The Ladies' Covenant.—This Union to discourage the wearing of imported silks, satins, laces, etc., is one of such importance to the material prosperity of the country and to the comfort and happiness of hundreds of thousands of families in moderate circumstances, that we earnestly hope the principles will be acted upon strictly to the letter. The ladies should not only stop purchasing foreign goods, but they should stop wearing them. But half the object is attained sinless this is done. Example is potent, and if our ladies from J Seachrist to EW Seachrist. done. Example is potent, and if our ladies confine themselves to dresses of American

manufacture, and lay away their costly Eu ropean silks, the desired end will be soone sttained. Gold will not fall materially in price until our enormous imports of luxuries that can and should be dispensed with in these war times, are entirely checked. The effect of the mere movement of the ladies in this matter is already visible in France, in the consternation it creates among manufacturers. A letter received in New York from Paris,

"The formation of the Ladies' Union in the United States against the use of foreign-goods has scattered terror and confusion among the Euopean manufacturers. The buyers of the houses of A. T. Stewart, Arnold, Constable, & Co., and of A. T. Stewart, Armond, Constants, & Co., and others whom I have met, says that their occupation is gone; that they have ceased to buy until further orders, but that they do not expect to buy any more so long as the Covenant exists. The number of American buyers in France is very large, and they find themselves all at once out of employment."

It now rests with the patriotic ladies of this land by the adoption of the views we express, to render still more effective the consteruation of foreign manufacturers, and lighten the burdens of this War. Our soldiers who have families, will be grateful to them, and posterty will applaud thier action.

GOV. MORTON'S OPINION OF FREMONT.-A Lincoln ratification meeting held a few venings since in Indianapolis, Ind., Gov. Morton, referring to Gen. Fremont's letter accepting the nomination of the Cleveland Convention, said the silence of Fremont in regard to the prosecution of the war and suppression of the rebellion gave rise to most painful apprehensions of his true position. He (Morton) had carried his standard in 56 and endeavored to sustain him as a politician and military chieftain, and never until he saw that letter, had cause to regret what he had done. The letter gave joy to his enemies and pain to his friends; and omitting one or two sentences, there is nothing in it that might not have been written and subscribed to, with-

out inconsistency, by Mr. Vallandigham. JOSEPH C. HORNBLOWER, ex-Chief Justice of New Jersey, is dead. He became a member of the New Jersey bar in 1803, and Chief Justice of the Supreme Court in 1832. Throughout his long and useful life he was a consistent anti-slavery man, and a patron of the arts and sciences. A good man gone.

WAR ITEMS. —General Canby's operations at Columbia have terminated the blockade of the Mississippi River. The 2d Pennsylvania Artillery, which left Washingten some few days since, has made its debut in battle, and accounts from there state that its maiden effort was characterized by undanned nourage and coolness under fire. Lieut. Loud is reported killed, and the following officers wounded: Major Anderson; Capt. Jones, Co. L. mortally; Capt. Strawbridge, Co. I, and great slaughter amongst the rank and file.

Gen. Butler telegraphs that on Friday morning Gen. Kautz charged the enemy's works at Petersburg, and carried them, penetrating the town; but, not being supported by Gen. A junction has been formed with Crook and Averill. A depatch on the 9th says our infantry was then engaged in destroying the railroad east and west sof Staunton.

General Grant has just excepted another grand move, which was commenced on Sunday night. Smith's Corps marched to the White House and embarked on transports for Bermuda Landing. Wright and Burnside's corps crossed the Chickahominy at Jones Bridge and marched to Charles City, on the James River. Hancock and Warren's corps crossed at Long Bridge and marched to Wilcox's, on the James river. THE COAL CONTRIBUTIONS TO THE SANDAR FAIR. In our advertising columns will be found acknowledgments of Contributions from the Trade up to this week. While many operators have contributed "a day" with cheerfulness and promptness, that reflect the greatest credit upon them, we regret to state that some sections of the Region are not responding at all. Whis fact is far from creditable to the mon who have pros-pered so much during the past two years, and who have been protected in their property and homes by our brave soldiers. If the breasts of the men to alleviate whose sufferings these con tributions are asked, had not been placed as rampart between the foe and the Coal Region our works would have been destroyed, and where peace and plenty now reign, the discord of war and gaunt famine would exist. Let each operator who has not contributed his day's production and the men in his employ, consider the subject before it is too late-let common humanity, if not gratitude, actuate the gift, and let it be made promptly. The man who refuses to give for such an object, is unworthy to enjoy the great privileges to preserve which our soldiers are daily laying down their lives, and suffering in the hospi-tals. Wake up, Coal operators, who have not already done your duty in this matter, and let your response be prompt and liberal. All contributions will be acknowledged through the columns of the MINERS' JOUENAL.

