All the pay I ore years' pay in the old army. The greatest political favoritism against me I ever had was from Mr. Davis after the Mexican war: It is hard to account for my course, except from a painful sense of duty-I say painful, because I believe few were more devoted to the old county than myself, and the greatest, objection, Thad to it was because of my predilection for a strom one. Now I see persons who did what they could to bring about the war, in high favor in the North, holding high office. It was Ike death to me.
