XI.-THE EAST SIDE OF MAIN STREET .- The State House and things.—The Post Office also. A few years ago, an enterprising Mormon started an opposition Post Office, and by selling threecent stamps for two cents, tried to run the regular Post Office out of town. He is now a flourishing Outcast in Pennsylvania, and owns Oil

X .- THE MORMON THEATRE. By the kind con sent of many families, Artemus Ward acted Richard III, or Old Dick the Three, at this Theatre one night, and so brilliant was his success-so grand and moving was the impersonation, that an hour before he had finished there was only one man in the audience, and he would have left if he had not got himself entangled with the benches, which prevented him making his escape. This is important if true. XI.-BRIGHAM Young's Houses .- Brigham's Wives live in these houses. -They live will at

SARSAPARILLA,

THE WOLLD'S GREAT REMEDT FOR Scrofula and Scrofulous Dises Berofula and Seronitous Discusses.

From Emery Eder, a well-known merchant of Oxford, Maine.

"I have sold large quantities of your Sarsapa-Rilla, but never yet one bottle which failed of the desired effect and full satisfaction to those who took it. As fast as our people try it, they agree there has been no medicine like it before in our community." Eruptions, Pimples, Blotches, Pustules, Ul-

Eruptions, Pimples, Blotches, Pustules, Ulcers, Sores, and all Diseases of the Skin.

From Rev. Robt. Stratton, Bristol, England.

"I only do my duty to you and the public, when I add my testimony to that you publish of the medicinal virtues of your SARSAFARILLA. My daughter, aged ten, had an afflicting humor in her carseyes, and hair for years, which we were unable to oure until we tried your SARSAFARILLA. She has been well for some months."

From Mrs. Jane E. Rice, a well-known and muchessemed lauly of Dennitrille. Cape May Co., N. J.

"My daughter has suffered for a year past with a serofulous eruption, which was very troublesome. Mothing afforded any relief until we tried your SARSAFARILLA, which soon completely cured her."

From Charles P. Goge, Eq., of the widely-known. Gage, Murray & Co., manufacturers of enamelied papers in Nashun, N. H.

"I had for several years a very troublesome humor in my face, which grew constantly worse until it disfigured my features and became an intolerable affliction. Urrical almost every thing a man could of both advice and medicine, but without any relief whatever, until I took your SARSAPARILLA. It immediately made my face worse, as you told me it might for a time; but in a few weeks the new skin began to form under the blotches, and continued until my face is as smooth as any body's, and I am without any symptoms of the disease that I know of. I enjoy perfect health, and without a doubt owe it to your SARSAPARILLA."

From Dr. Robt. Sasin, Houston St., New York.

"Dr. Aykr. I seldom fail to remove Eruptions and Scropulous Sores by the persovering use of your Sarsaparatilla, and I have just now cured anattack of Malignant Eryaipelas with it. No alterative we possess equals the Sarsaparilla, you have supplied to the profession as well as to the people."

From J. E. Jahnston, Esq., Wakeman, Ohio.

For twelve years, I had the yellow Erysipelas on my right arm, during which time I tried all the celebrated physicians I could reach, and took hundreds of dollars worth of medicines. The ulcers were so bad that the cords became visible, and the doctors decided thatmy arm must be amputated. I began taking your Sarsaparilla. Took two bottles, and some of your PILLS. Together they have cured me. I am now as well and sound as any body. Issing in a public place, my case is known to every body in this community, and excites the wonder of all."

From Hon: Henry Monro, M. P. P., of Newcastle, From Hon: Henry Monro, M. P. P., of Newcastle, C. W., a leading member of the Canadian Parliament:

"I have used your Sarsaparilla in my family, for general delility, and for purifying the blood, with very beneficial results, and feel confidence in commending it to the afflicted." commending it to the afflicted."

St. Anthony's Fire, Rose, Salt Rheum, Scald Head, Sore Eyes.

From Harrey Sickler, Eq., the able editor of the Tunkhannock Democrat, Peinsylcania.

