are generally produced by internal Scroftlous U-ceration, and are very often cured by the alterativo effect of this SANSAPAULLA. Some cases require, however, in aid of the SANSAPAULLA, the skilful application of local remedica. From the well-known and widely-celebrated Dr. Jacob Morrill, of Cincinnati. "I have found your SANSAPAULLA an excellent alterative in diseases of females. Many cases of Irregularity, Leucorthea, Internal Ulceration, and local debility arising from the scrofulous diathesis, have yielded to it, and there are few that do not, when its effect is properly alded by local treatment." left lung is sound, and the upper lobe of the right lung is in a tolerably healthy condition. The great reason why physicians do not cnre consumption is, they try to do too much: they give medicines to stop the cough to stop chilk to stop night sweats, hecite fever, and, by so doing; they derange the whole digestive powers. locking up the secretions, and eventually the patient sinks and dies. After I make a careful examination of the patient with the Respirometer, and find lungs enough left to cure. I direct the patient how to .use the three remedies. Remove the cause, and they will all stop of their own accord. No one can be cured of con-sumption, liver complaint; dyspepsia, catarrh, canker, ulcented throat, unless the liver and stomach are made healthy. In New England this canker, chronic catarrh, netrated throat, unless the liver and stomach are made healthy. In New England this canker, chronic catarrh, ulcerated throat, enderstop of the country. This is frequently caused by a foul stomach. You may burn it out with caustic time and again, and all they will get is temporary relief. Correct the stomach and liver, and they will heal up themselves. Good nutrition is the remedy. If yon have any di-sease in any part of the body, it will remain there, and decay more and more, until yon can get the stomach in the condition to digest food, and make new blood to take the place of diseased matter. This is the only way to heal cavities in the lungs and ulcerated bron-chial tubes. Correct the stomach and liver, and nature will do the healing. Many persons have an idea that certain medicines are great purifiers of the blood. When blood is once diseased it cannot be purified; it is di-seased the same as the diseased matter in the system ; but get the apparatius in order, the liver and stomach, and give it plenty of nourishing food, it will make new blood, which will take the place of that which is di-seased.

This is the only way to cure consumption. If I cannot get a good appetite, and food does not digest. I cannot cure the patient. Never mind the cough; remove the cause and it will stop of itself. This is the most trouble I have with my patients at my rooms. They say, "Doc tor, I feel stronger; I cau. cat; my night sweats are better; and I feel better every way; but my cough is so bad yet;" and they are astonished to hear me say that does not matter; remove the cause, and the cough will stop of itself. Schenck's Seaweed creates a good appe-tite in about nine days, when there is no lung disease, unless the liver is so congrested that the Mandrake Pilla cannot unlock the ducts of the gall bladder in that short space of time, in order to allow the stale bile to pass off. Keep the liver and stoffinch healty, and there is less danger of consumption or any other discase; It is the Sanitary Commission.