The Lehigh Region has been slow in moving, but she promises to come up in grand style. Messrs, Pardee & Co. have opened the ball by giving 100 cars of coal to the Sanitary and 100 to Wharf No the Christian Commission. On Wednesday last the St. Clair Coal Company of Boston, formerly Hart & Co's shaft and slope collieries, sent 70 to 80 cars from the mines to Philadelphia, for the benefit of the Fair. The

donation will nett from \$2500 to \$3000. We trust that it will be unnecessary to further urge the thoughtless or spathetic on this subject, in the Trade, to action. Three thousand lives saved at Fredericksburg in the commencement of Grant's forward movement, by the Commissions attest the value of the services of these Associations. By sustaining them with means, we enable them to continue the good work, and do our simple duty to the brave defenders of our country.-Each man of Schuylkill who has not contributed

In all other forms of indebtedness, the faith r ability of private parties or stock companies, or seprate communities, only is pledged for payment, while for the debts of the United States the whole property of the country is holden to secure the payment of both rincipal and interest in coin. These Bonds may be subscribed for in sums from \$5 up to any magnitude, on the same terms, and are thus

made equally available to the smallest lender and the largest capitalist. They can be converted into money at any moment, and the holder will have the benefit of the interest. It may be useful to state in this connection that th total Funded Debt of the United States on which inter-

The interest on this debt for the coming fiscal year will be \$45,937,126, while the customs reve nue in gold for the current fiscal year, ending June 30th. 1864, has been so far at the rate of over \$100,000,000 It will be seen that even the present gold revenues o

HAWLEY'S SOLIDIFIED

DENTAL CREAM,

For Oleansing, Whitening and Preserving

THE TEETH!

This article is prepared with the greatest care upon scientific principles, and warranted not to contain anything in the slightest degree deleterisms to the teeth or gums. Some of our most eminent Dentai Surgeons have given their sanction to, and cheerfully recommend it as a preparation of superior qualities for cleansing, whitening and preserving the teeth. It cleans item' readily, rendering them beautifully white and pearly, without the slightest injury to the enamel.—
It is healing to the gums where they are ulcerated and sore. It is also an excellent disinfector for old decayed teeth, which are exceedingly offensive. It gives a rich and creamy tasts to the mouth, cleansing it thoroughly, and imparting a delightful fragrance to the breath.

Prepared only by A. HAWLEY & CO., N. W. Cor. 10th and Lembard sta., PHILAD'A, and sold by all Druggists. Price 25 cents.

TESTIMONIALS.—The following opinion of Dr. White, as to the high esteem in which he holds the Dental Cream, must be sufficient evidence of its value: to quote other testimonials in detail. is needless, contenting ourselves by simply giving the names and addresses of persons who speak of its excellency for the teeth:

Bulloniarial April 16th, 1653.

Having carefully examined A. Hawley's "Solidified Dental Cream," I hereby cheerfully recommend it to the public generally. It is an excellent preparation for cleansing and preserving the teeth, and can be used by all persons with the utmost confidence as its properties are perfectly harmless. Besides preserving the teeth, it promotes a healthy action to the gums, and imparts a pleasantness to the breath.

Saturday, June 18, 1864. THE WAR FOR THE UNION! The Movements of Gen. Grant-President Lincoln at the Santtary Pair-Impor-tant Prediction-Morgan's Retreat from Kentucky, &c.

Kentucky, &c.

From the Army of the Potomac we have the details of the movement to the James River. The change of base has been very successfully made, without the loss of a man or a wagon. General Grant and staff started for General Butler's command on Tuesday morning. It is evident that Gen. Grant is pushing rapidly forward south of the James. One dispatch says that his whole army had passed through the Bermuda Hundred line Wednesday morning. There were sounds of battle towards Petersburg, and the immediate fall of that place may be expected. It cannot be defended by any considerable force. Then a march to Fort Darling will be at once in order.

President Lincoln arrived in Philadelphia about noon on Thursday, and was oscorted to the Continental by a large concourse of citizens, accompnoon on Thursday, and was oscorted to the Continental by a large concourse of citizens, accompanied by a band of music. In the afternoon he was welcomed to the city by the Mayor and a Committee of Councils, and subsequently visited the Sanitary Fair. In the evening, on his return, he stopped at the Union League House and the National Union Club House, and was afterwards serenaded at the Continental. At the Fair the President made a speech, concluding as follows:

"My friends, I did not know but that I might be called upon to say a few words before I got away." "My friends, I did not know but that I might be called upon to say a few words before I got away from here, but I did not know it was coming just here. [Laughter.] I have never been in the habit of making predictions in regard to the war. But I am almost tempted to make one. [Cries of 'Do it."] If I were to hazard it, it is this: That Grant is this evening, with General Meade and General Hancock of Pennsylvania, and the brave officers and soldiers, in a position whence he will hover be dislodged until Richmond is taken. [Great cheering.] And I have but one single proposition further to put now. Perhaps I can best put it in the form of an interrogatory. If I shall discover that Gen. We beg leave to refer, among a large number of gentlemen of the highest respectability, who have purchased Pianos of our Manufactory, in regard to the entire satisfaction these Pianos are giving, to
