"And again," says Andrew Johnson in the same speech, "when a measure has been passed by a two-thirds vote of both Houses, after a discussion of fifteen years (the two bills vetoed by Andrew Johnson, although not discussed for fifteen years, were intended hasty or improvident legislation, I say respect to the public judgment of the nation, respect to both Houses of Congress, should have been a great inducement for the Execu-

State, on the policy of the President. When the reader remembers that only in October last, Connecticut, by a majority of 6,372 votes decided against striking the word "white' out of their State constitution, so as to confer the right of suffrage upon their coloredpopulation; the proximity of the State to copperhead New York; the name, power and patronage of the President used by the enemies of the Union party, in favor of Mr. Euglish; the fraudulent votes polled by importing into the State large numbers of New York thieves and shoulder-hitters to vote the copperhead ticket, he can readily see how great the victory is that we have achieved. The effect of this triumph of the Right, will be to encourage the Unionists in Pennsylvania and elsewhere, to continue firm in their

support of the principles and policy that now actuate the present Congress. The lesson taught by this election is, that the people are resolved to have no reconstruction of the Union not founded upon correct and enduring principles, and strong enough to resist the changes and accidents of party

The Copperheads of Pennsylvania have been struck dumb by the result. They not only anticipated the defeat of Gen. Hawley, but they wagered freely on such a result. Indeed, among the leading cops, the belief is now entertained that after failing to carry Connecticut, they have not a shadow of a chance anywhere north of Mason's line. They are very blue in this State, especially as they know they have a candidate in Mr. Clymer, whose political record during the Litter batred of the soldiers of the Republic. There is no estimating Gen. Geary's majority. It will be immense. He will sweep the marched with Sherman "to the Sea." All in all, the skies are bright for the complete triumph of the principles of Equal Rights to all classes of American citizens.

The News is evidently convinced that the President's policy as right, while that of Congress is wrong. We must content ourselves with directing the attention of our contemporary to the recent remarks at Knoxville of Governor Brownlow, who nominated Mr. Johnson to the Vice Presidency, and to the followings extract from a speech delivered during the ate Connecticut canvass, at Fairhaven, by Colonel Stokes, a loyal Tennessecan, who raised and commanded a regiment which did good service in the Union army, and who is

The matter was brought to The attention of the Court, which from its action decided that Mr. Heisler simply did his duty. If he deared an investigation into the matter, he might onter into his own recognizance. The law is explicit on the point that where a prisoner in custody, attempts to escape, an officer is justified in acting as Mr. Heisler did, where there is great probability that the prisoner will enceded in getting off, unless those means are resorted to. Barrett was noted as a desperate and lawless character, and hal been guilty of many assaults upon peaceable citizens where he resided. He was a terror to the peaceable and law-abiding. His brother. Mr. Heisler has entered into his own recognizance to answer at Court. We understand that there is quite a warm dispute between Mr. Ward, and the Sheriff of the County who was present during the attempt of Barrett to escape, in regard to an ordersaid to have been given to Mr. Heisler to shoot. The Sheriff says that Mr. Ward gave the order, which Mr. W. denies. A legal investigation we presume, will alone settle this disputed point.

The whole affair passed off very pleasantly, and

The result of Monday's election in Connecticut, in favor of Union principles, is peculiarly satisfactory, as it is a verdict in a doubtful, or what is called conservative, State, on the policy of the President. In several localities where the mesozoic formation is absent, those beds of ore are in sight, and plainly distinct in "strike" and "dip." But where the magnetic ores are found breaking through the new red sandstone, they are totally different in character and formation from the old and true magnetic beds. The ores of the Cornwall hills are of this late formation, and are found soft, sulpharons, and irregular—plainly theiresult of sublimation. We may also name the ores of Boyertown, where mined by the Phænixville fron Company, and several other localities where it is found in fissures or veins, instead of beds, and in and through the mesozoic red sandstone. ore of the Mesozoic and the impactace devices formation. With this data before us, we may seek intelligently for the magnetic beds, and will be sure to find them. In fact, I can state most positively, from practical examinations, that the magnetic ores of Peunsylvania, available to the Anthractic regions, and particularly to the valley of the Schuylkill, are inexhaustible and more accessible to both the furnaces of the Lebigh and the Schuylkill, than the magnetic ore of New Jersey. This fact is of the greatest importance to our Anthracite iron manufacturers, and in view of the conomical manufacture of steel, in the Anthracite regions of inestimable value. in this respect we have an immense aryantage over the English manufacturers, since they have little or no magnetic ore, and but little of the richer and more valuable varieties; and, while the use of lean ores in-creases the cost of production, the quality of the metal replaced is inferior. CLEANSE THE BLOOD.

WITH corrupt, disordered or vitiated Blood, you are sick all over. It may burest out in Pimples, or Sores, or in some active disease, or it may merely keep you listless, depressed and good for nothing. But you cannot have good health while your blood is impure.—Ayer's Sarsarabilla purges out these impurities and stimulates the organs of life into vigorous action, restoring the health and expelling disease. Hence it rapidly cures a variety of complaints which are caused by impurity of the blood, such as Scrofula; or Kingre Evil. Tumors, Ulcers, Sores. Eruptions. Pimples, Blotches, Boils, St. Anthony's Fire, Rose or Erystelas, Tetter or Salt Rhenm. Scald Head. Ring Worm. Cancer or Cancerons Tumors. Sore Eyes, Female Diseases, such as Retention. Irregularity, Suppression. Whites, Sterility, also Syphilis or Venerial Diseases, Liver Complaints, and Heart Diseases. Try Aran's Sarsaram L. and see for yourself the surprising activity with which it cleanses the blood and cures these disorders. During late years the public have been misled by large bottles, pretending to give a quart of Extract of Sarsaparilla for. one dollar. Most of these have been frauds upon the sick for they not only contain little, if any, Sarsaparilla, but no cruative properties whatever. Hence, bitter disappointment has foilowed the use of the various extracts of Sarsaparilla which flood the market, antil the name itself has become synonymous with imposition and cheat. Sill we call this compound "Sarsaparilla," and intend to supply such a remedy as shall rescue the name from the load of obloquy which rests upon it. We think we have ground for believing it has virtues which are irresistible by the ordinary run of the disease it is intended to cure. We can only assare the sick, that we offer them the best alterative which we know how to produce, and we have reason to believe; it is by far the most effectual putifier of the blood yet discovered by anybody.

"How can we avoid paying our share? The way seems to us to be very easy. There is a party at the North, strong in numbers and influential in ability, opposed to every species of protection to home industry. We shall be an unit with that party, and will go further, and oppose all customs daties whatever, and have no other than internal taxes, based on actual valuation. In that case, we can manage in the South our own share of that taxation in our own way; for no other than a true Southern man will dare to hold any office amongst us, and no man at the South will dare to take the outh to enable him to hold office. The entire Southern delegation in Congress will oppose to the bitter end any and every tax and appropriation proposed to meet the interest or principal of the public debt, or to extend or support the army and navy. We look forward to another day, when we may be more successful in the assertion of our right to break away from a political association that has been hateful to us for many years, and in which we are now from the or many years, and in which we are now from the or many that we have always despised, and whom we now dislike more than ever. The thought of hidependence and the determination to be free from the Union 5. never absent from the mind of any true Southerner; however, for the sake of policy, he may disguise his opinions for this present." throughout the country.
