ANOTHER AMENDMENT TO THE CONSTITUTION PROPOSED. -The Constitution of the United States is like a piece of machinery. It was all deliberately framed for a particular end, and when one part of it is altered, it is found necessary to adapt other parts to it, so that all shall work as purposed, in harmony. The emancipation of the slaves in the South, it is discovered, adds largely to its basis of apportionment, and consequently will increase its number of Representatives in Congress-

By the Constitution, as it exists, three-fifths of the slaves only are a basis of representation in Congress. But the freeing of those slaves, makes a large free black population having no vote, but counting man for man with the whites, and consequently in the Congressional apportionment adding two-fifths to the representation Professor LIEBER therefore proposes another amendment to the Constitution, which is to apportion the representatives in Congress according to the respective

Mr. LIEBER's smendment would deprive the slave States of three-fifths of their present political power, under the Constitution, or compel them admit the negro to suffrage, in order to maintain it.

> A CONVENTION of newspaper publishers was recently held in Harrisburg, to take into consideration the condition of the business. The meeting was very proper, but we object to the adoption of resolutions instructing Pennsylvania Representatives in Congress to our reasons for opposing the repeal. We

The impression is now beginning to gain ground that we stand upon the threshold of the final campeign of the war, for, whether we succeed in driving Lee out of Richmond or in keeping him cooped army in our front may be brare and skillfully marshaled, but bravery and skill are of little avail when the rations have run out. THE Senate does not seem inclined to ocognize the " Common Council of Alexandria," which calls itself the State of Virginia and sends Mr. Segar to Congress. By a vote of 29 to 13 his credentials were laid, on the table, and the question; if it recurs again, must be settled by the next Congress, and probably on different grounds.
