Scald Head, Sore Eyes.

Scald Head, Sore Eyes.

From Harvey Sickler, Esq., the able celitor of the Tunkhannock Democrat, Pennsylvania.

Our only child, about three years of age, was attacked by pimples on his forchead. They rapidly spread until they formed a loathsome and virulent sore, which covered his face, and actually blinded his eyes for some days. A skilful physician applied nitrate of silver and other remodies, without any apparent effect. For fifteen days we guarded his hands, lest with them he should tear open the festering and corrapt wound which covered his whole face. Having tried every thing clas we had any hope from, we began giving your Sansarfarilla, and applying the iodide of potash lotion, as you direct. The sore began to heal when we had finished the second. The child's eyelsshes, which had come out, grew again, and he is now as healthy and fair as any other. The whole neighborhood predicted that the child must die."

ful alterative is required."

Mr. Chas. S. Van Liev, of New Bramswick, N. J., had dreadful ulcers on his legs, caused by the abuse of mercury, or mercurial disease, which grew more and more aggravated for years, in spite of every remedy or treatment that could be applied, until the persevering use of AYER'S SARSAPARILLA rolleved him. Few cases can be found more involvate and distressing than this, and it took several dozen bottles to cure him. Leucorrhœa, Whites, Female Weakness, are generally produced by internal Scrofulous Un-ceration, and are very often cured by the alterative effect of this SARSAPARILLA. Some cases require, however, in aid of the SARSAPARILLA, the skilfni application of local remedies.

From Dr. Robt. Sawin, Houston St., New York.

"DR. AYER. I seldom fall to remove Exuptions and Scrofulous Sores by the persovering use of your SARSAT ARILLA, and I have just now cured an attack of Malignant Erysipelas with it. No alterative we possess equals the SARSATARILLA you have supplied to the profession as well as to the people."

From J. E. Jehnston, Esq., Walteman, Ohio.

"For twelve years, I had the yellow Erysipelas on my right arm, during which time I tried all the eclobrated physicians I could reach, and took hundreds of dollars worth of medicines. The ulcers were so bad that the cords became visible, and the doctors decided that my arm must be amputated. I began taking your SARSATARILLA. Took two bottles, and some of your FILLs. Together they have tured me. I am now as well and sound as any body. Being in a public place, my case is known to every body in this community, and excites the wonder of all."

Thirty years ago I was in the last stages of Pulmonary Consumption, and given up to die. I resided in Philadeliphia, and Dr. Joseph Parish, then of this city, ordered me to Moorestown, N. J., a distance of nine miles, which took me two days to get there. On my arrival I was put to bed, and there laid for many weeks. This was my native place, where all my family lived and had died of Consumption. Dr. Thornton, who attended my father in his last illness, was called, and gave me one week to fix up my affairs. He had seen all my family go that way, and thought I was to go, too. Then I heard of the remedies I now offer to the public, which cured me. It seemed to me that I could feel them pentrating my whole system.

They soon ripened the matter on my lungs, and I would spit off more than a pint of offensive yellow matter every morning. As soon as that began to subside, my cough, fever, pain, night swents—all began to cleave me, and my appetite became so great that it was with difficulty I could keep from cating too much. I soon ghined my strength, and I have been growing in fiesh ever since. For many years I have enjoyed uninter-rupted good health, keeping the liver and stomach healthy with the Seaweed Tonic and Mandrake Pille, as I am of a bilious temperament. My weight is two hundred and twenty pounds. On my recovery people would send for me, far and near, to see if their cases were like mine. For this purpose I pay professional visits in the large clies. The consumptives wish to see the one that makes these medicines, and who was cured of consumption by them. To make new lungs is impossible; but cavities in the lungs, and chronic ulcerations of the brouchial tubes can be healed. Such cases are dying hourly under the ordinary treatment of physicians, and just such are cured by the proper use of Schenck's Pulmonic Syrup, Seawed Tonic, and Mandrake Pills.

I am now a healthy man, with a large cavity in the middle lobe of the right lung the lower labe very much. Life.

is in a tolerably healthy condition. The great reason why physicians do not cure consumption is, they try to do too much; they give medicines to stop the cough to stop chill, to stop night sweats, heetic fever, and, by so doing, they derange the whole digestive powers, locking up the secretions, and eventually the patient sinks and dies. After I make a careful examination of the patient with the Respirometer, and find lungs enough left to cure. I direct the patient how to use three remedies. Remove the cause, and they will all stop of their own accord. No one can be cured of consumption, liver complaint, dyspepsia, catarrh, canker, correspondence.

HAVE YOU A COUGH? HAVE YOU SORE THROAT? HAVE YOU ANY Of the premonitory symptoms of that most fatal disease. Consumeron?

Those who should be warned by these symptoms generally think lightly of them until it is too late. From this fact, perhaps more, than any other, arises the said prevalence and fatality of disease which sweeps to the grave at least one-sixth of Death's victims.

