pain in the head. This headache is apt to begin in the ning on waking from a deep sleep, and when some irregularity of dict has been committed on the day be ore, or sometimes for several days previous. At first ere is a distressingly oppressive feeling in the head. which gradually merges into a severe heavy pain in the temples, frequently attended by a seuse of fallness and tenderness in one eye, and extending across the fore-head. There is a clammy, unpleasant taste in the outh, an offensive breath, and the tongue covered with a yellowish white fur. The sufferer desires to be alone in a datk room. As soon as the patient feels the ulness in the head and pain in the temples, take a large lose of Schenck's Mandrake Pills, and in an hour o two they will feel as well as ever. This has been tried y thousands, and is always sure to cure, and instead of the sick headache coming on every week or ten days, they will not be troubled with it once in three nonths,

Schenck's Mandrake Pills are composed of a number of roots besides Podophinin, or concentrated Mandrake, all of which tend to relax the secretions of the liver, and act more prompt than blue pills or mercury, without leaving any dangerous effects. In a bilious person they will show themselves by the stools. They will xpel worms, mucus, bile and all morbid matter from the system. In sick headache, if they are taken as di-

ected above, (a full dose as soon as they feel the first ymptoms of it) Dr. Schenck will and has directed his gents to return the money if they do not give perfect atisfaction. If a person has been compelled to stay out late at
