SENSIBLE TO THE LAST. -A lady, who had some thing of a Bacchanalian spouse, resolved to frighten him into temperance. She therefore engaged a watchman, for a stipulated re ward, to carry 'Philander to the watch house, while yet in a state of insensibility, and to frighten him a little when he recovered." In consequence of this arrangement he woke up at 11 o'clock, and found himself on his cloow. He looked around until his eyes rested on a man sitting by a stove and smoking a cigar.

"Where am I?" asked Philander. "In a medical college," answered the cigar-

MEDICINAL.

THE peculiar taint of infection which we call SCROPULA lurks in the constitutions of multitudes of men. I either produces or i either produces or if produced by an enfeebled vitided state of the blood, wherein that fluid becomes in

competent to sustain the vital forces in their vigorous action, and leaves the system to fall into disorder and decay. The scrofulous contamination is variously caused by mercurial disease, low living, disordered digestion from unlicalthy food, impure air, filth and filthy liabits, the depressing vices, and, above all, by

origin, it is hereditary in the constitution descending "from parents to children unto the third and fourth generation;" indeed, i seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children." The diseases it originates take various names, according to the organs i tubercles, and finally Consumption; in the glands, swellings which suppurate and become ulcerous sores; in the stomach and bowels, derangements which produce indigestion, dyspepsia, and liver complaints; or the skin, eruptive and cutaneous affections These, all having the same origin, require the same remedy, viz., purification and invigoration of the blood. Purify the blood, and these dangerous distempers leave you. Wit feeble, foul, or corrupted blood, you cannot liave health; with that "life of the flesh healthy, you cannot have scrofulous diseas Ayer's Sarsaparilla

compounded from the most effectual antilotes that medical science has discovered for this afflicting distemper, and for the cure of the disorders it entails. That it is far superior to any other remedy yet devised, known by all who have given it a trial. That it does combine virtues truly extraordinary in their effect upon this class of complaints is indisputably proven by the great multitude of publicly known and remarkable cures it has made of the following diseases: King's Evil, or Glandular Swellings, Tumors, Eruptions, Pimples, Blotches and Sores. Erysipelas, Rose or St. Anthony's Fire, Salt Rheum, Scald Head, Coughs from tuberculous deposits in the lungs, White Swellings, Debility, Dropsy, Neuralgia, Dyspepsia or Indigestion, Syphilis and Syphilitic Infections, Mercurial Diseases. Female Weaknesses, and, indeed, the whole series of complaints that arise from impurity of the blood. Minute reports of individua cases may be found in Aver's American Almanac, which is furnished to the druggists for gratuitous distribution, wherein may be learned the directions for its use, and some of the remarkable cures which it has made

when all other remedies had failed to afford elief. Those cases are purposely taken from all sections of the country, in order that every reader may have access to some one who can speak to him of its benefits from personal experience. Scrofula depresses the vital energies, and thus leaves its victims far more subject to disease and its fatal results than are healthy constitutions. Hence it tends to shorten, and does greatly shorten, the average duration of human life. The ast importance of these considerations has led us to spend years in perfecting a remedy which is adequate to its cure. This we now offer to the public under the name of AYER'S SABSAPARILLA, although it is composed of ngredients, some of which exceed the best of saraparilla in alterative power. By its ing and danger of these disorders. Purge out the foul corruptions that rot and lester in the blood, purge out the causes of discase, and vigorous health will follow. By its peculiar virtues this remedy stimulates the vital functions, and thus expels the distempers

which lark within the system or burst out on any part of it. We know the public have been deceived by many compounds of Sarsaparilla, that iromised much and did nothing; but they vill neither be deceived nor disappointed in this. Its virtues have been proven by abun dant trial, and there remains no question of its surpassing excellence for the cure of the afflicting diseases it is intended to reach. Although under the same name, it is a very different medicine from any other which has been before the people, and is far more ef-fectual than any other which has ever been

available to them. AYERS CHERRY PECTORAL The World's Great Remedy for Coughs, Colds, Incipient Con-sumption, and for the relief of Consumptive patients

FERTILIZERS.

