Tell me, ve winged winds That round my pathway roar, Do you not know a spot Where women fret no more? Some lone and pleasant dell, Some "holler" in the ground, Where babies never yell, And cradles are not found? The loud wind blew the snow into my face, And snickered as it answered. Nary place.

Tell me, thou misty deep, Whose billows round me play, Knowst thou some favored spot, Some island far away. Where weary man may find A place to smoke in peace? Where crinoline is not, And hoops are out of place? The loud winds, sounding a perpetual shout,

Stop for a while and spluttered 'you get cout.' And thou, serenest moon, That with such holy face, Dost look upon the girls, Who with their beaux embrace, Tell me, in all thy round, Hast thou not seen some spot Where muslin is not found

And calico is not? Behind a cloud the moon withdrew in woe, And a voice sweet, but sad, responded 'Poh !'

Tell me, my secret soul-Oh! tell me, Hope and Faith, Is there no resting place From women, girls and death? Is there no happy spot Where bachelors are blessed, Where females trouble not,

And man may dwell in peace? Faith, Hope and truth-best boons to mortale Waved their bright wands, and said, "Yes 7 Heaven!"

A Touch of Petroleux.-Close to the lands of the Centre Oil Company there lives an old chap who is worth a mint. Ignorant, of course, dumb luck has made him rich.-His household pets consist of a terrier dog and a stupid daughter, both of whom engage his attention. The former provided for, he determined to "accomplish" his daughter.to this end he came to the city. He bought a piano and a harp, and a guitar, and a car load of music books, and so forth, winding up his business by engaging a first-class intellecual and musical tutor, with all of which he started for the "region." The documents were of course soon arranged for business.-The tutor set to work and toiled like a Trojan, but with no success. Despairing of ultimate triumph, the tutor went to the oil king and made a clean breast of it.

"Why, what the world's the matter?" asked the father. "Well," answered the tutor, "Kitty has got a piano, and guitar, and harp, and music, and books, and all that, but she wants capacity-that's all."

"Well, by the Lord Harry," cried the oil king, "if that's all, just buy it. I've got the I, and if money will get it she shall have capacity or anything else."

A VERY GREAT RASCAL. -Two young lawyers, Archy Brown and Thomas Jones, were fond of dropping into Mr. Smith's parlor, and spending an hour or two with his only daughter Mary. One evening, when Brown and Mary had discussed almost every topic, Brown suddenly, in his sweetest tones, struck out as

follows: "Do you think, Mary, you could leave faits case and comforts, and emigrate to the Far West with a young lawyer, who had but ther and mother, this pleasant home, with all little besides his profession to depend upon, and with him search out a home, which it should be your joint duty to beautify, and

make delightful and happy, like this?" Dropping her head softly on his shoulder

was the reply: "What objection has your wife?" followed up the inquisitor. "Oh, none at all." "Where then is the trouble, my friend?" "Why, my son says that he can't understand what you mean!" The minister looked sober for a moment, and then rejoined-"Well, brother, I suppose you must go; for I can't preach and find brains too." "Oh, as to that," quickly answered the offended parishioner, "nobody expected it, as you have so precious little for your own

A COUNTRY SCHOOL-TEACHER, preparing for an exhibition of his school, selected a class of pupils and wrote down the questions which he would put to them on examination day. The day arrived, and so did the hopefuls, all but one. The pupils took their places as had been arranged, and all weat on glibly until the question of the absentee came, when the teacher asked, "In whom do you believe?" "In Napoleon Bonaparte!" was the answer quickly returned. "You believe in the Holy Catholic Church, do you not?" "No," said the youngster, amid the roars of laughter, "the boy that believes in that Church hasn't come to school to-day; he's at home sick abed."

A TRAVELLING tinker lately put up at a country inn, where a number of loungers were assembled, telling stories. After sitting some time, and attentively listening to their folly, he suddenly turned, and asked how much they supposed he had been offered for his dog, which he had with him. They all started, and curiosity was on tip-toe to know.—
ed, and curiosity was on t One guessed five shillings, another ten shillings, another a pound, until they had exhausted their patience, when one of them seriously asked how much he had been offered. "Not half-a-penny," he replied.

THE Late Rev. Dr. Sutton, Vicar of Sheffield, once said to the late Mr. Peech, a veterinary surgeon: "Mr. Peech, how is it that you have not called upon me for your account?" "Oh," said Mr. Peech, "I never ask a gentleman for money." Indeed!" said the vicar; "then how do you get on, if he don't pay?" "Why," replied Mr. Peech, "after a certain time I conclude that he is not a gentleman, and then I ask him."

