UNION STATE CONVENTION. A State Convention will be held at Harrisburg on WEDNESDAY, the 19th July. 1865,

WEDNESDAY, the 19th July, 1883, at 12 octock M. for the purpose of putting in nomina-tion a State Ticket, to be supported by the friends of the Union at the roming October election. The enriest and zealous habors of a loyal people se-cured the great rictory in 1864, and made the war, which our enemies denounced as a failure, a glorious success in 1865. Our day has been maintaised —our enemies destroyed —our Government preserved, and peace re-established. Let every friend who sided in this result, take meas-ure to be represented in that Convention. We must set to it that the fruits of our success are not lost to the nation.

he nation. Business of vast importance will be presented for its posideration, and every district in the State should be

sented. SIMON CAMERON, Chairman. A. W. BENEDIOT, Secretaries.

THERE will be a grand review in Philadelphia to-day of all the troops who have renlezvoused there to be mustered out of the krvice.

THE war leaves about 60,000 sick and wounded in the different hospitals of the

Oun Foreida Hein riors Honi England and France exhibit considerable unessiness oncerning the disposition toward them of in. American Government and the American people. The language of the two Govern mente is anything but defiart. Both are now paying us more compliments during one month than they have done during the whole four years of the war. Both represent theh

relations on the Government of the United States as most amicable, but endeavor in vain to calm the apprehensions of the public. Lord Palmerston, being asked in the House of Commons whether a new demand of indemnity for the depredations committed by the Alabama had been received from Washngton, gave an evasive answer. He only

said that new correspondence had taken place between the two Governments, from which reply every one, of course, inferred that the demand of indemnity had been tenewed.

In France Louis Napoleon has deemed it necessary to rebuke his radical cousin fo the speech made at Ajaccio, and especially for that portion of it which refers to American affairs. It is not secret in France that dissatisfaction with the continued occupation of Mexico by French troops is on the increase. The Frenchmen know that every Independent paper of Europe, as well as their own common sense tell them, that in case of a war between France and the United States, of eloquent and heart stirring speeches. France could not even make an attempt to hold Mexico. Whatever may be the motive ville :

of the speech of Prince Napoleon, there cane no doubt that it, will powerfully aid the opposition to the Mexican expedition.

THE UNION STATE CONVENTION .- The call or this Convention is published in another column. As our readers are aware, it will ominate Union candidates for Auditor Genral and Surveyor General. While the work of reconstruction is going on, it is very imortant to strengthen the hands of the Naonal Administration. Pennsylvania should be prepared and resolve to give in October an overwhelming majority for the Union canlidates. By doing this we give President

Johnson no questionable support Friend Rauch of the Reading Daily Evening Record, in an article on this subject

SBYS: It is very true that many Democrats uow profess to favor the Administration of President Johnson, and thousands of them are doubtless sincere. But, judging from the manifesto of Vallandigham, which even our neighbor of the GAZATT endorses, the leaders only atm to "Tylerize" the new President, that is, by flattery, dictation, and all sorts of financiering, to induce him to chance his policy, and to reinstate the leading rehels of the South to power, and to unite with Northern Demo-crats again to rule the country. The profession of con-fidence in the new President by the leaders of the Dem-ocrats are too full of "lis" and "buts" to be relied on, and, therefore: to be on the safe side, let an uncondi-tiona', and good and strong. Union ticket be nomina-ted, and if these newly converted Johnson Democrats are sincere, they will vote for it and elect it by a sweep-ing rote, and then, but not till then, will they, have a right to call themselves true friends of the Adminis-tration.

ation. Fortunately, there are plenty of good, true and tried on to select from as candidates. We have heard rorunning, there are plear to good the and the men to select from as candidates. We have heard named for Auditor General, Hon. John A. Hiesund, editor of the Lancaster EXAMINER, and Gen. Nagle, of Schuylkill County, for Surveyor General. Others will doubtless be named, but we would be very willing to go no further, but just noninate both, for we do not believe that two more worthy, deserving or competent men could be found anywhere for sold offices.

