Indide lobe of the right ling is nower lobe very more hepatized and complete adhesion of the pleura. The left ling is sound, and the upper lobe of the right ling is in a tolerably healthy condition. The great reason why physicians do not care consumption is, they try to do too much: they give medicines to stop the cough to stop chill, to stop night sweats, heetic fever, and, by so doing, they derange the whole digestive powers, locking up the secretions, and eventually the patient sinks and dies. After I make a careful examination of the patient with the Respirometer, and find lings enough left to circ. J direct the patient how to use the three reinedies. Remove the cause, and they will all stop of their win accord. No one can be cured of con-sumption, liver complaint, dyspepsia, catarth, canker, ulcerated throat, unless the liver and stomach are made healthy. In New England this canker, chronic catarth, ulcerated throat, elongation of uvula, is more preva-net than in any other section of the country. This is frequently caused by a foul stomach. You may burn it out with caustic time and arguin, and all they will get is templorary relief. Correct the stomach and liver, and decay more and more, until you can gre the stomach in the condition to digest food, and make new blood it way to heal cavities in the lungs and incerated brow, it do the bading. Many persons have an idea that eense the agne atter. This is the only way to heal cavities in the lungs and incerated brow, blood, which will take the place of the stored, and mitter in Scotland in the condition to digest food, and make new blood. When blood is once diseased matter in the system; but get the apparatus, in order, the liver and stymach, and give i plenty of nourishing food, it will make new blood, which will take the place of that which is di-seased. Schenck's Palmonic Syrup is one of the best prepara. 1