A PERSON meeting with an acquaintance after a long absence, told him he was surprised to see him, for he had heard that he was dead, "But," says the other, "you find the report :alse." "Tis hard to determine," he replies, "for the man that told me was one whose word I would sooner take than yours." "THAT'S a pretty bird, Grandma," said a little N. B. -Persons going to the City will find it to their

boy. "Yes," replied the old dame, "and he never cries." 'That's because he's never washed!" rejoined the youngster. Why do men who are about to fight a duel generally choose a field for the place of ac-

tion? For the purpose of allowing the ball to graze.

The Most Complete Sewing Ma-chine in Existence. The Introduction of the "FLORENCE"
Dates a new era in Sewing Machines it Homs, Fells, Binds, Gathers, Bruids Quilts, and Gathers and Sews on a Buffe at the same time.

The undersigned has been appointed Agent for Schuylkili County, of the Florence Sewing Machines. The following advantages over any and all Sewing Machines, are claimed for the "Florence". It makes four different stitches, the lock, knot, double-lock and double-knot, on one and the same machine. Each stitch being alike on both sides of the labric. fabric.

It has the reversible fred motion, which enables the operator, by simply turning a thumb screw, to have the work run either to the right or left, to stay any part of the same, or fasten the ends of the scams, without turning the fabric.

Changing the length of the stitch, and from one kind

ing the fabric.

Changing the length of the stitch, and from one kin of stitch to another, can readily be done while the m hine is in motion.

Every stitch is perfect in itself, making the seam se are and uniform.
It is aimost noiseless, and can be used where quiet is lecessary.

Its motions are all positive: there are no aprings to out of order, and its simplicity enables the most in experienced to operate it.
It will not oil the dress of the operator, as all the
machinery is on the top of the table.
It is the most rapid sewer in the world; making five

It is the most rapid sewer in the wor'u; many stitches to each revolution.

Its stitch is the wonder of all, because of its combined elasticity, strength and beauty.

It does the heaviest or finest work with equal facility, without change of tension or machinery.

Every Machine has one of Jenck's patent hemmers attached, (the right to use which we control,) enabling the operator to turn any width of hem desired.

The public is respectfully invited to examine these Machines at the store of the undersigned, Centre street, Pottaville, where full particulars will be given.

Dear Sirs:—Having realized in my family in HANOVER, Pa., Feb. 16, 1859.

Dear Sirs:—Having realized in my family important benefits from the use of your valuable preparations—Wistars's Baisan or Will Cherry—it affords me pleasure to recommend, it to the public. Some eight years ago one of my daughters seemed to be in a decline, and little hopes of her recovery were entertained. I then produced a bottle of your excellent Baisam, and before she had taken the whole of the contents of the bottle, there was a creat improvement in her health. I there was a great improvement in her health, have, in my individual case, made frequent at of your valuable medicine, and have also bee JACOB SECHLER.

They are peculiarly adapted, as they bring the monthly period with such perfect regularity.

I could furnish any quantity of testimonials of its efficacy from my own patients, but the practice of parading bought and fictitious ones before the public is so prevalent, I do not deem it advisable.

the depressing vices, and above all, by the venereal infection. Whatever be its

origin, it is hereditary in the constitution,

descending "from parents to children unto the third and fourth generation;" indeed, it

seems to be the rod of Him who says, "I will

visit the iniquities of the fathers upon their children." The diseases it originates take

various names, according to the organs it attacks. In the lungs, Scrofula produces

tubercles, and finally Consumption; in the glands, swellings which suppurate and be-

come ulcerous sores; in the stomach and bowels, derangements which produce indi-

gestion, dyspepsia, and liver complaints; on

he skin, cruptive and cutaneous affections,

These, all having the same origin, require the

same remedy, viz., purification and invigora-tion of the blood. Purify the blood, and

these dangerous distempers leave you. With feeble, foul, or corrupted blood, you cannot

have health; with that "life of the flesh"

healthy, you cannot have scrofulous disease.