THE ROMAN CATHOLICS ON NEGRO SUF PRAGE.-Public opinion among the Roman Catholics seems to be opposed to the enfranchisement of the colored people. The Universe of Philadelphia, a Catholic paper that has supported the war against the rebels, has in

its last number a significant article, from which we extract the following: which we extract the following: The Irish citizens will be called upon to exercise their great influence on this matter (nerro suffrage)— They will exercise it particulary. Treason and Abo-litious were the consess of the late war. When they both were full, the war burst forth. But Abolitionism would have been full much somer than it was, only for the burrier the iffsh yor e placed before it. A simi-lar thing will take place now. Against negro suffrage will stand the Irish suffrage, guided by the Constitu-tion- and the opposition will sure, perhaps, forever, the country from another civil war, on account of negro citizenship, a thing which is at once a violence upon nature, and an insult and an injury to the Republic. It is doubled when the in the more sargeious she cared nothing for the rules of the company so long as they were in violation of the laws, and that she would have him prosecuted if a hand-was lai upon Smith. The conductor, then said that he would put, the car off the track. The that he would put the car off the track. The lady was equal to the emergency, and replied with increased energy, that that also was viola-tion of law, and she would prosecute him for a nuisance in obstructing the public highway. This ended the controversy with the good Christian lady's triumph, much to the amusement of the other passengers in the cars, not one of whom objected to the company of Steplien Smith. It is doubted whether the more sagacious ticles like this. It cannot possibly be ex-TERRIBLE OCCURRENCE .- The dwelling of pected to make many converts. The readers Joseph Mayberry, Frankford Township of papers like The Universe would have solidly Franklin County, Pa., was destroyed by fire voted against the measure without a specia: on the night of the 1st inst., and seven of his appeal. To the majority of Americans, the children perished in the flames. tographs and rare manuscripts are now being collected for the College library. Porrevulat June 5, 1865. Borross Minzas' Journal. .-. There is an article in the Democratic Standard, of June 3d, noting the differ-ence between the oath of annesty by President Johnson and that of his predgressor, (copied from the Cambeh Democraty. It says ", "thus disloyal persons in renew-ing their allegiance to the Government, are now re-quired to swear to support, protect and defend the con-situation only. This is to be made the test of loyally, and not the support of Proclamations already issued, or to be hereafter promulgated. The difference is an important one; and possesses much significance." PROCLAMATION OF PRESIMENT IONNON POTTSVILLE, June 5, 186 Subscriptions to the endowment fund have been made by a few persons with a libreal hand. Eighteen individuals are reported as having giving sums varying from five hundred to two thousand dollars each. Mr. A. Pardee, of Hazelton, and Mr. Wm. Adamson, of Philadelphia, have each given \$20,-PROCLAMATION OF PRESIDENT JOHNSON 000. At the last commencement the alumni pledged the nselves to raise \$20,000 to endow a Professorship. ' If successful this will place the College on a firm financial basis. The following resolutions, after "a number

LINCOLN'S PROCLAMATION.

ILNCOLN'S PROCLAMATION. I _______ do solemnly swear, in the presence of Almighty God, that I will henceforth faithfully sup-port, protect and defend the Constitution of the United States, and the union of the States thereunder; and that I will, in like manner, abide by support all Acts of Congress passed during; the existing rebellion, with reference to slaves, so long and so far as not repealed. Imodified, or held wold by Congress, or by decision of the Supreme Court, and that I will, in like manner, abide by and faithfully support all Proclamations of the President, made during the existing rebellion, having reference to slaves, so long and so far is not modified or declared vold by decisions of the Supreme Court. So help me God. How terribly deprayed must be the man who can were unanimously adopted by the Presbytery of Luzerne, at its late meeting in Potts RESOLVED, 1. this Institution as a truly Christian College, affording faithful and through instruction in all the solid branches (of liberal education. Beware, or Counterstits, And University of the Draling of Counterstity endeavoring to dispose of their own and other preperations, on the reputation attained by Heram weind's Genuinz Pheraerations, [April 8, 75, 14-6m] IT is an exceedingly satisfictory fact to us of the interior who feel some pride in the GEN. GRANT TO THE ARMY. metropolis of the State, that Philadelphia is A Congratulatory Order—What the Army has Accomplished—A Nation's Grati-tude. positively making one step in the right direction. The Union Passenger Railway Comude. WASHINGTON, JURE 4, 1865. Gen. Grant has issued the following congratulato: pany has placed on its road cars for the accommodation of colored persons who may desire to ride. But it is only a step. She has yet to walk on this question. The Company should divide the cars equally between whites and blacks, so that those who object to ride with the colored persons can have a car to themselves every eight or ten minutes, and those who do not, can ride every four or five minutes. Such a course would soon do away with the absurd antagonism to colored persons in the horse cars, which, from some unexplained reason, do s not exist in steam cars.
In connection with this subject, we find the following incident—exceedingly credita ble to the lady concerned—in the Germanpany has placed on its road cars for the ac-

est honors a great and free nation can accord. you will soon be permitted to return to your homes and fami-lies, conscious of having discharged the heghert duty of American clitzens. To achieve these glorious triumphes and to secure to yourselves, your fellow countrymen-and posterity the blessings of free institutions, tens of thousands of your gailant commisses have failen and sealed the priceless legacy with their lives. The grave of these a grateful nation bedrew with tears, honors their memories, and will ever cherish and support their stricken families. U. S. GEANT. Lieut.-Gen. ble to the lady concerned-in the German-

