COISC IT BLIED. Old Judge L-s, who was for years the circuit judge in Louisiana, known as Attakapus county, was justly celebrated for his legal learning, and was greatly beloved by his neighbors and his friends. He was stern, upright and honest, and the death of the good old man, which occurred some years ago, was universally regretted throughout the

But with all his book-lore and legal attainments, he was, perhaps, not the greatest man at cards in his entire circuit. It has been said that he did not know the "Jack of Trumps", from a diamond. In the village of Opelousas, three individuals were sitting around a table; in one of those doggeries, with a billiard table attached," which are so common in the Creole parishes, playing a small game of three-handed poker, when a small quarrel ensued, which resulted in an aggravated case of assault and hattery. This did not end the affair, for at the next term of the court, at the head of the docket stood 'The State of Louisiana vs. John Allen, for an assault and

and jury as he would have been before the crew of his own little craft. After being sworn, he was directed to tell the court and jury everything he knew about the affair .-After clearing his throat, he commenced by stating "that him and Griggs, and John Allen, were over at Boullet's grocery, the second day of election, when Allen proposed a small game of poker; all agreed to it, and we went up stairs and sat down to the game; I did not know there was any harsh feelings between Griggs and Allen, or I wouldn't a played, but heard afterwards-".

Here the witness was interrupted by the Court, who directed him to keep all hearsays to himself, and confine himself strictly to the facts of the case. The witness continued:

"Well, we sat down to the table-Griggs sat there, John Allen here, and I there, (making a diagram of the clerk's table, in order to elucidate the position of the parties.) John Allen dealt the cards; I went blind; Griggs, he went blind, and John Allen he wouldn't

The Judge, who was a little deaf, was in habit of making an ear-trumpet of his hand, for the purpose of sharpening his hearing, and, throwing his head a little forwards and sideways, interrupted the witness by asking

"What was the reason that John Allen didn't see Griggs?" The witness replied: "I don't know, but he wouldn't look at

"Proceed," said the Judge. "Well I saw him, and he saw, and ju at that minute-"

"Stop, sir," said the Judge, throwing him self into a hearing attitude, "did Lunderstand you to say that you went blind?" "Yes, sir, I went blind, and Griggs he was blind, and Allen wouldn't see, but I saw Griggs, and then he saw-"

"Witness," exclaimed the Judge, striking the bench with his clenched fist, "do I hear von right, sir? Do you say that you went bland, and then you saw?"

"Yes, sir," replied the witness, "I saw Griggs, and Griggs saw, and just at that-" stop, sir," aid the Judge. "Mr. Clerk, fine the witness fifty dollars for contempt of court, and direct the sheriff to take him to jail, and there to keep him until he receives further orders from the court. Call up the next case, Mr. Clerk."

Captain Johnson was dumbfounded, and did not awake to the reality of his condition, until the sheriff laid his hands on him, when

vulsed with langhter, which increased the rage of the Judge to the highest pitch. The rage of the Judge to the highest pitch. The prosecuting attorney endeavored to enlighten the Judge, and eventually succeeded, but not until he had produced a pack of cards, and after dealing out three lands made the blind as clear as day to the Judge.

The fine and imprisonment were remitted, order was restored in the court, and Captain Johnson was allowed to proceed with his tes-

A SOLDIER'S STORY .- During the Mexican war, the veteran General Riley, since deceased, was ordered to lead the storming party at Cerro Gordo. During the war of 1812-1814, Gen. Riley had been shot in the throat, and consequently had a peculiarly strange intonation. He was ordered to storm one of the batteries of Cerro Gordo, and when his command was mustered, was thus addressed by his second in command : General, I do not think we can take this

4 I have used your SARSAPARILLA in my family, for general debility, and for purifying the blood, with very leneficial results, and feel confidence in commending it to the afflicted. St. Anthony's Fire, Rose, Salt Rheum, Scald Head, Sore Eyes.

From Harrey Sickler, Esq., the able editor of the Timkhamnock Democrat, Pennsylvania.

