"Well," inquired his lisping friend, "how would you do, thoose a shell with an inch futhe thould drop itthelf into a walled angle, in which you had taken thelter from a company of tharp-thootherth, and where it wath thertain, if you put your nose, you'd get peppered?"

"How?" said the captain, winking at the circle; "why take it cool and spit on the fuse." The party broke up and all retired except the patrol. The next morning a number of soldiers were assembled on the parade and talking in clusters, when along came the lisping lieutenant. Lazily opening his eyes, he remarked-

"I want to try an experiment thith morning, and thee how exceedingly cool you can Saying this he walked deliberately into the

captain's quarters where a fire was burning on the hearth, and, placing in the hottest centre a powder canister, instantly retreated. There was but one mode of egress from the quarters, and that was upon the paradeground, the road being built up for defence. The occupant took one look at the canister. comprehended the situation, and in a moment dashed at the door, but it was fastened on the outside.

"Charley, let me out for your love for me," shouted the captain. "Thpit on the canither!" shouted he in

Not a moment was to be lost. He had first caught up a blanket to cover his egress; but now, dropping it he raised the window and out he bounded, sans culottes, sans everything but a very short under-garment; and thus with hair almost on end, he dashed upon a full parade-ground. The shouts which hailed him called out the whole barracks to see what was the matter, and the dignified captain pulled a sergeant in front of him to hide himself. "Why didn't you, thpit on it?" inquired

the lieutenant. Because there were no sharpshooters in front to stop a retreat," answered the captain. "All I got to thay, then, ith," said the lieutenant, "that you might thafely have done it,

for I'll thware there wasn't a thingle grain of

powder in it." The captain has never spoken of nervousness since.

PAT AND HIS OTSTERS.—An Irishman, fresh from the Emerald Isle, on arriving at Boston, was employed by a man to do odd jobs about the house, run of errands, etc. One day his employer wanted a half-bushel of oysters, so Pat was dispatched for them, but was absent so long that apprehensions were entertained for his safety. He returned at last, however,

"Where have I been? why, where should I be but to fetch oysters?"

"And what in the name of St. Patrick kept you so long ?"-"Long! by my sowl I think I have been pretty quick, considering all things." "Considering what things?"

"Considering what things! Why, considering the gutting of the fish, to be sure." Gutting what fish?". "What fish! Why, blood-an-ouns, the

CHEROKEE REMEDY CHEROKEE INJECTION Compounded from Roots, Barks & Leaves.

CHEROKEE REMENDY, the great Indian Diuretic, sures all diseases of the urinary organs, such as Incontinence of the Urine, Inflammation of the Bladder, Inflammation of the Kidneys. Stone in the Bladder, Inflammation of the Kidneys. Stone in the Bladder, Inflammation of the Kidneys. Stone in the Bladder, Stricture, Gravel, Gleet. Gonorrhom, and is especially recommended in those cases of Fluor Albus for Whites in females) where all the old masseous medicines have failed.

It is prepared in a highly concentrated form, the dose being from one to two teaspoonfuls three times per day.

It is diuretic and alterative in its action: purifying and cleansing the blood, causing it to flow in all its original purify and vijor: thus removing from the system all pernicious causes which have induced disease.

CHEROKEE INISCTION is intended as an ally or assistant to the CHEROKEE REMEDY, and should be used in conjunction with that medicine in all cases of Gonorrhea, Gleet, Finor Albus or Whites. Its effects are healing, soothing, and demulcent; removing all scalding, heat, chordee and pain, instead of the burning and almost mendurable pain; that is experienced with nearly all the cheap quack Injections.

By the use of the Cherokee Remedy and Cherokee Injection—the two medicines at the same time—all improper discharges are removed, and the weakened organs are speedily restored to full vigor and strength.

