RESIGNATION OF SECRETARY CHASE -The anconnections that Mr. Chasa had retired from the Freasury Department caused surprise. The cause of the retirement is problematical, though it is believed to be of a personal rather than of a olitical character. It is rumored that the cause s of no more importance than a misunderstand ng between the President and the Secretary of the Treasury in reference to certain appointments in the Treasury Department. Mr. Chase was an eminent finance minister, and in retiring from the service of the people, carries with him the nation's gratitude for his devotion and energy in the trying hours of his administration. "AMERICAN REPUBLICAN."-This German paper published in Pottsville, by J. P. Bertram, Esq, has obtained new type. It presents a very neat appearance, and has entered upon the Campaign for Lincoln and Liberty with an energy, spirit and ability which must tell in favor of the cause. The Republican is a well conducted paper; decided in its advocacy of correct principles, and merits the support of the Union men of Schuylkill County. Our German citizens should subscribe for it, and thus extend the influence and usefulness of the Republican.

A Suggestion Worthy of Attention .-Vegetables are needed by the soldiers to keep them in health, and afford relief from the inevitable "hard tack" they are compelled to subsist upon. It is suggested that the money usually expended for fireworks on the Fourth of July, be diverted from its customary channel and applied to furnishing our soldiers with vegetables, fruits, etc. When Grant announces that "Richmond is ours," then we can get up a pyrotechnic jubilation of unparalleled brilliancy. In the meantime, let us devote that money to the benefit of our wounded warriors. Who will start a vegetable Fourth of July Fund here?

On Saturday last we made a desperate charge on the enemy's rile pits at this place, but I am sorry to say that we were driven back with heavy loss on our side. Two Divisions charged, the 1st and 4th, while the 2d and 3d were held in reserve.

Our Division (the 4th) is commanded by Brig.-Gen. Cutler, and the Brigade by Col. Wm. Hofman, formerly commander of the 56th Regiment. He is one of the best officers in this Division—cool and brave. We are now lying in our rifle pits, and have to lay very low, or we will be shot at by the Johnmes. I think they shoot very carelessly, for during our charge I had my rifle broken and the tin-cup knocked off of my haversack. I commenced to think that they were mearnest. We are not more than four hundred yards from them now, and our skirmishers cannot be more than two hundred yards from their breastworks. They have no skirmishers out, only at night. Ours have pits that they lay in, but it is dreadful hot for them, right in the open field. We put up our shelter tents during the day. This morning Col. Hofman sent word around to the Regiments that they should detail three men from each Company to shoot at the graybacks from the breastworks.—He said that if their balls could reach here, ours would surely reach there. Since we have done so, we can go back to the rear for water with a little less danger of being hit. Before that, we did not dare to put up our heads. During the time I was back making coffee, I should judge some 15 minutes, there were four wounded and one killed.

EDITODS MINERS JOURNAL:—Your paper is one of our most welcome visitors, especially to the Schuylkill County boys. We receive them regularly in Co. F, and keep looking for a letter from our Regiment, but in vain. If you can find a vacant corner for this scrawl, we will be very happy to see an account of our Regiment in priat. The 7th Pa. Cav. has been doing its duty ever since the army has been moving. We have been moving from right flank to the left, and are kept busy all the time. all the time.

On Thursday, May 19th, our Brigade charged 4 miles to gain a bridge crossing the Etowah river, as the enemy was expected to cross there for Hooker was punishing them severely at a bridge about 7 miles farther up the river. After that we rested here the bridge a foundary the bridge a foundary tends. bridge about 7 miles farther up the river. After that we rested near the bridge a few days, and then started on the march again, nothing of importance turning up until reading Dallas, when we began to see the enemy once again. I do not thing our Regiment ever saw such a scarcity of horse feed as they did there. Our horses were four days without a mouthfull of corn, and when we did get a chance to do some foraging we had to fight for it.

foraging, the enemy charged on Co. K, but they met them without flinching. They lost two men; both shot in the head. They then get their corn and started for camp. Co. F was ordered to load up their horses. When they were loaded and were up their horses. When they were loaded and were being sent back to camp the enemy attacked us again. They surrounded us but we got a good position and they dared not advance. They captured 13 of the horses, but we held them at bay until they were driven off by the other part of the Regiment. Saturday June 11th, left camp, our Regiment being in the advance. We met the enemy at a place called McAllee. We skirmished on foot; place called McAtlee. We skirmished on foot, drove them a short distance; and their returned to camp as the orders were not to go any farther. We returned to camp about two miles from McAffee. We are now on picket. The enemy's pickets are in sight. Two deserters came in from the 4th Ga. Cav. They say there are many more only waiting for the chance to got away. The enemy attacked for picket post last night, but they were driven back. We did not lose any men. I think they must have lost some, for the did not seem so ready in the second attack. EDITORS MINERS' JOURNAL: Some of your sub Entrons Minens' Journal: Some of your subseribers are exceedingly annoyed by certain lazy loungers, who frequent their places of business for the purpose of sponging their newspaper reading. Now, of all nuisances, such drones are the most contemptible, and especially so from the fact that they are abundantly able to pay for their newspapers. Some allowance may be made for a poor drunkard, who lounges about barrooms to sponge a drink from his friends; but a man who, from sheer meatiness, makes it a rule to frequent places to read papers that poorer men pay for, and snatch and use them before the owner gets hold on them, is void of all sense of honor. COAL LAND AND STOCK INTELLIGENCE OFFICE. Mr. James Penman, a gentleman we can recommend with entire confidence, has opened an oftice of this character in Scranton, Luzerne County, Pa., which will prove valuable to persons who desire information of Coal lands and stocks, and of many Coal companies interspersed through that interesting Coal field. As Mr. Ponman has resided for ten years in that Region, and perambulated considerably through the Valley from above Carbondale to Shickshinney, a distance of about sixty miles, he is amply competent to give all needed information and render valuable as sistance to those requiring his services. Mr. Penman can be addressed at Scranton.

