THE LAW OF NEWSPAPERS.

Subscribers order the discontinuance of their newspapers the publisher may continue to send them until arrearages are paid.

Subscribers neglect or refuse to take their newspapers from the office or which they are directed, they are responsible until they have settled their bills and ordered them discontinued.

Subscribers have gone to other places without informing the former place, and the newspapers are sent to the former direction, they are held responsible.

The Courts have decided that refusing to take newspapers from the office, or removing, and leaving them uncalled for, is prima facie evidence of intentional fraud.

Valuable Coal Lands for Sale.
THE undersigned offer for sale the undivided 3-4 of that valuable coal property known as THE BELLMONT TRACT.

Situated about 1½ miles east of Port Carbon containing about 269 acres, more or less, with the improvements upon it:—One Brick Mansion House; Twenty-six Blocks of Miners' Houses; One Stone Store House, Stables, &c.

ALSO—Two Sixty Horse Engines, with 12 boilers.
One Twenty do do 4 do
One Twenty do do 3 do
With one of the largest and most modern built Coal Breakers in the Schuylkill, with all the screens and appliances to ship from 80 to 100 cars of Coal per day.

Also, Slope Houses, Saw Mill and other improvements. Together with some of the most valuable Red Ash Coal Veins in the County; and it is believed by the most competent judges that all the large White Ash Veins underlie said tract.

This Tract, owing to its proximity to the shipping points at Port Carbon, by Railroad and Canal, has advantages that few if any Coal Tracts offer in Schuylkill County.

Also, One undivided 1-8 of the adjoining Coal Tract, known as the BOBB TRACT,

Containing about 269 acres, more or less, with the improvements upon it, consisting of one sixty horse, one thirty horse and one fifteen horse engine, together with boilers, pumps, pipes, &c. Said Bobb Tract also contains the same Red and White ash veins that are found in the Bellmont Tract.

All of the above properties will be sold on reasonable terms. Apply to

TAMAQUA IRON WORKS.
Forges of Iron,

The subscribers are now prepared to receive orders for all kinds of stationary Engines, and machinery for collieries, blast furnaces, mills, &c. Extensive facilities and practical experience in the business warrant them in taking the largest contracts at the lowest prices.

Particular attention is called to Ivens & Allen's New Style Patent Winding Machinery, which has the Slope or Shaft rope or chain sure on the top of both drums in double ways.

This arrangement, it is confidently believed, will save in the wear and tear of ropes or chains alone, the price of the machinery in five years; and for fast winding, simplicity of construction and durability, it cannot be surpassed. We also recommend a new car wheel, invented by Mr. Charles H. Ivens. This wheel can always be had at our works, and has stood the test of several severe winters past, triumphantly; not a single wheel having broken, or in the slightest degree injured. We are now placing it under the cars of some of the principal Railroad Companies in the country.

We would also call the attention of the public to the Tamaqua Car Shop, connected with the above works, and recently erected for the manufacture of Railroad, Drift, Freight Cars and Trucks, and furnished with all the latest improvements, so that they are now enabled to execute work much cheaper and with more despatch than heretofore.

All work guaranteed. Persons wanting anything in our line would do well to give us a call.

ENGINEERS,
Broad and Hamilton streets, Philadelphia, Penna.,

Would call the attention of Railroad Companies and others interested in Railroad Property, to their *System of Locomotive Engines* in which they are enabled to effect a saving of from 25 to 30 per cent. in fuel, as per report which had been widely spread in the afternoon that the French Chamber of Deputies had voted, by a vast majority, the withdrawal of the French army from Rome. This report was too good to be true, and soon afterwards was contradicted, but for a moment there were persons eager to believe it, even against their own conviction of its improbability.

The King and Queen of Naples and Counts Trani and Caserta left Gaeta on Thursday morning in the French steamer Mogador, which had been waiting at Naples for the express purpose of receiving them on board when it should become necessary, and which conveyed them to Terracina. There they proceeded by land to Rome, where they arrived at about one o'clock in the morning. Some of their friends went out to Albano to meet them. At the gate of San Giovanni they were received by several Monsignori, officers of the Papal Court, and as the Quirinal by Cardinal Antonelli. Queen Christina, of Spain, was there to greet her relative, and General Goyon to present his respects. Some of the Roman Princes were also there. The fallen Sovereigns have taken up their residence at the Palace Quirinal, but it is reported and generally believed, that their stay there will be short. Neither Spain, Austria or Bavaria will be their ultimate resting place now, the foreign diplomatists who were trapped at Gaeta have also arrived in Rome. How far their disgust at wounded pride and privations contributed to the surrender of the fortress has yet to transpire. The missing Saxon Minister has turned up. It appears that all his endeavors to get out of Gaeta were fruitless, and that he lay sick and sorry in his quarters until the glad tidings of peace were brought to him. As yet we have no details of the conditions of surrender. The main points were given in Cavour's telegraphic despatch, and will have reached you as soon as they did us. At eleven on Wednesday night, a special train left Rome with Queen Christina and Spanish and other officers belonging to the vessels of those nations in port at Civita Vecchia, where they arrived towards 3 A. M. The Brandon French war steamer, and the two Spanish war steamers General Allen and Colombo, immediately went off in the direction of Gaeta.

FEB. 16.—The Brandon returned from Gaeta to Civita Vecchia yesterday morning, bringing the Papal Nuncio, the Bavarian and Spanish Ministers, two Neapolitan Generals, and some sixty civilians, supposed to be employés. The two Spanish war steamers were in sight when the latter announcing the above was posted. Some Neap
