shall be, Though they are not by written. On Tower Hall we'll raise our songs, From verses charged with thunder.

The Clothing made at Tower Hall,

We'll have the people buy, sir, By singing songs to make them is Or songs to make them cry, sir. For, if on laughing they grow fat, We'll feast them so with fan. sir, That ev'ry patron's weight shall be At least a haif a ton, sir; As in this argument there's weight.
The people, less and small, sir,
Will all, of course, say "tio aboud!
You hard of Youer Hall, sir,

And let as have the fanny things, That we may grow and grow, sit and offed to the Tower Hail For change of Raiment go, sir." We thus shall sing, but now and then Shall do a little preaching— Our songs and sermony both alike, Some useful leave teaching.

Imperial Depurative. This Medi-ine con mends itself to patients and their confidence, for two reasons—Next—It is just what it is represented to be, and will do all that is claimed for it—but it will not core every disease, because it is expecially adapted and prepared for one class of complaints, and these it curse—In the Second place, this Medicine is pure, highly concentrated and active—so that it of one masters the disease—if it is curable. Large dose, we long continued use it it is not asked for—One to The bottles will in a majority of cases, subjuit its great curstate properties. In this respect, time and money are not wasted in long and fruitless efforts to obtain a curse. In Cancervair and Seconfulous diseases, no medicine his ever equaled it in its successful curs.

Telier, so obstinate and inversie, cannot resist the cleaning and purifying effects of the inversit in parts.