Some days ago a lady of Germantown who was Some days ago a lady of Germantown who was about stepping into an Eighth street car down fown to ride up to Eighth and Green, saw Ste-phen Smith, a very respectable and wealthy colored person, ou the sidewals, who was on his way a foot to the same destination. She invited him to get in also, but he declined on the ground that the conductor would not allow hum. She insisted, and he got in. No sconer, however, was he inside than the conductor or-dered him out. The lady told the conductor "peremptorily that he should not get out. The conductor said the rules of the company compell-ed him to turn him out. The lady replied that she cared nothing for the rules of the company For non-retention or incontinence of nrine, irritation flammation or urliceration of the bladder, or kidney

ing of 6 feet diamater, in the emisted from the mines. The Fan was placed at the top of the colliery shaft or pit mouth, was worked by a small engine; taking its steam from the boilers of the engine; taking its steam from the boilers of the winding engines. The pit was nearly 300 yards in depth, and the air was taken off in several splits or courses—the longest of which from file down-cast to the 'uprast' of which from file down-cast to the 'uprast' shaft, was about two miles. The fair was usually run at a speed of 60 revolu-tions, per minute drawing 45,000 cubit feet of air per minute through the mine, at a velocity of about 9 miles per hour. A similar Ventilating Fan wite also erected by Mr. Nasmyth, at Skiar Spring coffiery, near Eb-secar, being 15 feet in diameter, and 41 feet wide in the vanes; worked at 80 revolutions per min-ule, giving a thoroughly efficient ventilation of the workuga, completely under control at the surface.of the ground. From the description of these Fans, as publish-ed in 1638, Ater. W. Res., engineer of the Locust Monntain Coal and Iron Company, had a similar Exhausting Fan made by Messra. I. P. Garner & Bros., at Aahland, in October, 1859; and ap-plied it to the ventilating of the Stnartville colli-ery, then being opened by that company. This To Farmers-Work Made Basy.--A fine Dit of Horse Hay Foris for unicading hay, with Auleys complete. Two different patterns with hacst mprovement at STICHTER & THOMPSON'S,

phed it to the ventilating of the Stnartville colli-ery, then being opened by that company. This Fan was 8 feet in diameter, placed upon the sur-face bear the mouth of the slope, and worked by the breaker engine. It was in use from October, 1850 to March 19 and 19 a CUT AND DBY SHOKING TOBAC

1859, to March or April, 1860; when the colliery was leased. It was found that the sudden stopping of the

was tessed. It was found that the sudden stopping of the engine injured the belting, the far wanning at about four times the number of revolutions of the engine. The lease are furning to use the old mode of a furnace, rather than put in a separate engine for the fan, the use of the latter was discontinued. In June 1862, shother Fan was made by Messra. Gamer & Bros., for the Locustdale colliery ; and since that time several others have been made by the same firm for different collieries in the Mah-anoy basin. All these are driven by separate en-gines, and give a ventilation vastly superior to the old mode of the furnace, and not attended with the danger of firing the mines, which is al-most inseparable from the furnace, when placed in the large veins of the region. But all the Fans thus far put up in our coal re-gion,—except the first—bave been modelled after the old must of the is compressed and retarded in its escape. They are also of so small size as to require them to be driven at velocities of form 150 to 300 revolutions per minute, causing exces-sive wear of journals and jiability to accident. The Fans originally erected by Mr. Nasmyth are so far superfor to any that have been put up in this country, in all the details of construction. They were of large size, were driven at moderate yelocities, thuy enarms.

color. Fano, Scotch, English, Dutch and Germy

In this country, in all the details of construction. They were of large size, were driven at moderate velocities, thus ensuring them against accidents; and were entirely open around their circumfer-ence, allowing the free escape of the air exhaust-ed from the mines:

ed from the mines.