"Our only child, about three years of age, was attacked by pimples on his forehead. They rapidly spread until they formed a leathsome and virulent sore, which covered his face, and actually bilinded his eyes for some days. A skilful physician applied nitrate of silver and other remedies, without any apparent effect. For fifteen days we guarded his hands, leat with them he should tear open the festering and corrupt wound which covered his whole face. Having tried every thing clse we had any hope from, we began giving your Sarsararkilla, and applying the iodide of potash lotion, as you direct. The sore began to heal when we had given the first bottle, and was well when we had finished the second. The child's eyelashes, which had come out, grew again, and he is now as healthy and fair as any other. The whole neighborhood predicted that the child must die."

Syphilis and Mercurial Disease. Prom Dr. Hiram Stort, of St. Louis, Missouri.

Mr. Chas. S. Van Liew, of New Brunswick, N. J., had dreadful ulcers on his legs, caused by the abuse of mercury, or mercurial disease, which grew more and more aggravated for years, in spite of every remedy or treatment that cauld be applied, until the persevering use of AYRE'S SARSAPARHILA relieved him. Few cases can be found more inveterate and distressing than this, and it took several dozen bottles to cure him. Leucorrhees, Whites, Female Weakness.

Leucorrhosa, Whites, Female Weakness, are generally produced by internal Scrofulous Ulceration, and are very often eured by the alterative effect of this SARSAPARILLA. Some cases require, however, in aid of the SARSAPARILLA, the skilful application of local remedies.

From the well-known and widely-celebrated Dr. Jacob Morrill, of Cincinnati.

4 I have found your SARSAPARILLA an excellent alterative in diseases of females. Many cases of Irregularity, Lencorrhosa, Internal Ulceration, and local debility, arising from the scrofulous disthesis, have yielded to it, and there are few that do not, when its effect is properly aided by local treatment. A larly, tenvilling to allow the publication of hermans. name, writes:
"My daughter and myself have been cured of a very debilitating Leucorrhea, of long standing, by two bottles of your Sarsaparilla." Rheumatism, Gout, Liver Complaint, Dyspepsia, Heart Disease, Neuralgia,

when caused by Scrofula in the system, are rapidly oured by this Ext. Sansaparitha. AYER'S CATHARTIC PILLS possess so many advantages over the other purgatives in the market, and their superior irtues are so universally known, that we need not do more than to assure the public their quality is maintained equal to the best it ever has been, and that they may be depended on to do all that they have ever done.

A GREAT REMEDY FOR CONSUMPTION.
I am constartly recelving such certificates as the following. READ IT!
Dr. Wishard—Dear Sir. I had a very dreadful cough, and sore throat for one year, and my whole system was fast giving way, and I was prostrated on my bed with but little hope of recovering. My disease badled the power of all medicines, and in a short time I must have gone to my grave, but: thank God, my daughter-in-law would not rest until she went to your store, No. 10 N. Second street, and related my case to you, purchased one bottle of your Pine Tree Tar Cordial and I commenced to use it, and in one week I was much better, and after using three bottles, I am perfectly well, a won, der to all my friends, for they all pronounced me past cure. TAR CORDIAL. AN INFALLIBLE CURE FOR BRONCHITIS.

BLEEDING OF THE LUNGS. READ THE FOLLOWING: Mr. Wisher—Sir: I return you my grateful thanks for the discovery you have made in making a medicine that will cure Inflammation of the Lungs and Liver Complaint. When I commenced to use your Pine Tree Tar Cordial I.was, to all appearances, near my grave.—I had been for a length of time spitting blood, and would at times yomit it. My physicians (for I employed two) pronounced me past cure; but my sister had used your Pine Tree Tar Cordial, which did her so much good that she prevailed on me, as a last resort, to try it; and thank God, I commenced to use it. I have taken twelve bottles, and am perfectly cured, and am ready and willing that any person that is sick should call on me, and I will tell them what your cordial has done for me.—All my friends and neighbors were utierly astonished at my speedy return to health, for they had seen me vomit blood in a clotted state frequently. Publish my case, for I want every person that is suffering as I was, to know of your invaluable medicine.