Our only child, about three years of age, was attacked by pimples on his forchead. They rapidly spread until they formed a loathsome and virulent sore, which covered his face, and actually blinded his eyes for some days. A skilful physician applied initrate of silver and other remedies, without any apparent effect. For fifteen days we guarded his haids, lest with them he should tear open the festering and corrupt wound which covered his whole face. Having tried every thing clse we had any hope from we began giving your Sansarahill. A, and applying the loddie of poinsh hotion, as you direct. The sore began to heal when we had given the first bottle, and was well when we had finished the second. The child's eyelashes, which had come out, grew again, and he is now as healthy and fair as any other. The whole neighborhood predicted that the child-must-die."

application of local remedies.

From the well-innun and widely-selebrated Dr.
Jacob Morrill, of Cincinnati.

"I have found your Sansagamilla an excellent alterative in diseases of females. Many cases of Irregularity, Leucorrhon, Internal Ulceration, and local debility, arising from the scrofulous diathesis, have yielded to it, and there are few that do not, when its effect is properly aided by local treatment." A ludy, unwilling to allow the publication of her name, writes:

"My daughter and myself have been cured of a very debilitating Leucorthea of long standing, by two bottles of your Sansaparilla." Rheumatism, Gout, Liver Complaint, Dyspepsia, Heart Disease, Neuralgia,

The above is a correct likeness of Dr. Schenck, taken many years ago, after he had recovered from Consumption, by a course of his "Schenck's Pulmonio Syare." The Exeness, although it does not represent him anything sike as had as he was at the worst, yet, it is in atrong contrast with the hale and vigorous looks of the Portrest below, which is the true likeness of him at the present time. The contrast between these two portraits is so great that many would not believe them to be the same person. Yet there are hundreds of persons in and around Philadelphia who will recognize both portraits to be true representations. When the first

TO THE PUBLIC. There public.

There public.

Thirty years ago I was in the last stages of Pulmonary Consumption, and given up to die. I resided in Philadelphia, and Dr. Joseph Parish, then of this city, ordered me to Moorestown, N. J., a distance of nine miles, which took me two days to get there. On my arrival I was put to bed, and there laid for many weeks. This was my native place, where all my family lived and had died of Consumption. Dr. Thornton, who attended my father in his last illness, was called, and gave me one week to fix up my affairs. He had seen all my family go that way, and thought I was to go, too. Then I heard of the remedies I now offer to the public, which cared me. It seemed to me that I could feel them penetrating my whole system.

stealthy with the Scaweed Tonic and Mandrake Pills, as I am of a bilious temperament. My weight is two hundred and twenty pounds. On my recovery people would send for me, far and near, to see if their cases were like mine. For this purpose I pay professional visits in the large cities. The consumptives wish to see the one that makes these medicines, and who was cured of consumption by them. To make new lungs is impossible; but cavities in the langes, and chronic utcerations of the brouchial tubes can be healed. Such cases are dying hourly under the ordinary treatment of physicians, and just such are cured by the proper use of Schenck's Pulmonic Syrap, Seaweed Tonic, and Mandrake Pills drake Pills

The left lung is sound, and the upper lobe of the right lung is in a tolerably healthy condition. The great reason why physicians do not care consumption is, they try to do too much; they give medicines to stop the cough to stop chill, to stop night sweats, hectic fever, and, by so doing, they derange the whole digestive powers, locking up the secretions, and eventually the patient sinks and dies. After I make a careful examination of the patient with the Respirometer, and find ldings enough left to care. I direct the patient how to use the three remedies. Bemove the cause, and they will all stop of their own accord. No one can be cured of constimption, fiver complaint, dyspepsin, catarrh, canker, ulcerated throat, clongation of uvula, is more prevalent than in any other section of the country. This is frequently caused by a foul stomach. You may burn it out with caustic time and again, and all they will get is temporary relief. Correct the stomach and liver, and they will heal up themselves.

