DRY TORTOGODSEES, November, 1865. Accordin tu promise, I take my pen in hand io Jot down a few pertiklers consarnin Ef the inhabitants who puts up here had their choise they wood prefer Newport or Scape May tu these latitood. No doubt on it. They don't cum here ov their own free will. Ef twas openenil with them, I think

they wood go sumwhere else. I woodn't be Monark ov all I survey here for 2 dollars an Altho this is the mostest one-hoss city ever sot eyes onto, and the convicts the ornariest set ov lookin critters outside ov the Suthrin Confederacy, deceased, -possessin only a little more Brains than a Schuylkill Co. Copperhed Grand Joory, -yet I'm told they don't arsk from a dollar up to 75 sents a pound fer butter, nor get up eny sesesh Episted Jack Asses ov tharselfs by holdin' sensation Balloon Weddins. Those is sumthin in their favor. I carn't conceive why a man warnts to Sale toards the sky in a Balloon tu

Ef he wants to go up, let him cum home from the Lodge sum nite arter his marrid, in the wee sma' hours, an innosently pull orf his Boots with the hat rack, an Set onto his wife's Band Box containing her set onto his wife's Band Box containing her new Empire Bonnit. Theh ef she don't Blow him Sky High in a short time, you can rite the undersind down a false Profit. These recipe has never bin known tu fale; it goes rite 2 the spot; 5 boxes fer only 1 dollar! I was muchly serprised not to find B Wood, Vallandigham, J. Buchanan, & other Suthren patrits, bordin here. I arskt one ov the officers on dooty why this was not other-

wise instead ov thus. Sez he, "Good Gracious, I hope them willians won't be sent here. The convicts is was enuff, but what d'ye spose they'd be ef such was to mingle with em?" "Wat," sez I, "I don't know; but I spose

that just what they would be, ef not more.' I havent seen Mister Tortoogus yet. larn he went to New Jarsey to vote the Demycratic ticket.

fer Buchanan's new Book. They say they allus like to read what their friends say over. The wood be a hunky field for canvassers. They wood make from 100 to 50 dollars per weak. They would go orf like hot Corn Dodgers. Sum time ago, when I was at Wheatland, I remarkt to his honor. The rogues here are makin meny inquiries the ole Pub. Functionary, that it wood add much morely to his future happiness to be nuce morely to his future nappiness to be attendin to his Larst Days on Earth, insted of the "Larst Days of My Administration"—

"Now you jest look a here," replied J. B. smackin' his lips over 5 fingers of ole Mountain Dew-"my frend Mister Wood rote a wishy-washy Tail call'd 'Fort Lafavette.' which was full ov lies and Suthren Admiration. Now I'll be gosh-hanged to darnation of I don't think I got as good a rite to publish a blood-an-thunder tail as B. Wood." An he's went and gone an done it. More's

Arfter snappin' 2 boxes ov caps, an the gun not goin' orf, it was thort there was sumthin wrong. In screwin' the charge out, they caught the Doctor by the loose portion of the breeches, and thus was his secret revealed .-The Doctor uttered some profane swearin', an sed the Constituotion was smasht again. -He was only arfter the pursuit ov happiness

These facts has been withheld till the present time. It will do no harm to publish 'em

"Ef I cood only have got to Washintin," sed the Doctor to me, "I wood have bin O. K. A. Johnson wood have pardoned me, sure. He's pardoned wass than me. I am willin to take a harf a peck of Oths of Allegiance. Bring on your Oths. I want to be reconstructed. Have you got any reconstructin' dockyments with you?"

"Nary," sez I. "But you traitors musn't put too much faith in Andy. I air free to confess that the Hemp bizness is not so brisk as the patriot's heart cood desire. "But," sez Mudd, "your American Eagle s nuthin but a turked buzzird. Your Government is not consistent. The greater the willian the lighter the punishment he gets. There's the editor ov the the La Crosse Dem. ocrat,-he perswaded us fellers to do all we did, an more too. An he's at it yet. An J. Davis, an Lee, an Mitchell-why don't your Govment hang those. "Why, what air you talkin about?" sez the Doctor. "You air not as lookid as one of the Standard's Editorials. But ef I cood get pardoned, I wood accept enny fat offis in the gift of the Govment. I wood be Provisional Govner ov New Jersey."

"Wall, I guess New Jersey kin get along without your assistants. Where fellers like you hav bin maid Provisional Govners, the State gets reconstructed backwards. But how do you like the result ov the elections in New Jersey & York?"

"Why," sez he, "I can bear up under bein banisht from home an frends; on a Pinch, I kin refrane from Whiskey for 24 consecootive hours; but I'll be roasted alive and eat-en on the harr shell of I think I will long survive the Waterloo defect my frends has sustained in those States. "Not much," sez I. "From this time hereafter, hensfurth, N. J. is a Trump.—
Shoodn't wonder of her defeeted sympathicers wood visit you now. What will they do?" An how will they do it? They carn't stay where the nigger-worshippers [sarcusst-toolth] is in the assender.

The cattle piague is the Russian cattle pest in this country. It is always more or less prevalent, and generally kills whole herds. Like cholera, it is both contagious and infectious. By these terms I mean to say it is communicated from one animal to another by the physical imposition of the virus upon any animal from any object containing the virus; and also that the virus may be carried into molecules in the air, and and thus produce the disease. It evidently did not originate de novo in England, but was carried there by ship loads of cattle from the Russian Baltic ports. If this theory is correct, then all importation of cattle from abroad should at once be prohibited by Congress, if not otherwise possible to be prevent-I am of the opinion that there is nothing in which prevails in these cold climates, where great expenditure of heat is needed, and fuel

ed. And it would pay well to call Congress together for that purpose only. No ship having a cow or sheep on arrival from Europe, or countries having the pest, should beallowed to land in America without sufficient quarantine. Every disease must at some time have originated from a violent disregard of the natural laws, and this as others. But the management of cattle in Great Britain or America to generate the disease; so also no sanitary precautions can arrest it short of absolute non-intercourse. I believe it to be a species of bloody murrain, aggravated by the marshy nature of northern Russia and the utter disregard of all the laws of health which is known to man and beast, especially in regard to ventilation and cleanliness,

and food scarce. The same causes are producing now aggravated typhus fever here, which is called outside of Russia "the plague." England was warred long since ofthe danger of direct importation of cattle from Russia; but failed to heed the advice. I trust our country may be more wise, and
