THE NEW VOLUME OF THE

MINERS' JOURNAL.

VOLUME THIRTY-EIGHTH.

Commencing January 4th, 1862.

The Thirty-Eighth Volume of the MINERS' JOURNAL, and the THIRTY-THIRD since it has been published by the present proprietor, commences on the first week in January, 1862. Its circulation has been effected but little by the Slave Holders' Rebellion, and it is now equal to the combined circulation of any three English papers published in the County. Every effort will be made to keep up its established character as a First Class Journal of the Day, both for general news and a Family Paper.

The following departments will receive every attention in the new volume:

LATEST WAR NEWS.
LOCAL NEWS.
FOREIGN NEWS.
DOMESTIC NEWS.
AGRICULTURE.
RECIPES.
LITERARY MATTER.
EDUCATIONAL MATTER.
RELIGIOUS INTELLIGENCE.
EDITORIALS, &c., &c., &c.

The new volume, too, affords those who do not take the JOURNAL, yet would like to have it sent to them, an excellent opportunity to subscribe. To keep well posted on all that is going on in and out of the County, take the MINERS' JOURNAL.

Advertisements published in the MINERS' JOURNAL, on account of its circulation, is worth as much to the advertiser as if published in three other English papers of the County. This is an important consideration for advertisers.

TERMS:

Single copy, in advance,	$2 00

OUR NEW VOLUME.

We have only space to state briefly, that the Thirty-eighth volume of the MINERS' JOURNAL, and Thirty-third of its publication by the present proprietor, will commence next week.

The circulation of the JOURNAL has been affected but slightly by the present Rebellion, and we hope by undivided attention to the various important departments that make up a good newspaper, to enlarge our subscription list during the coming year.

But few papers published in the State contain as many letters from the soldiers, in each number, which fact in itself should secure the JOURNAL an enhanced circulation in our County.

Our clubbing arrangements with other widely circulated papers, and with the best magazines in the County, are advantageous, affording a large amount of reading at a comparatively low cost.

Thanking our patrons for their steady, cheering support, we ask the attention of those who do not receive the JOURNAL, to our prospectus, and urge them to place their names on our subscription list. The paper is free through the mails, within the County.

SEVERAL letters, communications, etc., are unavoidably crowded out.

ON our First Page will be found a Poem, written by a member of the 96th Regiment; and an able article from the pen of our high-esteemed contributor, WM. W. BANGES.

PEOPLES' STATE CENTRAL COMMITTEE.—A meeting of the members of the Peoples' State Central Committee will be held at Coverly's Hotel, Harrisburg, on Wednesday, January 1st, 1862, to determine the time and place for holding a State Convention to nominate State candidates, and to transact such other business as may be presented.

In our next we will publish a powerful speech delivered in the U. S. House of Representatives, on the 12th inst., by the Hon. Thomas F. Conway, of Kansas. The subject is—Will the War be for Union and Freedom, or Union and Slavery?—is treated with power and ability, and furnishes food for thought. It is a period when the man of courage is requisite on the floor of Congress, as on the field of battle.

The receipts of the Pennsylvania State Library from December 1, 1860, to November 30, 1861, both days inclusive, amounted to $3,743,525 02. Expenditures during same time, $5,873,352 38. Excess of receipts over expenditures, $970,172 64. Balance in the treasury, November, 30, 1861, $1,551,

ENGLISH NEWS—DEATH OF PRINCE ALBERT.—Per steamship *Persia* we have dates to the 1st inst. Prince Albert died lately of fever. He was the consort of the Queen of England, and father of the present heir to the Prussia, the Prince of Wales, who is now in America, the Princess Amelia, betrothed to one of the German princes. Prince Alfred, who is in the British navy, is said to be a man of excellent character, and a patron of all the ornamental and useful arts, and took an active interest in promoting improvements. It was reported in London that the British government had consulted the Earl of Derby, leader of the tories, and he approved of its policy in reference to the American question. The Emperor of China has liberated all the political prisoners in Venice.

THE CAUSE OF THE REBELLION.—Hon. Reverdy Johnson, brother of Gen. Anderson, has resigned his seat in the Senate of Texas, for some time past, on account of his health. He was formerly a Whig, but finally managed to escape through the Democratic party. He is now in Mexico, is in New York, and delivered a speech at the Cooper Institute, a few evenings since, of which the following is the cause of the Rebellion, and the policy:—"The cause was not, as some suppose, the action of the Abolitionists, but had himself entertained with extensive slaveholders, as to see the necessities to enable declare that was it true, a the main to think, that the was begun Slaveholders, as rietors in their rights of property either in lands of cottondom the snowy Kansas. The case was this:—Texas had been suddenly put to their hand, in their purposes and belief, dominion in and over the whole consequence is, that they are with rage at this, their first political supremacy."

The testimony of a man who is by birth, and who has always lived in the South.

ALEXANDER CUMMINGS.—Since the Van Wyck Committee has made its report—is sick, and is going to Europe for his health.

GEN. SCHENCK was very seriously injured this week, by a fall from his horse. He has been relieved from the command of his division.

