## POTTSVILLE, PA.

SATURDAY, MARCH 3, 1860.

FOR GOVERNOR:

## ANDREW G. CURTIN.

ADVERTISEMENTS crowded out this week will appear in our next issue.

READ Hon. Henry K. Strong's able speech, published in our Supplement.

WE are indebted to "Broad Gauge" for his Reading letter, which our limited space forced us to condense into another shape.

VERY judiciously, the Republican National Committee has changed the time for the meeting of the Chicago Convention to the 16th of May next.

HENRY D. FOSTER, the Democratic candidate for Governor, ran some few years since for Canal Commissioner, but the Opposition Power (Gen.) was too much for him. He succumbed. We fear his fate this year will be quite as unenviable, as he will be permitted to retire to the shades of private life covered by a Curtin.

THE DIME SAVING INSTITUTION.—We have seen the bill incorporating this Institution, and find nothing objectionable in its provisions. It promises to be what the people want, a *bona fide* Saving Institution, and not a "shaving" establishment. Being well guarded in this respect, we hope the bill will pass. We understand and we regret the fact, that a supplement has been added to the original bill, calculated to impede its passage. As a good measure the people want it. To clog it, is to oppose unnecessarily, their wishes.

THE "JEFFERSON DEMOCRAT," we learn, finds fault with Cob C. L. Pinkerton, because he speaks too much in the Legislature. This is easily accounted for, because the Democracy send members there who cannot speak at all—and of course a large amount of business for the County devolves upon Col. Pinkerton, which requires him to speak oftener, probably, than he would under other circumstances. The Democracy must be hard run if these are the only charges they can trump up against the People's representatives.

☞See advertisement of Dr. Sanford's LIVER INVIGORATOR and Family Cathartic Pill, in another column.

NEW CROP NEW ORLEANS SUGARS, just received by NICHOLS & BECK, corner Second and Market streets.

☞SPRING SILKS! LATEST STYLE!! Just received a lot of FINE SPRING SILKS latest style, at E. MCDONALD'S Dry Goods and Grocery Store, next door to Frank Pott's Hardware Store, Centre street.

☞"Their name is Legion," may be applied to those who die annually of Consumption. Science has of late years sensibly diminished the number, and it is gratifying to know that *Dr. Wistar's Balsam of Wild Cherry* has created a potent influence in attaining this end.

Buy none unless it has the *written* signature of "*I. Butts*" on the wrapper.

NEARLY A PANIC.—This morning there was a perfect rush to get some of McLean's Strengthening Cordial. It is astonishing what a large quantity of that article is consumed. It shows conclusively that it is just the thing required in malaria or fever districts, as a preventive for Chill, alias *Shakes*. Everybody, and the rest of mankind "should try it, if they wish to become healthy and strong; and those that are well should take a little every morning to keep them so. We have tried it.—*Evening Mirror.* 7-4t

BOERHAVE'S HOLLAND BITTERS.—The press of the country has been particularly loud in the praise of the Bitters. Among the many notices, we offer the following to an impartial public:

"It is a well known fact that we do not puff patent medicines, and that we but seldom advertise them, but Boerhave's Holland Bitters comes to us endorsed in such a manner, as a specific for the disease it professes to cure, that we not only advertise it, but give it the favorable notice unasked by the proprietor.—*Handel Zeitung, N. Y.*"

The Philadelphia *Argus*, in speaking of the late exhibition held in that city by the Franklin Institute, says:

"In noticing medicines, we are always extremely cautious, unless satisfied of the merits of the article. Among those exhibited is the celebrated Holland Bitters. This medicine has been extensively introduced into every State in the Union, and into the Canadian Provinces, principally within the last two years. The exhibition shows testimonials in every language known in America, among which we notice one from the late Hon. John M. Clayton, of Delaware."

"Boerhave's Holland Bitters are an invaluable remedy in all cases of Dyspepsia. They impart a strong healthy tone to the stomach, and are the best renovators of the system generally."—*Chicago Bulletin.*

"Dyspepsia, Headache and Indigestion, by which all persons are more or less affected, can usually be cured by taking moderate exercise, wholesome food, and a dose of Boerhave's Holland Bitters one hour before each meal."—*Balt. Sun.*

"Boerhave's Holland Bitters for Dyspepsia, Headache, Loss of Appetite, Nervous Debility, and all diseases consequent upon a disordered stomach and liver. This article is very favorably known throughout the West, and is regularly prescribed by some of the most distinguished physicians."—*Phila. Ledger.*

"There can be no better remedy for Indigestion, Heartburn and Loss of Appetite, than Boerhave's Holland Bitters."—*Michigan Register.*

☞For sale by JOHN G. BROWN & SON, and HENRY SAYLOR, Druggists, Pottsville.

## THE COAL TRADE.

Pottsville, March 3, 1860.

The quantity sent by Railroad this week is 26,481 00 against 19,867 tons for the corresponding week last year.

The trade sums up this week as follows:

**Coal Trade for 1860.**

| | 1859. | | 1860. | |

March has set in with unusual mild springlike weather,—but Winter is not over yet—and therefore we hope our Coal Operators will not commence business too soon. The Coal Market is in a healthy condition—and a little effort and forbearance on their part will keep it so. No more Coal ought to be sent forward and stocked at Richmond without orders, unless it is necessary to send off the gangway Coal, which must be taken out in the preparation of the mines. This Coal is always sold at a less price, and is no criterion of the price of good merchantable Coal.—We are aware that the temptation to do business is strong in there dull times, but with a business like the Coal Trade, confined to the summer months principally, it is of the utmost importance to start right at the beginning, and then the business can be made remunerative for the season.

On the Lehigh the Operators are receiving from 15 to 20 cents more for their Coal than they did last year, without any difficulty—and one of the heaviest dealers informed us a few days ago, that orders were coming in very steadily at these advanced prices. It is generally understood that the prices will be advanced at New York, on board vessels, from 30 to 40 cents per ton over last year's rates—and if our Operators are firm at this critical period, we think they can obtain a similar advance on last year's prices. Of course, all kinds of stories will be circulated, as usual, by the buyers of Coal about low prices, &c.,—but we can assure our Operators, that there is every prospect of a *fair business* for the season. It cannot be a prosperous one, because the country is not in a prosperous condition—and so large an increase will not be required this year as in 1859. The supply of Coal is daily diminishing in the markets, and we learn that the orders for shipment, so far, are in advance of those received for the last two years, in all the regions.

The rates of toll and transportation were under consideration by the Managers of the Railroad and Canal, a few days ago—but we have not yet learned the result of their deliberation. There was some difficulty in arranging with the New York Companies, growing out of the inability to control middle interests, and those who send Coal directly to New York from this Region. Even these difficulties may be satisfactorily arranged—but there is considerable doubt on the subject.

We presume the rates will be promulgated in the course of the ensuing week.

The officers of the Canal are preparing to have the water let in by the 8th inst., should the weather prove favorable.