Ayer's Sarsaparilla

is compounded from the most effectual anti-

dotes that medical science has discovered for

this afflicting distemper, and for the cure of

the disorders it entails. That it is far supcrior to any other remedy yet devised, is known by all who have given it a trial. That

does combine virtues truly extraordinary

their effect upon this class of complaints

is indisputably proven by the great multitude

of publicly known and remarkable cures it has made of the following diseases: King's Evil, or Glandular Swellings, Tumors,

Eruptions, Pimples, Blotches and Sores

Erysipelas, Rose or St. Anthony's Fire,

Salt Rheum, Scald Head, Coughs from

tuberculous deposits in the lungs, White

Swellings, Debility, Dropsy, Neuralgia,

Dyspepsia or Indigestion, Syphilis and

Syphilitic Infections, Mercurial Diseases,

Female Weaknesses, and, indeed, the whole

series of complaints that arise from impurity of the blood. Minute reports of individual

cases may be found in Aver's AMERICAN

ALMANAC, which is furnished to the druggists for gratuitous distribution, wherein may be

learned the directions for its use, and some of the remarkable cures which it has made

when all other remedies had failed to afford

relief. Those cases are purposely taken from all sections of the country, in order

that every reader may have access to some

one who can speak to him of its benefits from personal experience. Scrofula depresses the vital energies, and thus leaves its victims far

more subject to disease and its fatal results than are healthy constitutions. Hence it tends to shorten, and does greatly shorten,

the average duration of human life. The

vast importance of these considerations has

led us to spend years in perfecting a remedy which is adequate to its cure. This we now offer to the public under the name of AYER'S

SARSAPARILLA, although it is composed of ingredients, some of which exceed the best

of Sarsaparilla in alterative power. By its aid you may protect yourself from the suffering and danger of these disorders. Purge

out the foul corruptions that rot and fester

in the blood, purge out the causes of disease, and vigorous health will follow. By its pecu-

liar virtues this remedy stimulates the vital

functions, and thus expels the distempers

which lurk within the system or burst out

by many compounds of Sarraparilla, that promised much and did nothing; but they

will neither be deceived nor disappointed in

this. Its virtues have been proven by abundant trial, and there remains no question of

its surpassing excellence for the cure of the

afflicting diseases it is intended to reach.

Although under the same name, it is a very different medicine from any other which has

been before the people, and is far more ef-fectual than any other which has ever been

BLEEDING OF THE LUNGS.

READ THE FOLLOWING:

Mr. Wisher-Sir: I return you my grateful thanks for the discovery you have made in making a medicine that will cure Inflammation of the Lungs and Liver Complaint. When I commenced to use your Pine Tree Tar Cordial I was, to all appearances, near my grave.—I had been for a length of time splitting blood, and would at times vomit it. My physicians (for I employed two) pronounced me past cure: but my sister had used your Pine Tree Tar Cordial, which did her so much good that she prevailed on me, as a last resort, to try it; and thank God, I commenced to use it. I have taken twelve bottles, and am perfectly cured, and am ready and willing that any person that is sick should call on me, and I will tell them what your cordial has done for me.—All my friends and neighbors were utterly astonished at my speedy return to health, for they had seen me vomit blood in a clotted state frequently. Publish my case, for I want every person that is suffering as I was, to know of your invaluable medicine.

Discase, AND TOE

The above is a correct likeness of Dr. Schenck, taker many years ago, after he had recovered from Consumption, by a course of his "Schenck's Pulmonio Street," The likeness although it does not represent him any thing like as had as he was at the worst, yet it is in the sale and viscous looks of the strong contrast with the hale and vigorous looks of the Portrait below, which is the true likeness of him at the Portrait below, which is the true themselve of min a third present time. The contrast between these two portraits is so great that many would not believe them to be the same person. Yet there are hundreds of persons in and around Philadelphia who will recognize both portraits to be true representations. When the first was taken he weighed 107 pounds; at the present time his weight is 220 pounds.

TO THE PUBLIC. Thirty years ago I was in the last stages of Pulmonary Consumption, and given up to die. I resided in Philadelphia, and Dr. Joseph Parish, then of this city, ordered me to Moorestown, N. J., a distance of nine miles, which took me two days to get there. On my arrival I was put to bed, and there laid for many weeks. This was my native place, where all my family lived and had died of Consumption. Dr. Thornton, who attended my father in his last illness, was called, and gave me one week to fix up my affairs. He had seen all my family go that way, and thought I was to go, too. Then I heard of the remedies I now offer to the public, which cured me. It seemed to me that I could feel them penetraling my whole system.

The peculiar taint of infection which we call Schoff La lurks in the constitutions of interior produces or is produced by an enfectibled vitated state of the blood, wherein that fluid becomes instead that fluid becomes instead that fluid becomes instead fluid becomes instant fluid becomes instead fluid becomes instead fluid becomes instant fluid beco

and give it plenty of nourishing tood, it will make new blood, which will take the place of that which is diseased.

