LOYALISTS! Call for a Convention of the Unconditional Unionists of the South to Assemble Phila-delphia in September.

The Loyal Men of the Lately-rebellious States Denounce "My Policy," Cop-perjohnsons and Copperheads. Our Reliance for Protection is now or Congress and the Great Union Party that has Stood, and is Standing, by Nationality. Country's Destiny not to be left in the hands of those who, with Might and Main, Sought to Destroy it.

Washington, July 11.-The following is all for a convention of Southern Unionists, to held in Independence Hall in the city of Philadelphia, on the 1st Monday of September, 1866: To the Boyal Unionists of the South: To the floyal Unionists of the South:

The great issue is upon us. The majority in Congress, and its supporters, firmly declare that "the rights of the citizen enumerated in the Constitution, and established by the supreme law, anust be maintained inviolate."

Rebels and rebel sympathizers assert that "the rights of the citizens must be left to the States alone, and under such regulations as the respective States choose voluntarily to prescribe."

We have seen this dectrine of State govereignty carried out in its practical results until all authority in Congress, was denied, the Union temporarity destroyed, the constitutional rights of the citizens of the South nearly ambiliated, and the land desolated by civil war.

We maintain that no State, either by its organic law or legislation, can make transpression on the rights of the citized legitimate.

We demand, and ask you to concur in demanding, protection to every citizen of this great Republic on the basis of equality before the law; and farther, that no State government would be recognized as legitimate under the Constitution, so far as it does not by its organic law, make impartial protection full and complete.
Under the doctrins of "State sovereignty" with rebels in the foreground controlling. Southern Legislatures, and embittered by disappointment in their schemes to destroy the Union, there will be no safety for the Joyal element of the South. Our reliance for protection is now in Congress, and the great Union party that has stood and is standing by the nationality, by the constitutional rights and by the beneficent principles of free government. CHRONIC DISEASES.

The common cause of chronic diseases is a lack or want of vitality, either Idlopathic or Symptomatic in the nervous system or in the tissues. Diseased action or lack of vitality when local is owing to the deficiency of the supply of nervous power or of natrition; the ON.

LY.TRUE REMEDY consists in supplying flat deficiency by VITALIZING and quickening the natural functions, suppressing the dormant and diseased action of those organs, purifying the blood, strengthening and invigorating the general tone of the system, thereby interrupting a diseased condition, giving flumness to the relaxed tissues, harmonizing the irregular action of the nervous power, giving a proper and healthy tone, thereby overcoming the disease.

OTTORHICA OR EAP DISCHARGES.

Commonly the result of Scarlet Fever, Measles or Scrofula, is a disease which, if neglected, is liable to produce the most serious results, as the acrid character of the discharges, if continued will almost smely destroy the tympanum or eardrum, many times destroying the bones in the inner, car and causing disease, of the brain. We have heard of physicians recommending their patients to let the car continue to run, thus displaying an amount of ignonance that is deplorable. For nothing could be more pernicious.

Among the many cases which we successfully treat by the new practice, are Stambering, Consumption, in its first stages, Cancers, Scrofula or King's, Evil, Sait Rheuma, St. Vitus, Dapec, Neuralgia, Rheumatism, Paralysis, Dyspepsia, Liver Affections, Chronic Diarrhoxa, Fleek, Erysipelas, Mercurial Diseases, Primary and Secondary Syphilis, Spermatorrheas, Impotence, Diptheria, Chronic Coughs, Pinplex, Impure Complexion, Nervous and General Debility, Prolapsus Ucer, Displacement and all Womb and Uterine Femile Diseases, Bronchitis, &c, and all Diseases arising from an Impure state of the blood, Headache cured in three misutes.

Thirder—In the superior uniformity and accuracy in which these Lenses are ground. The axis of the Lense being exactly in the centre with the cones of each surface: precisely opposite each other, and being of uniform density, transforming primanic rays to achromatic light, so modifying as to cause the rays to converge directly to the pupil of the eye, equalizing and keeping the eye in its natural and proper position, and so altering the disposition of the rays of the light to their entrance to the eyes as to give the greatest amount of vision with the least power, thereby softening the rays, giving perfect ease to the wearer, and by soothing and composing the irritated nerves, checking in a great measure the tendency of the eye to grow flat or old, and lasting in ordinary cases, from five to thirty years, without change to greater magnifying power.

