Correct the stomach and liver, and they will heal up themselves. Good nutrition is the remedy. If you have any di-sease in any part of the body, it will remain there, and decay more and more, until you can get the stomach in the condition to digest food, and make new blood to take the place of diseased matter. This is the only way to heal cavities in the lungs and nicerated bron-chial tubes. Correct the stomach and liver, and nature will do the healing. Many persons have an idea that certain medicines are great purifiers of the blood. When blood is once discussed it cannot be purified; it is di-seased the same as the diseased matter un the system: but get the apparatus in order, the liver and stomach, and give it plenty of nourisbing food, it will make new blood, which will take the place of that which is di-SARSAFARILLA; which soon completely cared her.¹ From Charles P.  Our only child, about three years of age, was attacked by pimples on his forchead. They rapidly spread until they formed a loathaome and virulent sore, which covered his face, and actually blinded his eyes for some days. A skilfel physician applied initrate of aliver and other remedies, without any apparent effect. For fifteen days we guarded his hands, lest with them he should tage open the featuring and corrupt wound which covered his whole face. Having tried every thing elso we had any hope from, we began giving your SARSAPAKILA, and applying the iodide of potash lotion, as you direct. The sore began to heal when we had finished the second. The child's eyelashes, which had come out, grew again, and he is now as healthy and fair as any other. The whole neighborhood predicted that the child must die." Syphilis and Mercurial Disease. This article has for many years enjoyed a high repu-tation as a manure of great efficiency and of unequalled permanence, and we scarcely deem it important in our semi-annual advertisement to say more than merely call the attention of buyers to it. But we will also state to Farmers and Dealers in Fertilizers that it has been our constant aim to render our **Baw-Bone Phos-phate** more and more worthy of the full confidence of farmers, by the use of every facility at command, and the aid of scientific skill, in essentially improving its qualities, and we have never allowed this, purpose to be interfered with by the great and steady advance in the cost of all matters pertaining to our business throughout the past two years. The Raw Bone Phosphate may be had of any regular dealer in Fertilizers (to whom we advise farthers to apply), or of the manufacturers and proprietors. **BAUGHA & SONS**, No. 20 South Delaware A venue, No. 20 South Delaware Avenue Jaly 2, '64.-27-3m] PHILADELPHIA.