BAUGH & SONS. SOLE MANUFACTURERS, store No. 20 South Delaware Aven PHILADELPHIA.

This article has for many years enjoyed a high reputation as a manure of great efficiency and of inequalled permanence, and we scarcely doem it important in our semi-annual advertisement to, say more than merely call the attention of buyers to it. But we will also state to Farmers and Dealers in Fertilizers that it has been our constant aim to render our **Haw-Bone Phos-phate** more and more worthy of the full confidence of farmers, by the use of every facility at command, and the aid of scientific skill; in essentially improving its qualities, and we have never allowed this purpose to be interfered with by the great and steady advance in the cost of all matters pertaining to our business throughout the past two years. throughout the past two years.

The Raw Bone Phosphate may be had of any regula dealer in Fertilizers (to whom we advise farmers to apply), or of the manufacturers and proprietors.

S. G. NORTHIKOP. Agent.
What Everybody Knows, viz:
That Iron, well galvanized, will not rust;
That a wringer should be self-adjusting, durable, and efficient: That Thumb-screws and Fastenings cause delay and trouble to regulate and keep in order: That wood soaked in hot water will swell, shrink, and split; That wood bearings for the shaft to ran in will wear out: That the Putnam Wringer, with or without cog-wheels will not tear the clothes:

That cog-wheel regulators are not essential : That the Putnam Wringer has all the advanta not one of the disadvantages above named; First all who have tested it, pronounce it the best Wringer ever made: That it will wring a Thread or a Bed-quilt without al teration:
We might fill the paper with testimonials, but insert only a few to convince the skeptical, if such there be; and we say to all, test Putnam's Wringer. Test it THOROUGHLY with ANY and ALL others, and if not entirely satisfactory, return it.

Putnam Manusacturing Co.—Gentlemen: I know rom practical experience that iron, well galvanized wit sine, will not exidize or rust one particle. The Putnat Wringer is as near perfect as possible, and I can chee fully recommend it to be the best in use.

Respectfully yours,
JNO: W. WHEELER, Cleveland, Ohio JNO: W. WHEELER, Cleveland, Ohio.

Many years' experience in the galvanizing business enable me to indorse the above statement in all particulars.

JNO. C. LEFFERTS, No. 100 Beckman St.

New York, January, 1864.

We have tested Putnam's Clothes Wringer by practical working, and know that it will do. It is cheap; it is slimple: it requires no room, whether at work or rest: a child can operate it; it does its duty thoroughly: it saves time and it saves wear and tear. We carnestly advise all who have much washing to do, with all intelligent persons who have any, to buy this Wringer. It will pay for itself in a year at most.

"But it was a beautiful Sabbath, sunny and cool; and, leaving our old friend to the con-soling of his wounded boy, we walked down to see the funeral of the soldier. It was an impressive sight! Who can see a regiment with arms reversed, and hear the "dead march" played with trumpet and drum, and with arms reversed, and hear the "dead march" played with trumpet and drum, and not feel it warm about his ears? We stood upon the steps of the City Hall, while the wondering thousands silently looked on. The narrow coffin, laden with flowers, and confaining all that remained of Col. Orlando Morris, the young hero, slain in the very pride of his youthful beauty, was lifted upon the plumed and curtained hearse. Two prancing gray horses curvet ed in their black caparisons to bear him away. The officers of the brave young regiment mounted upon their last stands with the ground, and almost instantly expired.

THE receipts of the Philadelphia Sanitary Fair were over a million of dollars. Gen. Meade received the sword; E. G. James, Esq., the Union vase; Gen. Birney the camp chest; Gen. Hanof the Fair.

WAR ITEMS. Oun entire less in Sherman's late fight will not, is said. exceed 1500 men.

COL. FRANK WOLFORD was arrested at Lebanon y order of Gen. Burbridge, and brought to ouisville on Monday night. ALL the Rebel officers lately confined at Point Lookout have been transferred to Fort Delaware, to make room for the rest of the Rebel prisoners who crowd that camp to more than its capacity. The Commissary General of Prisoners finds by his books that we have fifty thousand rebel prisoners on hand which is a large excess in favor of the Union. By direction of President Lincoln the 19th

Army Corps has been temporarily discontinued. The General Commanding the Division of West Mississippi has been ordered to the command of the troops of this corps. The quality of this Blue will be the same in every respect The quality of this Blue will be the same in every respect. It is nearranted to color more water than twice the same quantity of Indigo, and to go much further than any other Wash Blue in the market. It dissolves perfectly clear, and does not settle on the clothes as most of the other makes do. One Box dissolved in a halfpint of water, will make as good a Liquid Blue as any that is made, at one-third the cost.

As it is retailed at the same price as the Imitations and inferior articles, housekeepers will find it very much to their advantage to ask for that put up at WILT-BEHGRIPS.

7-6m-if REFUTATION OF A SLANDER. We have been informed that a certain individual has attempted. In Pottaville and neighborhood, to injure the well-founded reputation of the Pianos of our Manufactory, by asserting to have tuned Planos of our make, in Reading, and finding them to keep in bad tune.

On inquiry instituted by us, of the parties direct, we hear that the said individual has neither seen nor tuned these Planos, and every friend of truth and honor may draw from this his conclusions, what credit the slanderous assertions of said individual deserve. We said to state distinct. 23 In France and Italy thousands of acres are planted with flowers to supply perfumery manu-