Agricultural Chemical Co.'s HEAP RESTILIZERS THE Fertilizers prepared by the Agricultural Caemical Co. (a Company chartered by the Legislature of Pennsylvania with a capital of \$250,000.) have been proved in practice to be the cheapiest, most producible and best, for the Farmer, Gardener and Fruit-grower, of all concentrated manures now offered in any market. The Company's list embraces the following:

izer is largely composed of animal matter, such as most, bone, not, leather, hair and wool. ogether with chemicals and inorganic fertilizers, which decompose the mass, and retain the mitrogenous elements.

It is a very valuable fertilizer for field crops generations. Illy, and especially for potatoes, and garden purposes. Its excellent qualities, strength and cheapness, have nade it very popular with all who have used it. COMPOSITE FERTILIZER THIS highly phosphatic fertilizer is particularly adapted for the cultivation of trees, fruits, lawns and health nowers. It will promote a very vigorous and healthy growth of wood and fruit, and largely increase—the quantity and perfect the maturity of the fruit.—for hot-house and household plants and flowers, it will be found an indispensable article to secure their greatest perfection. It will prevent and cure diseased conditions of the peach and grape, and is excellent for trans and laws.

PHOSPHATE OF LIME Agriitural Chemical Company manufacture a Phosphate Lime in accordance with a new and valuable formula which a very superior article is produced, so as to a afforded at a less price than other manufacturers arre. Practical tests have proved that its value, as fertilizer, is equal to the best, Phosphate of Lime in a market.

TERMS CASH. All Orders of a Ton or more, will be delivered at the Railroad Stations and the Wharves of Shipment, free of cartage. Cartage will be charged on all orders of 6 barvels or less.

One dollar per Ton allowance for cartage will be made on all sales delivered at the Works of the Company, on Canal Wharf.

INE IMPROVED SUPER-PHOSPHATE." formerly sold by Allen & Needles. I was not aware until recently, that my Super-Phosphate, of which I am and always have been the sole Proprietor, as well as Manufacturer, was sold in any locality as "Allen & Needles."

Allen & Needles were dealers, who bought and sold my Super-Phosphate as others buy and sell.

Since I commenced the manufacture of my Genuine Improved Super-Phosphate of Lime. I have manufactured to the same material, the "Somberco Guano," of which I have the sole control. The interest which I hold in the island is such that no other manufacturer in the United States can obtain the same material, and without that same material the same article cannot be produced. Let it he distinctly undertood that I have the United States can obtain the same material, and without that same material the same article cannot be produced. Let it be distinctly understood that I have no agents who are authorized to use their own names on the package; If you would obtain the long tried and reliable article, of my manufacture, you must purchase of those who sell with my name on only. It is to your own interest to be apprised of the foregoing statement. Messrs: Allen & Needles never manufactured Super-Phosphate to my knowledge. Before they sold my article, they sold the manufacture, of Messrs. Poits & Klett. They now say they manufacture their own, because of the many difficulties they had when other parties manufactured for them. Whatever difficulties they may have had with Potts & Klett. I do not know, but I know they never had any difficulty with me. In May, 1862, Messrs. Allen & Needles; called on me to purchase Moro Phillips' Super-Phosphate. I contracted with them to supply a certisin number of tons per annum at a specified price, which I did until last Fall., I then refused to supply them with any more unless they won. I remove their names from the stencil, which they con\_ated to do. They sold what I supplied last Fall without their name attached to it.

The article they sell, this year may be as good as male, but I wish the public to know that it is not made from the same material as the Phosphate they sold in the last three years, called MORO PHILLIPS' GENULINE IMPROVED SUPER PHOSPHATE OF DIME.

Respectfully yours. Philadelphia, Aug. 7th, 1865. BAUGH'S SUPER PHOSPHATE OF LIME.