Schenck's Pulmonic Syrap is one of the best preparations of iron in use. It is a powerful tonic in itself, and when the Scawed Tonic dissolves the mucas in the stomach, and it is carried off by the sid of the Mandrake Pills, the Pulmonic Syrap is made into blood. This is the only way to cure consumption. If I cannot get a good appetite, and food does not digest, I cannot care the patient. Never mind the cough: remove the cause and it will stop of itself. This is the most trouble I have with my patients at my rooms. They say, "Doctor, I feel stronger; I can eat; my night sweats are better, and I feel better every way; but my cough is so bad yet:" and they are astonished to hear me say that does not matter; remove the cause, and the congrh will stop of itself. Scheuck's Seaweed creates a good appetite in about nine days, when there is no lung disease, unless the liver is so congested that the Mandrake Pills cannot unlock the ducts of the gall bladder in that short space of time, in order to allow the stale bile to pass off. Keep the liver and stomach healthy, and there is less danger of consumption or any other disease. It is hard to take cold when those organs are healthy. Those that are bilious, low spirited, dreary, feeling stupid, coated tongue, poor appetite, pervons, stomach full of wind, everything that is eaten lies heavy, loss of, memory, try one bottle of SCHENCK'S SEAWOOD TON. ic and one box of SCHENCK'S SEAWOOD TON. ic and one box of SCHENCK'S MANDRAKE PILLS. It is only a cost of one dollar and twenty-five cents, with full directions.

This is sufficient, in many cases, to satisfy what the medicines are, Frequently one bottle makes a great change in the system. Any person that enjoys ordinary health, by using the Seaweed and Mandrake Pills occasionally, must get the digestive organs in each a healthy condition that they become deshy. I can produce a

heard of the remedies I now other to the public, which cured me. It seemed to me that I could feel them pentrating my whole system.

They soon ripened the matter on my lungs, and I would spit off more than a plut of offensive yellow matter every morning. As soon as that began to subside, my cough, fever, pain, night sweats—all began to leave me, and my appetite became so great that it was with difficulty I could keep from eating too much. I soon gained my strength, and I have been growing in flesh ever since. For many years I have enjoyed uninterrupted good health, keeping the liver and stomach healthy with the Scaweed Tonic and Mandrake Pills, as I am of a billous temperament. My weight is two hundred and twenty pounds. On my recovery people would send for me, far and near, to see if their cases were like mine. For this putpose I pay professional visits in the large cities. The consumptives wish to see the one that makes these medicines and who was cured of consumption by them. To make new lungs is impossible; but cavities in the lungs, and chronic ulcerations of the bronchial tubes can be healed. Such cases are dying hourly under the ordinary treatment of physicians, and just such are cured by the proper use of Schenck's Pulmonic Syrup, Seaweed Tonic, and Mandrake Pills.

middle lobe of the right time, the lower lobe very intenhepatized and complete adhesion of the pleura. The
left lung is sound, and the upper lobe of the right lung
is in a tolerably healthy condition. The great reason
why physicians do not cure consumption is, they try to
do too much: they give medicines to stop the cough
to stop chilt, to stop night sweats, hectic fever, and, by
so doing, they derauge the whole digestive powers,
locking up the secretions, and eventually the patient
sinks and dies. After I make a careful examination of
the patient with the Respironacter, and find lungs
enough left to cure. I direct the patient how to use the
three remedies. Remove the cause, and, they will all
stop of their own accord. No one can be cured of consumption, liver complaint dyspepsia, catarth, canker,
ulcerated throat, unless the liver and stomach are made
healthy. In New England this canker, chronic catarth,
ulcerated throat, elongation of uvula, is more prevalent than in any other section of the country. This is
frequently caused by a foul stomach. You may burn
it out with caustic time and azain, and all they will get
is temporary relief. Correct the stomach and liver, and
they will heal up themselves.

Good untrition is the remedy. If you have any disease in any part of the body, it will remain there, and
decay more and more, until you can get the stomach in
the condition to digest food, and make new blood to
take the place of diseased matter. This is the only
way to heal cavities in the lungs and ulcerated brouchial tubes. Correct the stomach and liver, and nature
will do the healing. Many persons have an idea that
certain medicines are great purifiers of the blood. When
blood is once diseased it enuon be purified; it is diseased the same as the diseased matter unthe system;
but get the apparatus in order, the liver and stomach,
and give it plenty of nourishing food, it will make new
