SHAMELESS REFRONTERY;

There is nothing more disgraceful in this campaign than the effort now being made by the party that in Pennsylvania in August last cast 105,163 votes against allowing our soldiers to vote, to wheedit the coldiers into voting their ticket. When these partizans ask you, soldiers, to vote for their candidates, point to the fact that every strong Democratic district in this State, gave a heavy majority against granting you the right to vote; to the fact that after Judge Woodward had on the Supreme Bench of this State, disfranchised you, and when he ran for Governor, Gen. McClellan wrote a letter endorsing his views; and to the fact that Pendleton, the Democratic candidate for Vice President, while in Confice and disposed the army and the war in every yote he gave. district in this State, gave a heavy majority vote he gave.

These facts it would seem, are sufficient to place every honest soldier on his guard against the wiles and machinations of the Copperheads. But we would say to every soldier who unthinkingly may be in favor of soldier who unthinkingly may be at the have been taken away.

Second, That property has been appropriated. gleaned from what he has written or said since his nomination, to show what would be his rule of action in case of his election. His utterances are unintelligible and subtleties thrown back on the declarations of his party as embodied in its platform. Here we find something we can understand

The proposition for a cessation of hestilities on account of the failure of the war, hestilities on account of the faintee of the table of the faintee plain people in no maze of doubt as to its meaning. If he were ten times the patriot heris, he would be drawn by the irresistible gravitation of his associations, his necessities, and the creed of his party, into the policy of his party. What that policy is, soldiers of the Union, you know. Is there any thing in it but what you, holding a Union musket in your hands, would not spit out of your mouth with scorn? Surely there is not, unless you are willing that the heroes shall have died in vain, unless you are willing that the trials and triumphs of the grandest of wars shall pass for nothing, unless you are willing to break your weapons of war and retire to the ienoming which must come upon men

But the country is destined to no such humilistion. The voice of the Army will on the 8th of November, proclaim in thunder-tones that the war must be prosecuted till the rebellion is quelled and the Union restored.—

common sense, I ask you not to appeal to a just God in such a sacriligious manner—you who, in the midst of peace and prosperity, have pluinged a nation into civil war, "dark and cruel war," who dared and badgered us to battle, insulted our flag, seized our arsenals and forts that were left in the honorable custody of a peaceful ordinance sergeant, seized and made prisoners, of war the very garrisons sent to protect your people against negroes and Indians, long before any overt act was committed by the "to you" hateful lincoln Government, tried to force kentucky and Missouri into the rebellion spite of themselves, falsified the vote of Louisians, turned loose your privateers to plunder unarmed ships, expelled Union families by the Sheusand, burned their houses, and declared by act of your Congress the confiscation of all debts due. That is sharp and to the point. In a reply subsequently, to the City Council of Atlanta, in a letter dated Sept. 12, 1864, showing why the order of removal must be carried out; that peace and union go together, etc., Gen. Shorman concludes

I repoat, then, that, by the original compact of Government, the United States had certain rights in Georgia which have never been relinquished, and never will be; that the South began the war by seizing forts, areanals, mints, custom houses, &c. &c., long before Mr. Lincoln was installed, and before the South had one jet or tittle of provocation. I, ayself, have seen in Missiouri, kentucky, Tennessee and Mississippi, hundreds and thousands of women and children fleeing from your armies and deperadoes, hungry and with bleeding fect. THE SOLDIERS FOR THE UNION.—The 187th Regiment, P. V., after three years service, reached Philadelphia on Tuesday last. As the men marched past Eleventh and Chestnut streets, they noticed the new McClellan Headquarters. "Played out!" the boys shouted, "played out! Hang up your figgles along with McClellan's spurs!" The crowd laughed, and joined with the soldiers in deafening cheers for Lincoln and Johnson. The few copperheads that were about looked grim and chopfallen. This regiment is Union all the way through. After fighting three years they will not now kneel to the enemy almost under their heels.

Gen. Grant pulling a cert labelled "Disasion."
On this picture Grant was made to say, "I work
for the side that pays the most." Yet these men
pretend to be Union men. On a large McClellan
banner in the Bowery is inscribed. "The olive
branch to our enemies!" While feather should be
inserted in place of olive branch.
It is asfonishing to note how many people in
New York have lately left the ranks of the sham
democrate and declared in favor of Lincoln and
Union. The sinking ship is being descreed, and
scarcely any one is now seen parading the streets
with McClellan bridges on their b easts except a
few half grown boys and loafers. Do not set
New York State down for less than 75,000 majority for Freedom and Union. The copperheads
say their candidates will get the army vote. but
I think the soldiers will be more likely to vote for
the side they are fighting for. Projected Improvement—A Woolen Mill to be Erccted Here.—We understand that the project of erecting a woolen mill here is under consideration, and that the building can be erected and the mill put into operation by March next if our citizens will subscribe the requisite amount at once.

tion; and that the building can be erected and the mill put into operation by March next if our citizens will subscribe the requisite amount at once. The capital required is fifty thousand dollars, which will put up the necessary buildings and machinery, and furnish a working capital. A few gentlemen have expressed themselves willing to take the whole amount, but it is desired that our citizens generally, shall be interested directly in the factory. Messrs, John Pott and D. P. Brown, of this Borough, have investigated the matter thoroughly, and are prepared to give all needed information. We hope that our citizens will act in this matter at once, so that by next Spring we may have the mill in operation. It will be a profitable business, finding as the mill will in this Region a good market for its entire product. It will give employment at good wages to a large number of girls who are now engaged in no remunerative business, and will build up and add to the population of the Borough. Factories are badly needed here, and we not only trust that this project will be successful, but that it will be the pioneer of pany similar improvements in Schuylkill County. I think the soldiers will be more likely to vote for the side they are fighting for.

Sporting men in this city are betting five to one on Lincoln. The Gunboat General's followers are rather shy about betting on Little Mac. They are more anxious to get rid of their gas than they are to part with their money, having a great deal larger stock of the former on hand.

whether there is any basis for what there is every reason to believe is a wifful, and malicious representation.

From these records we find the total amount of U.S. taxes collected from Schuylkill County, from Sept. 1st, 1863 to Sept. 1st, 1864, amounts to \$402.353 57, of which amount the trifling sum of \$2000 has been paid by farmers, leaving \$400,353 57 paid by other parties.

Thus it appears that nearly all the U.S. Taxes assessed in this County, are paid by the coal operator, Merchants, Manufacturer, and professional men. Two Thousand Dollars is all that has been psid in one year by the farmers to Revenue officers to support the Government and pay the interest on the public debt." How paltry the sum! How much more contemptibly small the malicious demagogue who would thus falsely accuse the government and mislead the people!

The merchant, the manufacturer and many professional men are required to take out a license. No such thing is required to take out a license. No such thing is required to pay a certain per centage on his manufacture. No such tax has been levied on the product of the Farmer.

If it possible that the honest farmers of Schuylkill County will allow themselves to be duped any longer by unscrupulous politicians?

But you exclaim, "How about the War tax?" Well, this is a bounty (purposely called "the war tax" by the same demagogues in order to make it appear oppressive) assessed by the people of a Borough or Township upon themselves and levied by the Commissioners upon persons and property to be paid those who offer themselves in place of THE SCHUYLKILL-COENTY FEMALE BIBLE SOCIETY will hold a public quarterly meeting, in the 1st Presbyterian Church, om Mahantongo street, at 7% october, next MONDAY EVENING, when an address will be delivered by Rev.