Respectfully, John Vernix, Crease st., six doors above Richmond st., Philadelphia.

The above is a correct likeness of Dr. Schenck, taken many years ago, after he had recovered from Consumption, by a course of his "Schenck's Pulmono Strut." The likeness, although it does not represent him anything like as bad as he was at the worst, yet it is instrong controst with the hale and vigorous looks of the Portrait below, which is the true likeness of him at the present time. The contrast between these two portraits is so great that many would not believe them to be the same person. Yet there are hundreds of persons in and around Philadelphia who will recognize both portraits to be true representations. When the first was taken he weighed 107 pounds; at the present time portraits to be true representations. When the firs

Thirty years ago I was in the last stages of Pulmonary Consumption, and given up to die. I restided in Philadeiphia, and Dr. Joseph Parish, then of this city, ordered me to Moorestown, N. J., a distance of nime miles, which took me two days to get there. On ungarrival I was put to bed, and there islid for many weeks. This was my native pisce, where all my family lived and had died of Consumption. Dr. Thornton, who attended my father in his last illness, was called, and gave me one week to fix up my affairs. He had seen all my family go that way, and thought I was to go, too. Then heard of the remedies I now offer to the public, white lectred me. be the time is sound, and the upper lobe of the right lung is not olerably healthy condition. The great reason why physicians do not cure consumption is, they try to do too much: they give medicines to stop the cough of two much: they give medicines to stop the cough of two much: they give medicines to stop the cough of two conditions and eventually the patient sinks and dies. After I make a careful examination of the patient with, the Respirometer, and find lung-enough left to cure. I direct the patient how to use the three remedies. Remove the cause, and they will all stop of their own accord. No one can be cured of consumption, liver complaint, dyspepsia, catarrh, canker, ulcerated throat, clongation of uvula, is more prevalent than in any other section of the country. This is frequently caused by a foul stomach. You may burn it out with caustic time and again, and all they will get is temporary relief. Correct the stomach and liver, and they will heal up themselves.

Good murition is the remedy. If you have any disease in any part of the body, it will remain there, and decay more and more, unit you can get the stomach in the condition to digest food, and make new blood to take the place of diseased matter. This is the only way to heal cavities in the lungs and ulcerated bronchial tabes: Correct the stomach and liver, and nature will do the healing. Many persons have an idea that certain medicines are great purifiers of the blood. When blood is once diseased it cannot be purified; it is diseased the same as the diseased matter in the system but get the apparatus in order, the liver and stomach, and give it plenty of nourishing food. It will make new blood in the test of the paper of the stomach and liver, and nature will do the healing. Many persons have an idea that certain medicines are great purifiers of the blood. When blood is once diseased it cannot be purified; it is diseased.

Schencke Palmonic Syrup is one of the best preparatuch.

If I cannot get a good appetite, and food does not digest. I cannot cure the patiept. Never mind the cough; remove the cause and it will stop of itself. This is the most trouble I may be a compared to the cause and it will stop of itself.

the only way to cure consumption. If I cannot get a good appetite, and food does not digest. I cannot care the patiept. Never mind the cough; remove the cause and it will stop of itself. This is the most trouble I have with my patients at my rooms. They say, 'Doctor, I feel stronger; I can eat; my night sweats are better, and I feel better every way; but my cough is so bad yet; and they are astonished to hear me say that does not matter; remove the cause, and the cough will stop of itself. Schenck's Seaweed creates a good appetite in about nine days, when there is no lung disease, unless the liver is so congested that the Mandrake Pills cannot unlock the ducts of the gall bladder in that short space of time in order to allow the stale, bile to pass off. Keep the liver and stomach healthy, and there is less danger of consumption or any other disease. It is hard to take cold when those orgains are healthy. Those that, are bilious, low spirited, dreary, feeling stupid, coated tongae, poor appetite, nervous, stomach full of wind, everything that is catem lies heavy, loss of memory, try one bottle of SCHENCK'S SEAWOOD TONIC and one box of SCHENCE'S MANDRAKE PILLS. It is only a cost of one dollar and twenty-five cents, with full directions.