Sealed proposals for furnishing Anthracite Coal for
the Navy, to be delivered during the fiscal year ending
30th June, 1807, will be received at this Bureau until
10 A.M., 30th July, 1866.

Thesy proposals must be endoised "Proposals for
Anthracite Coal for Steamers," that they may be distinguished from other business letters.

The offer must be for the delivery of 40,000 tons of
2240 pounds. The coal must be of the best Buck Mountain or The coal must be of the best Buck Mountain or slack Health, or of a kind equal to them in all respects, or the purpose intended, which equality will be desimined by a Board appointed by the Secretary of the Navy after the reception of the bids.

The name of the coal proposed to be furnished must be stitled in the offer.

the Navy after the reception of the bugs.

The name of the coal proposed to be furnished must be stated in the offer.

It is to be delivered in lumps of suitable size for usual steamers, clean, of uniform quality, selected free from impurities, unmixed, of which the contractor will be required to furnish such evidence as will be satisfactory, and be subject to such inspection as to quality and quantity as: the Department may direct.

The coal must in all respects, be satisfactory to the inspector or inspectors to be appointed by the Bureau, who will have the right of peremptory rejection.

The coal is to be delivered on board vessels, at such place in the port of Philadelphia as may be designated by the Bureau, and in such quantities and at such times as, in the opinion of the Bureau, the exigencles of the service may require, commencing when the vessel is reported ready to receive cargo; furnishing, if demanded, not less than one thousand tons per day, to be distributed to each vessel, as may be directed, antil the loading is completed.

Proposals will kewise be received for the delivery of the service of the same quality of coal, to be delivered on the service of the same quality of coal, to be delivered on the service of the same quality of coal, to be delivered on the service of the same quality of coal, to be delivered on the service of the same quality of coal, to be delivered on the service of the same quality of coal, to be delivered on the service of the same quality of coal, to be delivered on the same as the same of the same as the same and the same as the same and the same as the same as the same and the same as the same and the same as the same hiladelphia. CAMPAIGNS ARMY OF THE POTOMAC, The Standard History of the GRAND ARMY. The greatest Work on the War. rsed by army officers and the Press. THE AUTHOR SAYS:

"I'design in this volume to record what the Army did and suffered in ten campaigns and two score bat-Ics.

I shall have to celebrate the unswerving loyalty of his army, that of times when the bond of military co-esion failed, held it, unshaken of fortune, to a duty will invoce the state of the state ell-imposed.
I shall have to follow it through a checkered experi-

I shall have to follow it through a checkered experience, in a tale commingled of great misfortunes, great ollies and great glories; but from first to last it will appear that, amid many buffers of fortune, through winter and rough weather," the Army of the Potomac never gave up, but made a good light, and finally reached the goal.

Of this drama there will be no other here than the Army of the Potomac itself; for it would seem that in this war of the People it; was decreed there should arise no imperial presence to become the central figure and cynesure of men's eyes. Napoleon, in an outburst of haughty eloquence, exclaims that in the great-armies of history the Commander was eyerything. This proud apotheosis has no application for the Army of the Potomac. And one must think—seeing, it never had a great, and generally had, medioere commanders—It was that it might be said, that wherever it won it oved not to genius, but bought with its blood." This is the only History of the "GRANI) ARMY," and no one who has borne a part in its conflicts, or is interested in its grand achievements, should be without it.

THE LATEST NEWS. The Cabinet Resignations—Reduction in the Public Debt\_Miscelluny. the Public Debt—Discellamy.

It is believed that Secretaries Speed and Harlan will soon follow Mr. Dennison and tender their resignations. Mr. Stanton's leaving the Cabinet at no very distant day is also deemed certain. The resignation of Mr. Dennison was colely upon political grounds—He frankly told Mr. Johnson that he could not agree with him in his restoration policy: that he was la favor of the Constitutional Amendment and the Freedmen's Bureau bill, and auterly opposed to the holding of the Philadephia. Convention: Mr. Dennison expects to return to Ohio as soon as he can settle spring business in Washington, and will probably take an active part in the approaching political campaign is

active part in the approaching political campaign in that State.