its production, also (forbidden ground for me at pre-sent.) A stranger on his first visit to the oil regions, on see-ing the large number of Derricks strewn "thick through all the ground," are apt to be impressed with two ideas —first, (a Derrick invariably indicates a well that is, to be, or has been.) that if each well produced oil in gran-titles to pay, then the production would exceed the con-sumption, and consequently, depress the business, or second, that if they do not produce oil will equally cause a depression, as a lack of oil in my setimation, is worse than an excess. But every well has its separate history. Some yield as it were, spontaneously, while others by all the persuasive manipulations of art and persevering industry, often fall to induce a single drop, while I have no doubt, in two-thirds of those that are barren, the greasy gas, or the gassy grease, is seething and surging in the fissures near, cager to escape its long enhandment, by the touch of the magitian's divi-ning rod slightly varied, from the aloresaid manipula-tions, to illuminate the halls of fashion, or inbricate the yast machinery which man so ingeniously sets in Some of the wells exhibit in a remarkable der The Principal payable in Lawful Money a what may be called a freak of nature, but ho doubt, caused by the first law of cause and effect, which will, be more easily explained as scientific refearch progress-es. One well on Bennyhoff Run gives 3 barrels per day, and they can pump that in half an hour, while pumping 24 hours fails to extract any more. The sup-position is that the gas, after conveying that quantity to the bottom of the well, takes another direction, pre-venting the oil passing it on its presence. what may be called a freak of r the end of Three Years, or the Holder has position is that the gas, after conveying that quantity to the bottom of the well, takes another direction, pre-venting the oil passing it on its passage. Another well on the same run, about a mile further up, was bored as the parties thought, to a sufficient depth to get oil, but not getting any, they got disconraged and sold their land in consequence far below fits value. The new owners bored a little desper with, the same result, but not discouraged, prepared to pump it, when after ex-tracting the water, thew labors were rewarded by a small flow of oil by the suction of the pump. It then commenced flowing at the rate of 75 barrels per day, which was not even impeded by the sucker remaining in the well, as the rolds by the sucker remaining in the well, as the rolds broke in the endeavor to get them out. Still further up a large flow of oil has been struck, variously estimated, but as I will visit it in a few days I will give you the exact amount in my next. The peculiarity of many wells would be very interest-ing, but I refrain from relating them for the present, having started to dispel the bile with which cruakers are afflected, by showing the wealth of four miles of 01 Creek and Bennyhoff Run, after which I can digress and show territory where lundreds of barrels produced are a daily occurrence: so it only fequires discrimina-tion where to invest rather than to denounce all oil speculations as a humbar. Verily, oil is one of the wonders of the world, and you may class it where yon please, but it certainly, is inferior to none of the recent inventions. THE 5-20 BONDS AT PAR, INSTEAD OF CASH * This privilege is valuable, as the 5-20 Bond tre now selling at eight per cent. premium. The above Loan, and all other U. S. Se L. F. WHITNEY. CENTRE STREET, POTTSVILLE. 6 6m SOLIDIFIED DENTAL CREAM, For Oleansing, Whitening and Preserving THE TEETH! This article is prepared with the greatest care upon scientific principles, and warranied not to contain anything in the slightest degree deleteriens to the treath or gumm. Some of our most eminent Denta Surgeons have given their sanction to, and cheerfully recommend 11 as a preparation of superior qualities for cleansing, whitening and preserving the teeth. It cleans them readily, eradering them beautifully, white and pearly, without the slightest injury to the ensimet. It is healing to the gums where they are ulcerated and genery, without the slightest injury to the ensimet. This acting to the gums where they are ulcerated and pearly, without the slightest injury to the ensimet. Prepared only, by A. HAWYLEY & COS.', N. W. Cor. 10th and Leambard size, PHILADA, and sold by all Druggists. Pres 25 cents. TESTIMONIALS. The following opinion of Dr. White, as to the high esteem in which is holds the Dental Gream, must be sufficient evidention for the teeth: Maing carefully examined A. Hawleys "Solified Dental Gream, "I hereby cheerfully recommend it to the unite creaming in the station for the greatest of re-teeth. Ming carefully examined A. Hawleys "Solified Dental Gream, "I hereby cheerfully recommend it to the public generally. It is an excellent preparation for cleansing and preserving the teeth, and can be used by all persons with the utmost confidence, as its properties are perfectly harmless. Besides preserving the teeth, it promotes a healthy action to the gums, and imparts a pleasantness to the breath. E. Vandersilee. Surgeon Dentist, 425 Arch St. C. A. Kingsbury, 1119 Wainnt St. S. Dophley, Woold S. S. A. WOOD D'S DENTAL CREAM. ANTI-C. TORPEDOES RESEMPLING COAL.