Good nutrition is the remedy. If you have any disease in any part of the body, it will remain there, and decay more and more, until you can get the stomach in the condition to digest food, and make new blood to take the place. Of diseased matter. This is the only way to heal cavities in the lungs and ulcerated bronchial times. Correct the stomach and liver, and nature will do the healing. Many persone have an idea that certain medicines are great purifiers of the blood. When blood is once discised it cannot be purified; it is diseased the same as the diseased matter in the system; but get the apparatus in order, the liver and stomach, and give it pleaty of nourishing food, it will make new blood, which will take the place of that, which is diseased.

Schenck's Palmonic Syrup is one of the best preparations of iron in use, it is a powerful tonic in itself, and when the Scaweed Tonic dissolves the mucus in the stomach, and it is carried off by the sid of the Mandrake Pills, the Pulmonic Syrup is made into blood. This is the only way to cure consumption. If I cannot get a good appetite, and food does not digest. I cannot cure the patient. Never mind the cough; remove the cause and it will stop of itself. This is the most trouble I have with my patients at my roome. They say, "Doctor, I fee stronger; I can eat; my night sweats are better, and I feel better every way; but my cough is so hadiyet;" and they are astonished to hear me, say that does not matter; remove the cruise, and the cough will stop of itself. Schenck's Seaweed creates a good appetite in about nine days, when here is no lung disease, noless the liver is so congested that the Mandrake Pills cannot unlock the ducts of the gall bladder in that short space of time, in order to allow the stale bile to pass off. Keep the liver and stomach healthy, and there it less danger of consumption or any other disease. It is hard to take old when those organs are healthy. Those that are bilious, low spirited, dreary feeling stupid, coated toughte, poor appetite, nervous, stomach fall of wind, everything that is enten lies heavy, loss of memory, try one bottle of SCHENCK'S MANDRAKE PILLS.

It is only a cost of one dollar and twenty-five cents, with full directions.

This is sufficient, in many cases, to satisfy what the This is sufficient, in many cases, to satisfy what the medicines are. Frequently one bottle makes a great change in the system. Any person that enjoys ordinary health, by using the Seaweed and Mandrake Pills occasionally, must get the digretive organs in such a healthy condition that they become feely, I can produce a number of my old consumptive patients now enjoying good health, weighing nearly 200 pendos. I will conclude by relating three cures I have made in New York, and which are all different, and wish any one who feels are inviced in the matter to visit them. First is Mrs. any interest in the matter to visit them. First is Mrs. Farlow, residing then at 109 Houston street. Farlow, residing then at 100 Houston street. Her husband called-upon me at my rooms, 32 Bond street, and wished me to call and see her. He said I could, do no good; that he had all the best medical attendance, and all said she was too far gone with Consumption to be cured; but she had heard of some great cures I had made, and he desired to gratify her wishes. I called, and found her lying confined to her bed in the last stage of bronchial consumption, and without doubt must have died soon. I examined her lungs, found both bronchial tubes very much affected, but no cavities had formed; her cough was very severe; the spit-box was half full of thick puss. Pulse 140, legs swollen very much; and worse than all chronic diarrhea. Her bowels had been moved eleven times that day. I told her that she had lungs enough to be cured, but that this diarrhea had been of long standing, and her stomach was in such an ulcerated condition that I was afraid nothing could. Be done. She insisted I should try and do what I could for her, observing that she could not last long in the condition she was in, and I could not make her any worse. I gave her first a dose of my Mandrake Pills, and the Tonic and Syrup freely. That was on Tuesday, and by the next Sunday the discrebe was carried off, her appetite had returned, and she could sit up in bed and eat her dinner. She is now well, and gave me a long certificate, certified to by the Rev. Dr. Dowling.