IT is stated that the alleged insanity of Gen. Sherman of the Western Department, is totally unfounded. We learn this fact with sincere satisfaction.

CHARLESTON.—Her only available channel to sea has sunk in it sixteen vessels in such positions, as to render it impassable. The harbor is effectually closed. This is the work of one of our Stone Fleet Expeditions. Fire commenced what this has finished, and her end has come, poor, miserable hot-bed of secession.

READ the Prospectus of the *New York Ledger*, in another column. It shows how real talent will thrive in spite of the times.—The *Ledger* is the most successful paper, ever published, and has the largest circulation.—See what Mr. Bonner says in his own advertisement.

Capt. J. Claude White,
Co. I, 3rd Penn'a. Cavalry.

The battle of Drainesville, fought on Friday of last week, was a brilliant affair for the Pennsylvania troops engaged. The regiments of Gen. Ord's brigade were Pennsylvania Reserves—11th, Col. Simmons; 38th, Col. C. F. Jackson. 39th, Col. John H. McClintock. 40th, 41st, Col. John H. Taggart, with the 42d, or "Rifle Regiment," Col. Thomas L. Kane. The fight was kept up somewhat over an hour, and the enemy retreated rapidly, the fire of the whole brigade, rifles and muskets being too hot for them. Our troops stood up bravely under the sharp volleys of the rebels. Gen. Ord was praised by Gen. McCall and all officers. Gen. Ord captured eight wounded prisoners and two caissons of ammunition. In their haste the enemy left behind armament of six pieces, clothing, &c. Their loss is estimated at 150 killed and wounded; among their killed was Col. Tom Taylor, of Frankfort, Ky., and another of his officers, 1st Kentucky regiment of rebels. The forces of the enemy consisted of three infantry regiments—1st and 2d Kentucky and 10th Alabama, with a cavalry regiment and a battery, all under command of Col. John H. Forney, of the 10th Alabama, acting brigadier general.—The dead rebels were left on the field. Our loss was as follows: 35th Regiment, 2 killed and 5 wounded; 38th, 2 killed, and 19 wounded; 42d, 3 killed, and 10 wounded; 41st, severely; 41st 1 wounded. The victory on the part of our troops is considered the more brilliant as they had never before been in action. They have been highly complimented both by Major General McClellan and Gen. McCall.

☞ By a dispatch from Gen. Halleck, we learn that another capture of rebels has been made by his troops near Houston, Mo. A major, a captain and one hundred men were taken, but released on parole.

☞ Wendell Phillips is called, "The silver-tongued Orator."

☞ The Free Masons of Manayunk have completed their new Masonic Hall.

☞ Hon. J. Glancey Jones is expected to be home this month.

☞ A man in Boston is exhibiting a new invention by which he makes boots in fifteen minutes.

☞ Henry Tice, of Lebanon, had his feet badly crushed last week, by being caught between two freight cars.

☞ The Sunbury Cornet Band, under the leadership of Thomas D. Grant, connected with the 45th Regiment, Pa. Vol., are now at Port Royal, South Carolina, in Gen. Sherman's Division.

THE COAL TRADE.

Pottsville, December 28, 1861.

The quantity sent by Railroad this week, is 26,486 12 tons, showing an increase of 1,960 tons over last year's shipment to same time.

The Schuylkill Navigation is closed, and shipments by that avenue have ceased.

The trade sums up this week and for the season, compared with last year, as follows:

THE LEASE OF THE GIRARD COAL LANDS.—The proposition made for the Lease of a portion of the Girard Coal Lands by Col. JAMES CONNOR, has been accepted by the City Councils. The terms are these, as far as we can learn:

The lessee agrees to take out 50,000 tons of Coal each year, on which he is to pay 25 cents per ton rent on all Coal except Chestnut, on which 10 cents per ton is to be paid, provided the amount does not exceed 10 per cent. of the quantity produced. Rent to be paid monthly. The city allows the lessee not more than $20,000 to make the necessary improvements for mining—and as the lease can only run five years, if a release is not effected with the same party, it provides for the appointment of three disinterested men to appraise the value of the improvements, the opening of Coal, &c., over and above the sum of $20,000, which the city agrees to re fund to the lessee. This lease embraces only a portion of the Girard Lands.

To the following communication from John Y. Wren, a practical machinist of this Region, in reference to the waste made in breaking Coal with the teeth now used in rollers, and suggesting improvements to obviate the difficulty, we ask attention. The subject is an important one, meriting the serious attention not only of Operators, but of Land-owners:

Waste in Breaking Coal.

POTTSVILLE, Dec. 23d, 1861.

TO THE EDITOR OF THE MINERS' JOURNAL.

