Wit and Humor.

THE NIGHT AFTER CHRISTMAS.

The following is so amusing parody upon CLEMENT MOORE'S unequalled "Night *before* Christmas:"

'Twas the night after Christmas, when all through the house,
Every creature was abed, and still as a mouse;
The stockings, so lately St. Nicholas' care,
Were emptied of all that was suitable there,
The children had duly been took'd in their beds,
With very full stomachs and pains in their heads.
I was doing away in my new cotton cap,
And Nancy was rather far gone in a nap,
When out in the nursery arose such a clatter,
I sprang from my sleep, crying, "What is the matter?"
I flew to each b-deide still half in a doze,
Tore open the curtains, and threw off the clothes,
While the light of the taper served clearly to show
The piteous plight of those objects below:
For what to the Father's fond eye should appear,
But the little pale face of each sick little dear.
For each pet that had crammed itself full as a tick,
I knew in a moment now felt like Old Nick.
Their pulses were rapid, their breathings the same:
What it is or stomache rejected I'll mention by name—
Now turkey, now stuffing, plum pudding, of course,
And custards, and trifles, and cranberry sauce,
Before outraged Nature all went to the wall;
Yes, lollypop, fandoodle, dinder and all.
Like pellets which urchins from pop guns let fly,
Went figs, nuts and raisins, jam, jelly and pie,
Till each error of diet was brought to my view,
To the shame of mamma and Santa Claus too.
I turned from the sight; to my bedroom stepped back,
And brought out a vial marked "Pulv Ipecac;"
When my NANCY exclaimed—for their sufferings shocked her—
"Don't you think you had better, love, run for the Doctor?"
I ran, and was scarcely back under my roof,
When I heard the sharp clatter of old Jalap's hoof;
I might say that I hardly had turned myself round,
When the Doctor came into the room with a bound.
He was covered with mud from his head to his foot,
And the suit he had on was his very best suit;
He had hardly had time to put *that* on his back,
And he looked like a Falstaff, half muffled with sack.
His eyes how they twinkled! Had the doctor got merry?
His cheeks looked like *Port*, and his breath smelt of *Sherry*;
He hadn't been shaved for a fortnight or so,
And the beard on his chin wasn't white as the snow,
But inspecting their tongues, in despite of their teeth,
And drawing his watch from his waistcoat beneath—
He felt of each pulse, saying, "Each little belly
Must get rid"—here he laughed—"of the rest of that jelly."

I grasped on each crabby, plump, sick little elf,
And groaned when he said so, to spite of myself;
But a wink of his eye when he physicked our Fred,
Soon gave me to know I had nothing to dread.
He didn't prescribe—but went straightway to his work,
And dosed all the rest—gave his trousers a jerk,
And adding directions while blowing his nose,
He buttoned his coat—from his chair he arose,
Then jumped in his gig—gave old Jalap a whistle,
And Jalap dashed off as if prized by a thistle.
But the Doctor exclaimed, ere he drove out of sight,
"They'll be well by to-morrow—good night! Jones—good night!

A MODEL BODY-GUARD.—"Brick" Pomeroy, of the La Crosse (Wis.) *Democrat*, on being invited to assist in forming a body-guard for President Lincoln, and, after due consideration, decided to "go in," provided the following basis could be adopted and rigidly adhered to throughout the war:

The company shall be entirely composed of Colonels, who shall draw pay and rations in advance.

Every man shall have a commission, two servants and white kids.

Each man shall be mounted in a covered buggy, drawn by two white stallions.

Under the seat of each buggy shall be a cup-board, containing cold chicken, pounded ice and champagne, *a la* members of Congress, and military officers at Bull Run.

Each man shall have plenty of cards and red chips to play poker with.

The only side arms, to be opera glasses, champagne glasses, and gold-headed canes.

The duty of the company shall be to take observations of battle, and on no account shall it be allowed to approach nearer than ten miles of the seat of war.

Behind each buggy shall be an ambulance, so arranged as to be converted into a first class boarding house in the day time, and a sumptuous sleeping and dressing room at night.

The regimental band must be composed of pianos and guitars, played by young ladies, who shall never play a quickstep except in case of retreat.

Reveille shall not be sounded till late breakfast time, and not then if any one of the regiment has a headache.

In case of a forced march into an enemy's country, two miles a week shall be the maximum, and no marches shall be made except in the country abound in game, or if any member of the regiment object.

Kid gloves, gold tooth picks, cologne, hair dressing, silk underclothes, cosmetics, and all other rations, to be furnished by the Government.