It is stated at the Treasury that the actual reduction in the principal set the public debt in June was nearly \$20,000,000.

The Southern Unionists, led by Governor Hamilton of Texas, Horace Maynard of Tennessee, Judge Underwood and others, have issued a call for a second Convention to be composed of Southern Unionists, to meet at Independence Hall, Philadelphia, on the area Monday in September: POSTPONEMENT OF THE TARIFF BILL.

An Unexpected Result. The Senate by a vote of 21 to 16, postoned action on the Tariff bill until December next. Every Copperhead present in tha Senate voted for the postponement except Cowan-the 16 nays were all Republican.-They fought hard against it but had to succumb. The Washington correspondent of

the Press says:

The postponement of the tariff bill until the first of December next occasioned very general regret among its friends. The fact that all the Democratic Senators voted to postpone it shows that it would certainly have been vetocal; and it was doubtless a knowledge of this fact that constrained some Union Senators who were auxious to close up business to vote for postponing, so as to hurry gither legislation, which they supposed to be of more immediate importance. It is too late to speculate on the results of this vote. The friends of the bill in the House believe that it will certainly be passed at the commencement of the session. Nous verroxs. the Press says: Millions of dollars of British gold will now be thrown into this country in order to deteat the friends of Protection at the next Cougressional election In view of this result the friends of Pro-

The drunken traitor in the White House is now reduced to a mera cypher, and he will have to take good carethat he is not impeached. If we were in Congress we certainly would prefer articles of impeachment against him on the ground or insanity caused by rum, and gross bribery and corruption in the Administration of the Government by holding up the offices as

bribes to make loyalty odious and treasou respectable. SENATOR LANE MURDERED BY "MY POLICY." A special despatch from Washington to the New York Tribune, says: "Before leaving for Kansas the last time, General Lane received several letters from his former friends there, telling him that he was totally shipwrecked in his political fortunes. He bade good bye to some of his relations here, showed one of the letters, and remarked that he felt like blowing out his brains." This is not the only murder committed by 'My Policy:" There are lots of other ca casses strewn about Washington, the stenen

Davis during the rebellion, and it was also proven that it was in the pay of the rebels. The News is now the organ of Andy Veto in the North, and speaks officially as to the new coalition of the rebels South and the traitors and sneak thieves North on the Couvention which has been called in Philadelchia. The few traitor Republicans of the Bread and Butter Brigade, are treated rather cavalierly by the News and told plainly that: they must not go back or join the traitorous

party. This paper, of Monday, in speaking of the Convention, says: of the Convention; says:

"This struggle is to be no triangular duel. There are now but two great political powers in the land, and, of these the Radicals are one, and the Conservative Republicans, who are disposed to combat the ultraisue of Suminer, and Stevens, are sor the other. The Conservative Republicans cannot dight even a pigmys fight under a distinct banner in the great conflict at, hand. They cannot live a separate party existence in the political atmosphere of the times. They must go back to the radicals or come to the Democracy. That Democracy offers them a place on its broad and sufficient platform—if they accept it they will have a political leabitation and a name, if they reject it their organization will vanish from the arena by the mere gravitation of its elements to one or other of the greater bodies."

The News is the great detender of Andy "THE MARRIED WOMAN'S PRIVATE | Johnson, and, no doubt, speaks officially, Andy has joined himself body and soul to the murderers of Abraham Lincoln, and has damned himself to everlasting infany, RETRENCHMENT.

Congress has the subject of retrenchmen public expenditures before it; and the proposition is that a committee shall be appointed or the purpose of reporting in what branches? of the Government reduction of expenses can be made. This is a good field for practical operations, and we hope that Congress will commence the work by reducing the extravagant pay for the milleage of its members.-The idea of a California and Oregon member receiving ten and cleven thousand dollars mileage when the round trip can be made for a thousand, is to say the least, steen. Retrenchment in that matter is badly needed.

Let us have it. 23 State and district conventions, to nominate to elegates to attend the August convention of the ohnsonites, have been called in Alabama, Georgia and South Carolina. French Embroidered and Hem Stitched Linea Handkerchiefs, cheap at WALKER & PRICE S. June 9, '66 23.6m. June 9, '66