Gentlemen:—In looking over the MINERS' JOURNAL of the 14th, a very interesting article from the pen of W. Sheafer, Esq., on the loss occasioned by the Breakers in preparing of Coal at the present day, attracted my attention. The experiments cited in it appear to have been made with care, and the result that much loss is experienced even from clean coal of the Lehigh Company's Mines. When we consider many veins which are worked in this and adjoining region, of a softer quality, the loss would be much greater than mentioned in Mr. Sheafer's article. In breaking Coal, should stains the attention of Operators and tenants, and greater inducements would be held out to try experiments, which might result in saving much Coal is preparing it for market. The question how long shall the hard toil of the Coal Miner be lost in the dirt bank, day after day? The Coal Breaking Machines now in use, it is believed, have been laid on the shelf, simply because they have not claimed considerable attention from Coal Operators, being remodeled, and a wide field for improvement. It is the belief of many practical operation of landowners and Operators, that are interested in the trade, so that the Legislature will be induced to throw some light to search, perhaps experiments, which could not fail to be of great benefit to the community at large, by throwing some light on a subject which is of great importance to every section over. Who can overrate the value of Coal—and I know from observation, that a large per cent. is wasted in the least—if there is any form, a reform which could be effected by the united efforts of the Coal Operators? Let the experiment be tried. Let the Coal Companies, I had the good fortune to be present at the meeting, and, like many, I believe that the rapid extension of the Coal trade will soon have to work hard; it should be the study of every one. I have often thought, when I have seen the quantities of Coal that are lost in the breaking, and particularly in the Coal Breaking Machines, that if some plan could be adopted by which any person can readily acquire the art, and these instructions will also contain every particular relative to the carrying it on, so that it will be readily profitable. The purchase of the "printed instructions" will also be authorized to teach it to others; as I have sometimes received as high as $200 for teaching it personally to a single individual. I would state that $1.50 or $2.00 will buy everything that is necessary to commence the business with, and the article can be got almost anywhere, in city or country, or forwarded, I am furnish them. PROSPECTUS
THE NEW YORK LEDGER,
FOR 1862.
THE LEDGER has been more prosperous—has made more money during the past twelve months—than any other paper, either daily or weekly, published in New York or any other city in this country. The great reason why the LEDGER has been so much more successful than any or all other papers is, that we have not hesitated to spend money freely in procuring the services of all the great and popular writers of the country. While other papers have been compelled to economize—to cut down the size of their sheets, and print on a poor quality of paper, we have, by the aid of good times, been enabled to keep up to the highest point of excellence in every respect, and to avail ourselves of all the improvements and novelties which would tend to the entertainment and gratification of our readers. In this we never offered any humbug premiums to secure subscribers, for the reason that we have preferred to put money, or premiums into the paper itself, and in that way give every reader more than the worth of his money. Besides nine out of every ten papers that have offered premiums have been swindling concerns, and every paper that has anything to do with that sort of thing is sure to die. *They are not conducted on sound business principles.*

The following are the names of some of our leading contributors for the new year:—[illegible]. What other paper ever presented such an array of distinguished and popular names!

HON. EDWARD EVERETT, REV. JOHN S. C. ABBOTT, WILLIAM CULLEN BRYANT, A. OAKEY HALL, JOHN G. SAXE, GEO. P. MORRIS, N. P. WILLIS, GEO. D. PRENTICE, CORA, DR., EMERSON BENNETT, WILLIAM ROSS WALLACE, FANNY FERN, ARTHUR, F. HAMILTON MYERS, OLD WALTER B. DUNLAP, MRS. KINCORNEY, MRS. SOUTHWORTH, FANNY FERN, ANNIE CORA RITCHIE, ALICE CAREY, MARY FLORENCE ORR-SWARTWOUT, DR. E. A. DUPUY, MARY STANLEY GIBSON, and many clergymen, professors in colleges, statesmen, and other eminent writers residing in different parts of the Union.

Our corps of contributors for the coming year will be as large, and will embrace such a variety of eminent talent, that every department of literature will receive the particular attention of some one competent to do it ample and special justice. In fact, no pains or money will be spared from week to week much more matter than we can possibly use, so that we shall always have a fresh and superabundant supply from which to select THE VERY BEST.

The LEDGER's great success is owing to the fact that we spare no expense in getting up the BEST FAMILY PAPER—a paper of high moral tone, and not to be had elsewhere, as superior to any other made in the market, in

Quality, Beauty and Variety,

and *at the lowest possible prices.*

THE SONG OF OAK HALL.

Hark ye! citizens! one and all!
List to the song of the great Oak Hall:
Listen, that ye may remember well—
Learn what Oak Hall proposes to sell.

Clothes for the merchant and clothes for his clerk;
Clothes for the farmer doing his work;
Clothes for the lawyer and doctor and cleric,
Clothing for English and German and Latch.

Clothes for the man who is chunky and fat;
Clothes for the man who is thinner than that;
Clothes for the young, and clothes for the old;
Clothes sufficient to cover the world.

Clothes for the man who travels by rail;
Clothes for him who looks after the mail;
Clothes for the man who loves to roam,
And clothing for him who stays at home.

Clothing for all good loyal men
Who want the country to live again;
For every description, great and small,
Come will buy Clothes at the great OAK HALL.

☞ What an appropriate *Christmas or New Years* present for a brother, friend, or even yourself, if a nice comfortable COAT, PANTS or VEST. Think of it! We will present to you far superior Indescriptions to make your purchases of us, as our assortment is unusually large, goods well made, and our prices remarkably low. When you come to the city, come straight to our store, corner Sixth and Market Streets, and look for yourself.