Each member of the regiment shall be allowed a reporter for some New York paper, who shall draw a salary of two hundred dollars a week, for puffs, from the "incidental" fund.

Every member shall be in command, and when one is promoted all are to be.

Commissions never to be revoked.

"JIM" LANE told this story in his recent speech at Boston:

"I have half a mind to relate an anecdote to show how the slaveholders cling to their property. (Voices—'Do it; do it.') Well I will. We were marching to Springfield—I was in the rear of the column—when I was informed by one of my men that a woman in great distress wanted to see me. I told him to bring her to me, and he did. She was a big, brawny woman, fat and over forty, and was crying. I asked her what the matter was. She said, 'My two sons have joined the Confederate army, and now your soldiers have taken my two niggers.' Said I, 'My good woman, that is not the worst thing that could happen to you. I am on the track of your sons, and I shall probably catch them in a day or two and hang them.' (Laughter.) She threw her arms about my neck and said: 'General Lane, you may do what you want with my sons, if you'll only return my niggers.' (Great laughter.) I disengaged myself from her embrace, but didn't promise to return her niggers."

SHARP.—A Vermont broom peddler lately agreed with a Providence merchant to sell him a load of brooms, the payment to be made half in cash and half in goods from the Providence man's store at cost prices. The brooms were brought in, and cash for half of them paid over. "Now what will you have for the remainder of your bill?" asked the merchant. "Now you Providence fellers are cute," was the slow reply; "you sell at cost, pretty much all of you, and make money; I don't see how it's done. Now I don't know about your goods—but one article; so, seein' as 'twont make any odds with you, I guess I'll take brooms. I know them like a book, and can sware to just what you paid for 'em!" And so saying, the peddler reloaded his brooms, jumping on his cart with a regular Vermont grin and drove off.

THE Milwaukee Locals partook of a gratuitous dinner at the Walker House, in Milwaukee, on Thanksgiving Day. Mr. Wright responded to a sentiment. The following is a specimen of his style:

Mizzer Charim, hic, I've stood, hic, upon Mount Sineei'n, hic, seen the sun set, hic, h'ind the wesern hori-i-zon. I've torun' my, hic, pauts, mid druins of Hur, hic, klaneum, n'spent tweeks in the wilz of hic, hic, Pennsylva ni-a'n, never seen such a hic, thanksgiving, or any other man b'fore, Mizzer Charim. *Mizzer Charim'n*, hic, if I'me not 'seeved, hic, n' I think I'm not t'seeved, I see hic, a lar jumnber of hic, hungry Edit'rs on right n' hic, my left, n' I p'rpose a sen'ment to Nister Walker's House, hic. It's a brick. Now three tiger-r's and a hic, for Walker's House.

A COLORED firm in Newark, New Jersey, having suffered some pecuniary embarrassments, recently closed business, and the senior member gave to the public the following "notis:"—"De disholution of coparsnips heretofo resisting twixt me and Mose Jones is de barber perfession, am heretofo resolved. Pussons who ose must pay to the scriber. Dem what the firm ose must call on Jones, as the firm is insolved."

"DOES your dog take to the water?" said a gentleman to a rustic, who had a water spaniel following him. "Why, yes, sir, if they put meat in it," was the reply.

A RESERVED man is in continual conflict with the social part of his nature, and even grudges himself the laugh into which he is sometimes betrayed.

"I have one request to make of you, my dear Mr. Grant." "My dear widow, I will grant anything you say." "Well, sir, I want to be Granted myself."

THE famous William Penn had a scapegrace relation, whom his punning contemporaries described as a pen that had been "often cut, never mended."

NONE are so seldom found alone, and are so soon tired of their own company, as those coxcombs who are on the best terms with themselves.

To give moral subjects their true relief, you require, as in the stereoscope, to look through two glasses—that of the intellect and that of the heart.

WHEN we find great natural courtesy in the poor, we only find it in company with superior native sense or great tenderness of feeling.

ONE rose upon a bush, though but a little one, and though not yet blown, proves that which bears it, to be a true rose tree.

The right thing in the wrong place is a love-letter written on a mourning sheet of paper.

TAMAQUA IRON WORKS.
Morris, Tasker & Allen,
Iron Founders, Machinists, Boiler and Blacksmiths' Tool Makers and Car Builders.