This is sufficient, in many cases to satisfy what the medicines are. Frequently one bottle makes a great change in the system. Any person that enjoys ordinary health, by using the Scaweed and Mandrake Pills, occasionally, must get the digestive organs in such a healthy condition that, they become fleshy. I can produce a number of my old consumptive patients now enjoying good health, weighing nearly 200 pounds. I will conclude by relating three cares I have made in New York, and which are all different, and wish any one who feels any interest in the matter to visit them. First is Mrs. Farlow, reciding then at 109 Houston street. Her hushing condition that, they become meet the lowers had to one of house the had all the best medical attendance, and all said she was too far gone wit

her skin whiter and her eyes brighter, and the tumor discharging very offensive matter, much faster than it had ever done before. She kept gradually improving, and in about two months she came to my rooms very much frightened, saying that the tumor had nearly stopped running, and was healing up, and that every doctor had told her that if it ever healed it would cause her death. I told her that the disease had all left her system, and nature would heal the ulcer up. They are now healed, and have been for about a year, and she is as hearty and robust a woman as you will find in a days walk. She is glad for any one to tall on her, and takes

as hearty and robust a woman as you will find in a days walk. She is glad for any one to call on her, and takes creat pains to visit any one that she hears has anything like her case, and tries to get them to come and see me. The next case is Miss Sconled, from Stamford. Cond. Mrs. Bartholomew got her down to see me, and she has been ever since at her house. When she first came to my rooms, she was much emaciated with a distressing cough, spitting large quantities of blood. I examined her lungs with the respirometer, and in all my practice never found one with one lung so far gone and the other lungs so sound. I could not give much encouragement. I thought she would die; but to my agonishment the Pulmonic Syrup, Seaweed Tonic, and Mandrake Pills all seemed to go right to work, the lung is all healed over, leaving a cavity as large as a goose egg; good appetite fine spirits and has galned some thirty-five pounds in weight. She has some comptyet, which I do not think it would be of great interest to some unprejudiced physician to visit these cases, particularly Miss Sconled, or any of them who have been cured by my medicines. They are numerous in New York; but the above three all differ from Jach other; and if medicines are doing what I represent they are, they should have the credit and the affleted known, where and how they may be cared.

They afford a very nutritious milk-making food for cows, and when no decayed leaves are fed, will not flavor milk, if fed after morning milking. CATTLE.—Push forward the fattening of

beeves as fast as possible. The best flesh is laid on before the coldest weather. Give the shelter of good warm sheds to young stock, and stable the saileh cows. If this be not possible, give the best protection you can. Straw shelters are now important to many Western farmers. CELLARS. - See that there is perfect drain-

age, and that water connot run in, even in the worst weather. Make them neat, healthy and light, by whitewash. Stop the rat holes with cement mortar filled with broken glass. and "point up" cracks and loose spots in the CISTERNS.-Protect against winter. It is

answer for bedding, but are not a good absorbent of liquids. MANURES. -Get out much mack to be exposed to the weather in winter, for use next year; collect every thing that may increase the supply in the hog pen, stables, barn yard,

in drying in the spring, also on foul land, and Potatous. - Be sure that potatoes in pits in the open ground have good ventilation and

cellars should be dry and cool, but not so Pourter in warm, light, clean quarters will, if the hens be well fed, secure plenty of eggs all winter. Feed freely those destined for market. Prices are usually best just before or after the holidays. Scraps from beef and pork are fattening, are much reliahed,

April lambs, but they do better if dropped

TURNIPS AND CARROTS.-Dig before the

ground is liable to freeze, and store them after sweating. WINTER GRAIN.-It is better for it to have

cloves, 2 cup each of molasses and sugar-Boil about 13 hours and serve with butter. SPONGE GRIDDLE. CAKE. - Take I quart of mush, while warm add I pint of huttermilk. Tof sweet milk or water, I teaspoonful of