They soon ripened the, matter on my lungs, and I my soon ripened the, matter on my lungs, and I would spit off more than a pint of offensive yellow matter every morning. As soon as that began to subside, my congh, fever, pain, night sweats—all began to leave me, and my appetite became 40 great that it was with difficulty I could keep from cating too much. I soon gained my strength, and I have been growing in flesh ever since. For many years I have enjoyed, uninterrupted good health, keeping, the liver and stomach healthy with the Seaweed Tonic and Mandrake Pills, as I am of a billous temperament. My weight is two hundred and twenty pounds. On my recovery people would send for me, far and near, to see if their cases were like mine. For this purpose I pay professional visits in the large citles. The consumptions who was cured of consumption by them. To make new lungs is impossible; but cavities in the lungs, and chronic ulcerations of the bronchial those can be healed. Such cases are dring hourly under the ordinary treatment of physicians, and just such are cured by the proper use of Schenck's Pulmonic Syrup, Seaweed Tonic, and Mandrake Pills.

I am now a healthy man, with a large cavity—in the

why physicians do not cure consumption is, they try to do too much: they give medicines to stop the cough, to stop chill, to stop night sevents, hectic fever, and, by so doing, they derange the whole digestive powers, locking up the secretions, and eventually the patient sinks and dies. After I make a careful examination of sinks and dies. After I make a careful examination of the patient with the Respirometer, and, find lungs enough left to care. I direct the patient how to use the three remedies. Remove the cause, and the will all stop of their own accord. No one can be careful of consumption, liver complaint, dyspepsia, catarris, canker, ulcerated throat, unless the liver and stomach are made healthy. Lyon's Periodical Drops, The Great Female Remedy The Great Female Remedy LYON'S PERIODICAL DROPS cure all complaints incident to the sex, and remove all obstructions of an-ture, from whatever cause, producing health, vigor and time, from whatever cause, producing health, vigor and attength.

LYON'S PERIODICAL DROPS are better than all Pills. Powders and Nostrums; being a fluid preparation, their action is direct and positive, and it needs nothing but good common sense to see and understand the reason, why they cure all those ills to which the female system is subjected, with dispatch and a degree of certainty which nothing but a scientifically compounded fluid preparation could reach; they are, in the most obstinate cases.

Reliable, and sure to de Good Reliable, and sure to de Good And cannot do Harm, And cannot do Harm, To the most delicate constitutions.

To the most delicate constitutions.

LYON'S PERIODICAL DROPS will certainly preduce the regular return of nature, if taken a day or two before the expected period, and it is a maxim in the profession, that prevention is better than cure.

LYON'S PERIODICAL DROPS have been used by over twenty-five thousand ladies, within the past six months, and the testimony of all is, "It surely cures."

CAUTION:

Bear in mind that I guarantee my Drope to cure. Suppression of the Menses, from whatever cause, though care should be taken to ascertain if Pregnancy be the cause, as these Drops would be sure to produce miscarriage, if taken whilet in that situation, and all are cautioned against using them, as I wish it distinctly understood that I do not hold myself responsible when used under such circumstances. TO MARKIED LADIES

They are peculiarly adapted, as they bring the monthly period with such perfect regularity.

I could furnish any quantity of testimonishs of its efficacy from my own patients, but the practice of parading bought and fictitions ones before the public is so prevalent, I do not deem it advisable.

In almost every case
It is impossible to enjoy the bloom of health and yivacity of spirits, unless the Menses are regular as to the time, the quantity, and quality. When they are obstructed, nature makes her efforts, to obtain for it some other outlet, and unless these efforts of nature are assisted, the patient usually experiences despondency. Nervousness, and finally, CONSUMPTION assumes its sway, and prematurely terminates a miserable life. few words upon this all-important subject and will now attempt to redeem my promise yet I have not the vanity to suppose the can throw much, if any, light upon question. What I have to say will be n the results obtained, or rather the meth by which I have succeeded in renovating worn out farm, than any fine-spun theorie.

In the first place then, let me state concisly the condition of the farm upon which live, when I first took it. There was now acre of the farm that would produce or soo lbs. of hay in a year, and I do not the that there was an acre that clover wo catch upon. It is a sandy loam, easy of a tivation, and had been repeatedly cropp attack with corn and rye, until it did not pays

To add to my embarras ments, I was about as poor as the land upo which I was about to go to work. This was 1850. I had one horse, one cow, and pig—that was my stock in the barn. In the house I was rich in the possession of a way and little ones. Two of our boys we have contributed to the defence of our bleeding country. By great effort we succeeded a keeping the wolf from our door; but the U.S. Assessor has made a lodgment with us mun

What I needed then was experience, as with to obtain this I commenced reading the agi cultural papers and books, and from thengained many valuable lessons. One was that what hand I cultivated should be made to better, and to that I still adhere. In a coral versation held with a successful and intelligent old farmer, he said that a "good way to improve my land would be to plew in the successful and intelligent of the successful an thousand loads of turf to the acre." But sill I where shall I get it? "Well," said he, "it seasiest way to get it is to raise it right on the very land to which you wish to apply it so to Upon this I thought awhile, and conclude with to try the effects of clay and muck on my land, and see it with these I could manage procure the needed supply of turf. TO THE PUBLIC.