What are its Swarroms?

It usually begins with a short, dry cough, which soon becomes habitual, but for some time nothing is raised except a property access. The breathing is somewhat perfecture, and upon slight exercise much hugars. A sense of their raises and orwarsons at the chest is often felt. As the disease advances the patient becomes thin in flesh, is afflicted with loss of appetite, great languor, indolence, and dejection of spirits; and may continue in this state for a considerable length of ime, that it is very readily affected by slight exposure or fatigue. If these occur, the cough becomes more troublesome, and is attended with expectoration, which is most copious and free early in the morning. It is sometimes streaked with blood. At this stage night aweats usually set on, and in some cases a profus bleeding of the lungs may also occur. Pain in some part of the chest is felt, and often a difficulty of lying upon one or the other side, without severe fits of coughing or a sense of fullness or suffocation, is experienced. The pulse becomes full, hard, and frequent, the hectic fush tinges the cheeks, and the dire malady is fast hastening to its close.

You now ask, "Is THERR A CURE!"

Consumption has been and can be cured by the use of my Tan Cornial, even in apparently hopeless cases.—
This assertion I make with the ability to present the most complete evidence of the truth. Space will not admit of my giving the contents of the many thousands of testimonials to its value, which I have been and an receiving from men and women of unquestionable worth and reputation. I have had a number of these certificates printed in circular form, which II will send you free on application. Whether you now determine to try the medicine or not, send for the circular. Because I believe this to be the best, I ask you to try it.

Many, not only of the people, but physicians of every school and practice, are daily asking me, "What is the principle or cause of your success in the treatment of Pulmorany Consumeriory" My answer is this:

The introduction of the digestive organs—the strengths and engineers of the blood, must expel from the system the corruption which Scrofula breeds. While this is effected by the powerful alterative (changing from disease to health) properties of the Tar Cordial, its healing and renovating principle is also acting upon the irritated surfaces of the lungs and throat, penetrating to each diseased part, relieving pain, subduing infammation, and restoring a healthful tendency. Let this two-fold power, the healing and the strengthening, continue to act in conjunction with Nature's constant recuperative tendency and the patient is saved, if he has not too long delayed a resort to the means of

TOMATO SAUCE. - A nice sauce of tomatoes s made by reducing this vegetable to a pulp and seasoning with butter, sugar, pepper and salt, and a few corns of allspice. This is served hot with fresh meats. But the following receipt may be used in preparing winter stores, and it will keep without fail if

properly prepared: 1 peck of tomatoes. 1 ounce of cloves.

I ounce of cinnamon. 3 tablespoons of ground black pepper. 1 quart of yinegar. Peel the tomatoes and boil very tender: hen grain them from the juice. Boil the juice with the vinegar and above spices, and

five pounds of best brown sugar, until it is very thick; pour it scalding hot over the fruit, and keep closely covered? Egg Sauce. Set a sauce-pan over the fire. with a pint of fresh milk in it, seasoned with a little pepper and salt. When it boils six in a lump of butter and four half beaten eggs. Allow the eggs to clot if you like, by only occasionally stirring, scraping the eggs from the sides and bottom of the sauce-pan in the operation—or you may make the sauce mooth like custard, and cut up hard boiled eggs around the fowl after the sauce is poured over it. Egg sance is oftener made by

stirring hard boiled eggs finely minced, into drawn butter ir cream, seasoning with per-MUSTARD SAUCE. - Into one quart of vinegar stir a teacup of melted butter, one of good jelly, six well-beaten eggs, and two heaping tablespoons of flour of mustard; pepper and salt to taste. Boil this until it has the consistency of custard. If you use and jelly, use sugar also, until the biting quality of the mustard is lost. This rule holds good wherever mustard is employed. Mustard sauce is particularly nice for pic-nics and simsauce is particularly nice for pic-nics and sim-

ilar uses. It keeps well for some time in win-OTSTER SAUCE. - Drain the oysters; Pul water to stew them in; add a few blades of mace, a few shreds of lemon peel, and some butter rolled in flour. When the liquor boils taking up, add as much fresh milk as will make up the quantity of sauce required-Pepper and salt to taste. If you wish it very rich, beat the yolks of a couple of eggs, and

of flour and one of butter. Stir in it two the the fire until it has simmered a quarter of fresh butter. If it inclines to be oily, stiring a spoonful or two of cold water. This is the foundation of many sauces, both for meats and puddings.

FRUIT SAUCES, -These are simply stered fruits. Dried fruits are used when fresh are not on hand. Sugar enough to make them agreeable is always used, and they should be stewed low, so that they will not be slopp! and the juice will be thick and rich. These of no distinct flavor of their own, have spice or essences used in them-thus lemon or orange peel flavors apples very nicely.
