

# Miners' Journal.

POTTSVILLE, PA.

SATURDAY, JANUARY 5, 1861.

Ageates.

New-York—H. J. C. 210 Broadway.

Baltimore—D. N. Lee, 807, Chestnut street.

Philadelphia—D. N. Lee, 807, Chestnut street.

Miners' Journal established.

The MINERS' JOURNAL, Jr.—The first number of this paper, which is intended to form a regular semi-monthly issue of the MINERS' JOURNAL, will be issued on Wednesday next, and will be continued regularly thereafter. Both papers will be furnished at the very reasonable price of \$2.75 per annum; and as the matter will be entirely distinct in both, it will be of great advantage for all of our present subscribers to take them, and thus be kept advised of all that transpires of importance at home and abroad. We will send the "Jr." to all of our subscribers in the County, and those who do not desire to take it, can return their copies to this office, with their name and post office address, so we will know who returns them. We would advise all to take it, for the sake of their children. We will make the "Jr." interesting, not only in a literary point of view; but in matters of the arts and sciences, its period will include a habit of reading in your children, of far more importance to them, than anything else you can give them, for the same amount. I enclose a copy of this enterprise, we may get half the MINERS' JOURNAL, a tri-weekly publication, and thus be up with the spirit of the age.— The MINERS' JOURNAL, Jr., will be a neat little sheet, and we trust that our friends will give it a hearty reception. Our clubbing prices with the *Tribune* and other popular publications, should attract attention, for the amount of reading given at a reduced rate.

To Hon. ROBERT M. PALMER, Speaker of the State Senate, we are indebted for a copy of the Governor's Message.

Hon. JOHN HICKMAN is voted for the United States Senator from Pennsylvania.

On Wednesday, E. H. Rauch, Esq., was elected Clerk of the Pennsylvania House of Representatives.

The Bank of Commerce of New York, has obtained the remainder of the Treasury notes at 12 per cent.

Hon. JOHN JOHNSON of Tappanee, declares for the Union, and the people of that state support him enthusiastically.

The wife of the gallant Major Anderson is a Pennsylvanian. She is a daughter of late Chief Justice Gilson of this State.

"H. L.'S" COMMUNICATION will appear in the MINERS' JOURNAL, Jan. 14. We are too crowded to insert it in this number of the Journal.

Hon. Henry D. Moore of Philadelphia, is the most prominent friend of the State Treasurer, in place of Elif Shifer, Esq., who declines a re-election.

SENATOR BAKER of Oregon, delivered a powerful speech in the Senate, this week, and confounded the secessionists.

A letter from South Carolina, published in the Constitution, admits that the election of Mr. Lincoln is only the pretext, the reason for Secession. Who ever doubted it?

It is stated that Gov. Ellis of North Carolina has dispatched troops to seize upon Fort Macon, at Beaufort, the fort of Wilmington, and the United States Arsenal at Fayetteville.

Hon. EDWARD BATES of Missouri, Hon. William L. Dayton, of New Jersey, and Gen. Cameron of Pennsylvania, are announced as prospective members of President Lincoln's Cabinet.

SENATOR CAMERON returned to Washington on Wednesday, from Springfield. It is stated that he has certainly been appointed Secretary of the Treasury by Mr. Lincoln, and has accepted.

In Hinsdale, LaSalle County, on Saturday night last, Mathew Thompson, an Englishman, was stabbed by a man named Duff. Itum. Thompson is not expected to recover. Duff was unwell.

ALL HONOR TO LITTLE DELAWARE.—Upon receipt of the intelligence that Major Anderson had moved his force to Fort Sumter, the citizens of Wilmington, Del., adopted a salute of twenty-one guns. The example was followed here and elsewhere.

The appointment of Gen. Cameron as Secretary of the Treasury, is a compliment to Pennsylvania, and important to her interests, for he is a warm friend of the Protective policy. Mr. Cameron will make a good Secretary, for as a financier he has no superior.

There can be but one opinion on the question of putting Pennsylvania on a war footing, and that is that it should be done, at once. The Government should not parley with the rebels, but protect the invaded rights of the country. To fail in a clearly defined line of duty, is pernicious.

THE PRESIDENT AND THE STOLEN BOXES.—It is stated several thousand bonds, nearly all of which were advertised by the Interim Department, were purchased by Messrs. Biggs & Co., of Washington City, in New York, for account of the President, and are now safe, ready to be used by him.

The South Carolina Convention has imposed a tax of \$16 a head upon all slaves in the State. For 400,000 slaves, the product of such a tax would be, \$6,100,000, which would however, melt like snow beneath the sun, in a war with the United States. If we keep here, there will be no property left in South Carolina.

The Committee of Thirty-three on Friday adopted Mr. Adam's proposition to admit New Mexico, the following five Republicans dissenting: Messrs. Kellogg, Washburn, Morris, Tappan, and Robinson. It was stated, that the committee had been purchased by Messrs. Biggs & Co., of Washington City, in New York, for account of the President, and are now safe, ready to be used by him.

**THE ANNUAL REPORT OF THE STATE TREASURER OF PENNSYLVANIA.**—The Treasurer, after giving a statement of the financial condition of the State, the principal facts of which are embodied in the Governor's Message, states that ordinary receipts, and economic appropriations, three-quarters of a million of the State debt can paid annually. The Treasurer condemns the tax upon loans, and recommends a repeal of the law. He estimates that the revenues lost to the State by a repeal of the tax on her own loans, could be made up by an increase of tax on brokers and private banking establishments. These are large and growing interests. Their business may be fairly estimated at one-half of that of regularly incorporated banking institutions.

In alluding further, to private banking establishments, the Treasurer says:

Almost every city in the State has one or more private banking establishments, many of them being large and legitimate banking concerns, whilst a few of them, feeling unrestrained by the law regulating the paying out of foreign depreciated currency, or the rate of interest, which may be exacted from them, in the transaction of their business, have the effect of greatly lessening the revenue from "money at interest."

A. MONKES AND F. FUSE—**ENTREPRENEURS.**—It is to be regretted that a man who has helped in their, and is familiar with the transaction of Pennsylvania, can bring themselves to conduct a business which is not properly done and supported by ample force, because of the slaveholders who have made it easy to employ words of exclamation. They have tampered with the imbecile Government and the weakness of the Union.

F. FUSE is a man of great energy.

He is a man of great energy.

**THE MINERS' JOURNAL.**—The first number of this paper, which is intended to form a regular semi-monthly issue of the MINERS' JOURNAL, will be issued on Wednesday next, and will be continued regularly thereafter.