Mrs Bartholomew, Si West Forty-fifth street, came to my rooms with a tumor on her liver. She was low spirited, shin sallow, tongue coated, bowels costive, no appetite, and fast sinking into the grave. The said tramor had been running over fourteen years. I gave her Syrup Tonic and Pills, and told her to take them just as the directions were prieted. She came back to my rooms, 32 Bond street in two weeks, somewhat better; her tongue had began to clean a little around the edges, her skin whiter and her eyes brighter, and the tumor discharging very oftensive matter, much faster than it had eve

HOW TO REPAIR A ROLD. The first requisite is to liave a dry bed for the road. Without this, the superstructure of whatever material it may be composed will soon become rough and uneven. Some soils are naturally drained and the gravelly subsoil thrown upon the surface and round. ed a little, makes as good a path as need be Others need draining, and no amount of gravel upon the surface will make a good bed without it. We frequently find bad places upon a hill-side where the water is always bursting out in rainy seasons. A three inch tile drain four feet deep just abore these wet places would make them dry up permanently, and save a large expenditure every year. If tiles are not available, stones or wood should be used. There is no help for these mud holes but in draining the bed A single dollar spent at the bottom is worth ten at the top in gravel. Roads are so constantly in use and the prosperity of the farm. er so much depends upon them, that to pains should be spared to have them of east grade and as smooth as possible. All classes in the community are benefited by good roads, but the farmer most. All his surplus crops must go over the road to market, and it makes a great difference with him in the course of the year, whether he be able to take a ton and a half at alload, or only half that quantity. Good roads add to the value of every acre he owns and of everything that he produces, to say nothing of their infuence upon his manhood. They are a mark of the progress of civilization, and a prem good index of the moral culture of a people A team stuck in the mud, the snapping of whiffletrees and braces, the cursing and but temper of the driver show that "there a something rotten in Denmark." The mud holes in the highway undo the work of the school house and the church. There is an intimate connexion between the highways and the moral ways of a people. In mend-

No question is more frequently asked of the Editors of the American Agriculturist than the above, and none more difficult to answer There are certain varieties which can be recared me. It seemed to me that I could feel them penetrating my whole system.

They soon ripened the matter on my lungs, and I would spit off more than a pint of offensive rellow matter every morning. As soon as that began to subside, my cough, fever, pain, night sweats—all began to leave me, and my appetite became so great that it was with difficulty I could keep from eating too much. I soon gained my strength, and I have been growing in fiesh ever since. For many years I have enjoyed uninteresting good health, keeping the liver and stomach healthy with the Seawed Tonic and Mandrake Pilis, as I am of a billious temperament. My weight is two hunting the property of the property of the strength of the property commended for a wide range, and others men - of other. If one withes to set out any considerable plantation; of fruit trees, he can a week of time and the necessary money, and visit the fruit growers of the neighborhood. It is one of the beauties of horticulture that its true disciples have large and liberal views and are always glad to communicate their experience to others. A few days spent among the nearest fruit growers in observing their trees, and discussing their me its, will be of more service to one designing to plant an orchard than all the advice that distant horticulturists can give. One of the most distinguished fruit-growers in the country, and one who has probably tested more varieties of fruits than any other, recently said to us that he had been all his life in gathering information and needed another life to make this knowledge useful to him. It is not possible for one who wishes to grow fruit for profit to make such experiments as these, but it is in his power to avail himself of the results of others! experience

like her case, and tries to get them to come and see me. The next case is Miss Scofield, from Stamford, Conn. Mrs. Bartholome got her down to see me, and she has been ever since at her house. When she first came to my rooms, she was much emaclated with a distressing cough, spitting large quantities of blood. I examined her lungs with the respirometer, and in all my practice never found one with one lung so far gone and the other lungs so find to give much encouragement. I thought she would die; but to my astonishment the Pulmonic Syrup, Seaweed Tonic, and Mandrake Pills all seemed to go right to work, the lung is all healed over, leaving a carity as large as a goose egg; good appetite, the spirits and has gained some thirty-five pounds in weight. She has some cough yet, which I do not think it would be of great interest to some unprejudiced physician to visit these cases, particularly Miss Scofield, or any of, them who have been cured by my medicines. They are numerous in New York; but the above three all differ from each other; and if medicines are doing what I represent they are, they should have the credit and the affected known where and how they may be cured.
