THE LAW OF NEWSPAPERS.

If subscribers order the discontinuance of their newspapers, the publisher may continue to send them until all arrearages are paid.

If subscribers neglect or refuse to take their newspapers from the office to which they are directed, they are held responsible until they have settled the bills and ordered them discontinued.

If subscribers move to other places without informing the publisher, and the newspapers are sent to the former direction, they are held responsible.

The courts have decided that refusing to take newspapers from the office, or removing, and leaving them uncalled for, is prima facie evidence of intentional fraud.

BROAD TOP.

Office of the Celebrated BROAD TOP White Ash Semi-Bituminous AND East Lehigh Coals,

No. 104 Walnut Street, Philadelphia.

The undersigned would respectfully call the attention to the Celebrated Broad Top Coal, mined out of his own property, prepared directly under his own superintendence during his operations, and now offered to this region, *having no other sort of Coals for sale*, the purchaser can rely upon obtaining a pure article of Broad Top Coal without any risk of having a mixture of *Coals from previous veins or from other regions substituted*, which in appearance might be similar, but in quality vastly inferior. From the advantageous arrangements which have been effected with the principal Railroad Companies, purchasers can be supplied at the lowest price, up in the most reasonable terms, and at the shortest notice.

For Steam Generating, Marine and Locomotive Engines, Rolling Mills and Puddling Furnaces, Glass Manufacturing, Gas Works, Blacksmithing, Coking, Brick and Lime burning, this Coal cannot be excelled.

Its exemptions from Sulphur and impurities highly injurious in the manufacturing of Iron, and destructive to Machinery, Boilers and Grates, gives it peculiar excellence. Its easy combustion, combined with its beautiful white flame, renders it a desirable fuel for Parlor Grates.

East Lehigh Coal.

NOTICE.—The subscriber having also been appointed Agent for the sale of the celebrated East Lehigh Coal, mined from the Lehigh Coal and Navigation Company's land, by Conyngham & Michler, and known as the Hazle Brook Coal, he is now prepared to supply the trade with an article, in quality, and preparation unsurpassed by any in the market.

Will be pleased to communicate any further information, and will be most happy to receive your patronage.

I am, Respectfully, ROBERT HARE POWEL.

TAMAQUA IRON WORKS.

Iron Founders, Mechanists, Boiler and Machinists' Tool Makers and Car Builders,

The undersigned are now prepared to receive orders for all kinds of Stationary Engines, and machinery for collieries, blast furnaces, mills, &c. Extensive and practical experience in the business warrant them in taking the largest contracts at the lowest prices.

Particular attention is called to Irvins & Allen's New Style Patent Winding Machinery, by which the Slope or Shaft rope or chain runs on the top of both drums in double ways.

This arrangement, it is confidently believed, will save in the wear and tear of ropes or chains, the price of the machinery in five years; and for fast winding, simplicity of working and safety, it cannot be surpassed. We also recommend the new car wheel, invented by Mr. Lucien H Allen. This wheel can only be had at our works, and has stood the test of several severe winters past, triumphantly: not a single wheel having been broken since its introduction. We are now placing it under the cars of some of the principal Railroad Companies in the country.

We would also call the attention of the public to the Tamaqua Car Shop, connected with the above works, and recently refitted with the most modern and improved Drift, Freight Cars and Trucks, and furnish Reels with all the latest improvements, so that they are thus enabled to execute work much cheaper and with more despatch than heretofore.

All work guaranteed. Persons wanting anything in our line would do well to give us a call.

M. W. BALDWIN & CO., ENGINEERS,

Broad and Hamilton streets, Philadelphia, Penna.

Would call the attention of Railroad Managers and those interested in Railroad Property, to their *System of Locomotive Engines*, in which they are adapted to the various gauges of railroads in the United States, and to the particular business for which they may be required; by the use of one, two, three or four pair of driving wheels; and the use of the whole, or so much of the weight as may be desirable, for adhesion; and in accommodating them to the grades, curves, strength of superstructure, and rail and work to be done. By these means the maximum useful effect of the power is secured with the least wear of the machinery, cost of fuel, and repairs to Road and Engine. With these objects in view, and as the result of twenty-three years practical experience in the business by our senior partner, we manufacture *six different kinds of Engines*, and several classes of sizes of each kind. Particular attention paid to the strength of the machine in the plan and workmanship of all the details. Our long experience and opportunities of obtaining information, enables us to offer these engines with the assurance that its efficiency, economy and durability, they will compare favorably with those of any other kind in use. We also furnish to order, wheels, axles, bowling or low moor tire (to fit centres without boring,) composition castings for journal boxes of every description of Copper, Steel, Iron and Boiler Works; and every article appertaining to the repair or renewal of Locomotive Engines. Repairing neatly and substantially done at the shortest notice.

Screen Bolts, Cogwheels, Edgeway Rings, Shafts, Gudgeons, &c., &c., always on hand.

All orders directed to the firm by mail or left at D. L. Esterly's Hardware store will receive prompt attention. Pottsville, March 12, '59 [July 4, '58 27-1y

Poetry.

From the Tribune.

WHEN FREEDOM GOES FORTH.

When Freedom goes forth
From her home in the North,
There's a trembling of tyrants and thrones!
And taskmen, whose music is groans
Of the slaves they have fettered and lashed
Till the cloud of their woe has outflashed
In Humanity's lightnings, to blast.
The grave and the fetter at last—
With terror awful,
As from God's hand, their fate!

For Freedom's God lives,
And, wide as the heaven
Over empires earth, in Man's right:
His sight! and the tower of his might,
If his cheap boy bright crown to his brow,
And swear on her altars a vow
To wear it, his guerdon of toil!
Free Altars,