—A Mr. Bipley, of Rutland, Vermout, has in his possession an in-geniously contrived torpedo made to exactly ro-semble a large lump of coal. This was the artful contrivance employed with much success by the rebels on the Mississippi, and it is suspected that the awful disaster to the Sudkana was accom-plished by one of these diabolical things. The one in possession of Mr. Ripley was sent to him from Richmond by his son, Gen. Ripley, and was found in the private cabinet of Jeff. Davis after his flight from the city. his flight from the city. INTERNAL REVENUE FRAUDS,-In the case f a Boston distiller, who removed liquor from his distillery without paying excise duty, Bovernment has found the, amount of fraud to be \$17,000, and has imposed an additional penalty of \$33.000, making \$50,000 in all. In a Dubuque case, the amount of fraud has een fixed at half a million of dollars, and penalty of another half a million of dollars. has been imposed. In a Peoria case, the frauds will be some hundreds of thousands, and an equal penalty affixed. as Gustavus Webbor, a patrolman of the Elev-enth Precinct, New York, went home on Saturday evening, and finding Albert Ainsley falking with his wife, shot him through the breast, killing him instantly. Webber fied, but finding hims if hot-ly pursued, went into a vacant lot on Avenue B and shot himself through the head. He is not expected to live. expected to live. AT The oil wells in Burmah, India, it is estima-ted have been yielding their present supply of 800, 000 barrels per annum at least 100, years amount-And Hydraulic Sand Primp. PRACTICAL TESTS having fully demonstrated the superiority of this machine over all others for the pur-pose of sinking Oll Wells, the undersigned is now pre-pared to receive order for the same. This machinery compress everything requisite for the boring of oll wells, excepting the STEAM ENGINE Y AND CAST IRON DRIVING PIPS. Tout will be fur-nished, if desired, ats a reasonable price) and dispenses with the use of the Derrick rope. Bull Wheel, and other cumbrous and expensive fixings now in use, and is so arranged, being constructed on wheels and portable. that it can be easily removed for the purpose of sinking wells in different hochildes. THE DETRITUS is removed from the well by our Patent Hydraulic process, and does not require the re-moval of the drill from the boring. This, process, not only removes all the deritus in from 5 to 10 minutes, but likewise effectually 'dears' out and opens all the small oil veins that are so often entirely closed up by the old process of sand pumping. WITH THIS MACHINE and a practical engineer, a well can be sank from 400 to 600 feet within a period of from 16 to 30 days after the soil pipe has been driven. Arrangements are being made for the construction and delivery of these machines at New York, Norwick, Newburg, N.Y.; and Pittsburg, Fenna. For further information, price, terma, &c., address SIMEON LELAND, Metropolitan Hotel, New York. May 20, 45 And Hydraulic Sand Pump. ing during that period to about 80,000,000 barrels, English measure. These, if arranged, will form a continuous line of oil barrols 27,300 miles long. Oil wells also exist in Porsia, and it is said, have lately been discovered near the Sea of Azof, while on the Island of Samos they existed 500 years before the Christian era.

April 8, '65. THE COAL TRADE.

Pottsville, June 10, 1865.

The quantity sent by Railroad this week is 17 658 02-by Canal 8.111 13 ; for the week 25,769 15 tons, against 87.515 00 for the corresponding week last year. Loss for the week, 41,745 tons The trade remains without any change since last week. There is a little demand for Coal, but not sufficient to absorb the stocks on hand, and There are but twelve collieries at work in the years; Mary, 11 years: Isabella, 7 years; Schuylkill Region, principally small operations; Jeremiah, 5¹/₃ years; Lizzie Agnes, 4 years; Joseph, 3 years; and David. 10 months.— of the mountain. These, together with the Shamokin collieries at work, furnish all the Coalsent

from this Region at present. From present appearances the trade is not like ly to start again, with activity, much, before July -a full supply for a week would break prices down at least a dollar a ton below the present low rates, in fact below the cost of production. The trade sums up this week as follows com pared with last year :

> 1864. 1865. WEEK TOTAL. WEEK. TOTAL. DEC

P& R. R. R 05,1% 1,342,867 17,658 1,109,197 (239,67 Schuyl Can. 22,329 284,267 8,112 152,609 (101,56) 585,432 d58.7: 133.362 d36.5