The subscribers are now prepared to receive orders for all kinds of stationary Engines and machinery for collieries, blast furnaces, mills, &c. Extensive facilities and practical experience in the business warrant them in taking the largest contracts at the lowest prices.
Particular attention is called to Ivens & Allen's New Patent Winding Machinery, by which the Slope or Shaft rope or chain runs on the top of both drums in double ways.
This arrangement, it is confidently believed, will save to the consumer at least 25 per cent of roper or chains, the price of the machinery in five years; and for fast winding, simplicity of construction and durability, it cannot be surpassed. We also recommend the new cap wheel, invented by Mr. Caleb H. Allen. This wheel can only be had at our works, and has stood the test of the several severe winters past triumphantly; not a single wheel having been broken since its introduction. We are now placing it under the cars of some of the principal Railroad Companies in the country.
We would also call the attention of the public to the Tamaqua Car Shop, connected with the above works, and recently erected for the manufacture of Railroad, Drift, Freight Cars and Trucks, and furnished with all the latest improvements, so that they are thus enabled to execute work much cheaper and with more despatch than heretofore.
All work guaranteed. Persons wanting anything in our line would do well to give us a call.

M. W. BALDWIN & CO.,
ENGINEERS,
Broad and Hamilton streets, Philadelphia, Penna.,

Would call the attention of Railroad Managers, and those interested in Railroad Property, to their *System of Locomotive Engines*, in which they are adapted to the particular business for which they may be required; by the use of one, two, three or four pair of driving wheels; and the use of the wheels, or an equivalent of the weight as may be desirable for adhesion; and in accommodating them to the grades, curves, strength of superstruction, and rail and work to be done. By these means the maximum useful effect of the power is secured with the least expense for attendance, cost of fuel, and repairs to Road and Engine. With these objects in view, and as the result of twenty-three years practical experience in the business by our senior partner, we manufacture *Are different kinds of Engines*, and several classes of sizes of each kind. Particular attention paid to the strength of the machine in the plan and workmanship of all the details. Our long experience and opportunities of obtaining information, enables us to offer these engines with the assurance that in efficiency, economy and durability, they will compare favorably with those of any other kind in use. We also furnish to order, wheels, axles, bowling or low mortise (to fit centres without boring), composition castings for bearings every description of Copper, Sheet Iron and Boiler Works; and every article appertaining to the repair or renewal of Locomotive Engines. MEDICINAL.

AYER'S
CATHARTIC PILLS.

Are you sick, feeble, and complaining? Are you out of order, with your system deranged, and your feelings uncomfortable? These symptoms are often the prelude to serious illness. Some fit of sickness is creeping upon you, and should be averted by a timely use of the right remedy. Take Ayer's Pills, and cleanse out the disordered humors—purify the blood, and let the fluids move on unobstructed in health again. They stimulate the functions of the body into vigorous activity, purify the system from the obstructions which make disease, and restore the health and strength of which it is capable.

THESE PILLS have been used by the Doctors for many years, both in France and America, with unparalleled success in every case; and he is urged by many thousand ladies who used them to make the Pills public for the alleviation of those suffering from any irregularities whatever, as well as to prevent an increase of family, whose health will not permit it. Pregnant females, in particular, or those supposing themselves so, are cautioned against using these Pills while in that condition, as the proprietor assumes no responsibility after this admonition, although their mildness would prevent any mischief to health; otherwise, the Pills are recommended. Full and explicit directions accompany each box. Price, One Dollar. Sold wholesale and retail by all the Druggists in Coal Region.
Sole Agent. Centre street, POTTSVILLE, Pa.
☞ Ladies, by sending them $1, to the "Pottsville Post Office," can have the Pills sent to any part of the country, confidentially and "free of postage," by mail.
Sold, also, by R. H. IRVIN, St. Clair; J. KELLER BURNS, Minersville; and by one Druggist in every town and village in the State.

ELIXIR PROPYLAMINE,
The New Remedy for
RHEUMATISM.

During the past year we have introduced to the notice of the medical profession of this country the *Pure Crystalized Chloride of Propylamine*, as a

Remedy for Rheumatism;

and having received from many sources, both from physicians of the highest standing, and from patients, the **Most flattering Testimonials of its real value** in the treatment of this painful and obstinate disease, we are induced to present it to the public in a form **READY FOR IMMEDIATE USE**, which we hope will commend itself to those who are suffering with this afflicting complaint, and to the medical practitioner who may feel disposed to test the powers of this valuable remedy.
ELIXIR PROPYLAMINE, in the form above spoken of, has recently been extensively experimented with in the *Pennsylvania Hospital*, and with *marked success* (as will appear from the published accounts in the medical journals).
☞ It is carefully put up, ready for immediate use, with full directions, and can be obtained from all the druggists at 75 cents per bottle, and at wholesale of

Prof. O. J. WOOD'S
Restorative Cordial
AND
BLOOD RENOVATOR!