Thirty years ago I was in the last stages of Pulmonary Consumption, and given up to die. I resided, in Philadelphia, and Dr. Joseph Parish, then of this city, ordered me to Moorestown, N. J., a distance of nine miles, which took me two days to get there. On my arrival I was put to bed, and there laid for many weeks. This was my native place, where all my family lived and had didd of Consumption. Dr. Thornton, who attended my father in his last illness, was called, and gave me one week to fix up my affairs. He had seen all my family go that way, and thought I was to go, too. Then I heard of the remedies I now offer to the public, which

I am now a healthy man, with a large cavity in the middle lobe of the right lung, the lower lobe very much hepatized and complete adhision of the pleura. The left lung is sound, and the upper lobe of the right lung is sound, and the upper lobe of the right lung. is in a tolerably healthy condition. The great rea

This is sufficient, in many cases, to satisfy what the medicines are. Frequently one bottle makes, a great change in the system. Any person that enjoys ordinary health, by using the Seawced and Mandrake Pills occasionally, must get the digestive organs in such a healthy condition that they become fleshy. I can produce a number of my old consumptive patients now enjoying good health, weighing nearly 20th pounds. I will, conclude by relating these cures I have made in New York, and which are all different, and wish any one who feels any interest in the matter to visit them. First is Mrs. Farlow, residing then at 100 Hoaston street. Her husband called upon me at my rooms, 32 Bond street, and wished me to call and see her. He said I could do no good; that he had all the best medical attendance, and all said she was too far gone with Consumption to be cured; but she had heard of some great cures I had made, and found her lying confuned to her bed in the last stage of bronchalz consumption, and without donbit must have died soon. I examined her lungs, found both bronchial these very much affected, but no cavities had formed; her cough was very severe; the spit-box was half full of thick pass. Pilse 140, legs swollen very much: and worse than all, chronic diarrhea. Her bowels had been of long standing, and her stomach was in such an ulcerated couldition that I was afraid nothing could be done. She insisted I should far had owned her hand worse than all, chronic diarrhea. Her bowels had been of long standing, and her stomach was in such an ulcerated couldition that it was afraid nothing could be done. She insisted I should far her, any worse, I gave her first a dose of my Mandrake Pills, and the Tonic and Pills, and to the grow. The said turnow see

like her case, and tries to get them to come and see me. The next case is Miss Scofield, from Stamford, Conn., Mrs. Bartholomew got her down to see me, and she has been ever since at her house. When she first came to my rooms, she was much emactared with a distressing cough, spitting large quantities of blood. I examined her lungs with the respirometer, and in all my practice never found one with one lung so far gone and the other ling so sound. I could not give much encouragement. I thought she would die; but to my astonishment the Pulmonic Syrup, Scaweed Tonic, and Mandrake Pills all seemed to go right to work, the lung is all healed over, leaving a cavity as large as a goose exg; good appetite, fine spirits and fine grained some thirty-five pounds in weight. She has some conghyet, which I do not think it would be of great interest to some unprejudiced physician to visit these cases, particularly Miss Scofield, or any of them who have been cured by my medicines. They are numerous in New York; but the above-three all differ from each other; and if medicines are doing what I represent they are, they should have the credit and the affected known where and how they may be cured.

J. H. Schenck can be found at his principal office No. 3º North 6th Street, Philadelphia, every Saturday, from 9 A. M., until 5 P. M., to give advice free of charge; but for a thorough examination he charges three dollars. Price of the Pulmonic Syrup and Seawed Toulc each \$1 per bottle, or \$5 the ball dozen. Mandrake Pills 28 cents per box, and is for sale by all Druggists and Dealers.
