Without fatiguing the reader with needless promises, it will be enough to declare that we still continue as wivid and various as for the almost quarter of a century last past. The largest assortment at CHARLES OAKFORD & SONS, Continental Hotel, Philadelphia. 46-3m The New York Tribune, in speaking of Mason & Hamilin's Cabinet Organs, says: These instruments have been blown by the wind of gennine success from Boston to San Francisco. That uine success from Boston to San Francisco. That Messrs. Mason & Hamlin have succeeded in making a superior small instrument, from little handbox-like things, to those which, though portable, and not larger than a piano, can make themselves felt in a church, is the universal opinion of the musical profession. They agree that no such mechanical works of the kind can be found in equal perfection in Europe. The torie is pure in equal perfection in Europe. The tone is pure and full, and with an immense body for so small a provocative mechanical force. They stand rough traveling, bad usage, and will live in cli-mates which will kill American missionaries.