IS PRECISELY what its name indicates, for, while pleasant to the taste, it is revivifying, and thereby gives strength and vitality to the system. It also revivifies, reinstates and renews the blood in all its original purity, and thus restores and renders the system invulnerable to the attacks of disease. This is the only preparation ever offered to the world in a popular form so as to be within the reach of all.
So chemically and skillfully combined as to be the most powerful tonic, and yet so perfectly adapted, *as to act in perfect accordance with the laws of nature*, and hence *soothe the weakest stomach* and tone up the digestive organs, and allay all nervous and other irritations. It is also perfectly exhilarating in its effects, and yet it is never followed by lassitude or depression of spirits. It is composed entirely of vegetables, and those thoroughly combining powerful tonic and soothing properties, and consequently can never injure. As a sure preventive and cure of

Consumption, Bronchitis, Indigestion, Dyspepsia, Loss of Appetite, Fainting, Nervous Irritability, Neuralgia, Palpitation of the Heart, Melancholy, Hypochondria, Night Sweats, Languor, Giddiness, and all that class of cases so fearfully fatal called Female Weaknesses and Irregularities.

There is Nothing its Equal.

Also, for Derangements or Torpidity, and Liver Complaints, Diseases of the Kidney, or any general derangement of the Urinary Organs.
It will not only cure the debility following Chills and Fever, but prevents all attacks arising from Miasmatic influences, and cure the diseases at once, if already attacked.
Travelers should have a bottle with them, as it will infallibly prevent any deleterious consequences following upon change of climate and water.
As a general appetizer, strengthener of the digestive organs, it should be in the hands of all persons of sedentary habits.
Ladies not accustomed to much out-door exercise should always use it.
Mothers should use it, for it is a perfect relief. Taken a month or two before the final trial, she will pass the dreadful period with perfect safety.

There is no mistake about it.
THE CORDIAL IS ALL THAT WE CLAIM FOR IT!

Mothers, Try It!

And to you we appeal, to detect the illness or decline, not only of your daughters, before it be too late, but also of your husbands, for while the first effects upon the delicate, often go down to a premature grave, rather than let their condition be known in time, the latter are often so involved in the entanglement of business, that if it were not for you, they too, would travel in the same downward path, until it is too late to arrest their fatal fall. But the mother is always vigilant, and to you we confidently appeal; for we are sure your never-failing affection will unerringly point you to PROF. WOOD'S RESTORATIVE CORDIAL and BLOOD RENOVATOR, as the remedy which should be always on hand in time of need.
☞ O. J. WOOD, Proprietor, 444 Broadway, New York, and 114 Market Street, St. Louis, Mo., and sold by all good Druggists. Price, One Dollar per Bottle.

"LEBANON VALLEY INSTITUTE,"
At Annville, Lebanon County, Pennsylvania.
THE DESIGN OF THE SCHOOL

Is, to meet, as far as may be, the requirements of a progressive age. The course of study being so arranged and extended that pupils of any age or degree of advancement may be entered to nearly equal advantage, and embracing in its different departments those Branches of Education most useful or desirable in the different spheres of life. THE ENGLISH DEPARTMENT designed mainly to impart a thorough, practical education, which may be turned to account in the transaction of business. THE CLASSICAL DEPARTMENT, embracing the study of the classics—ancient and modern—with a view to cultivate the taste—to refine and elevate the mind, as a basis to the study of what are called the learned professions. A NORMAL OR TEACHERS' DEPARTMENT, in which will be given lectures upon the best methods of schools of various grades, and in different sections of the Union, will be drawn upon in familiar lectures, illustration and example, to impart a knowledge of the art of teaching.
THE DISCIPLINE is gentle but firm. No unnecessary restraints are instituted for the sake of mere effect—but such as are deemed conducive to the moral or social welfare of the student will be rigidly enforced. Students from abroad can board (unless otherwise desired) in the family of the principal, and over these a parental control will be exercised during their stay. They will not be allowed to be absent from the Institution at unseasonable hours; to visit taverns or places of amusement without permission; or to be absent from their places on any present except sickness or permission of parents or guardian.
THE LOCATION is pleasant, healthful, and secluded; in a flourishing little village surrounded by a picturesque and highly cultivated district. It is twenty miles Eastward of Harrisburg and within view of the Lebanon Valley Railroad, which connects Harrisburg and Reading, and forms a link in the great chain of Railroads between New York and "the West."
THE INSTITUTION is a spacious three-story Brick structure—planned and built with a view to healthy and comfortable accommodations for a boarding school. The furniture of the school rooms is nearly new and of the kinds most approved for use and comfort. The students' rooms are large and convenient, and will be occupied generally by two students each.
