Passee of the Freedmen's Budrunken despot in the White House the second Freedman's Bureau Bill. had been framed to meet his object o a certain extent to the former Bill .dessage was read, and the Bill passed the Hase by a vote of year 104, nays 33. It which was done before the messenger who elivered the message to Congress had time return to the White House. We rather

immediately taken up in the Senate and sed that body by a vote of 33 to 12-all hink Andy took an extra drink on the strength of such quick work on the part of Congress. Loyalty must and will triumph against treason and traiters everywhere. TENNESSEE. If the President had done his duty and no attempted to thwart the wishes of the loyal

people, there would have been no trouble in Tennessee, nor in any other of the States late in rebellion: the new Constitutional Amendment would have been adopted cheer fully by those States, by this time at least, by Tennessee, and her members would now be sitting in Congress. What do we see? The people who act for the President in carrying out his policy, have advised the Legislature of Tennessee not to vote for the Amendment and the result is that no anorum can be obtained in the House, in consequence of the action of refractory members. We are not surprised at this grave delusion, after reading an extract from a letter addressed by the President's son-in law, Mr. Patterson, and the President's Private Secretary, Mr. Coop-

"You are gravely called upon by the majority is longress and his Excellency the Governor to sanction amendment to the Federal Constitution, which, i natified by the States, will deprive you of your recognized political power, and lessen the number of your Representatives in the National Legislature, unless on shall at their bidding clothe the negro with the Nothing more is needed to prove that the President himself is throwing obstacles in the way of Tennessee's admission to the Union. responsible for the Constitutional Amendment

er, to the people of that State, which is as

Mr. Johnson's agents are probably, not ignorant of the fact that the President himself is affecting representation. If they are, they are informed that that amendment in text and in substance will be found in his letter to Goy. Sharkey of Mississippi, and in his official suggestions to Congress. GENERAL LOGAN IN "EGYPT."

Major General John A. Logan addressed a Union meeting at Cairo, Illinois, on the 28th of June. He said that if loyal men are not capable of administering the Government, it will be useless to try traitors who still called treason respectable and not odious. He believed it was a sacred duty' devolving upon every citizen of the United States, to see that the national debt, contracted in defending the country against traitors, shall be paid to the last dime, that the Government should most emphatically ignore at debts contracted by traitors for its own destruction. Some of the officers of the Freedmen's Bureau might be unfattfully recreant to the trust reposed in them as well as other officers of the Government, but the idea of putting a shield between the late slave and them as well as other officers of the Government, but the idea of putting a shield between the late slave and the late master was a correct one, and the Southern objection to this bureau is evidence that they wished to re establish slavery, even upon better terms than existed before the slaveholder's war.

The civil rights bill was neither more nor less than a nort of reconstruction bureau bill.

The Monroe doctrine has become so well recognized and established, even with European monarchies, that three slavehy covardies on the nart of the United

nd established, even with European monarchies, that was simply cowardice on the part of the United tates to allow a European monarchy to be establishing on the state Republic of Mexico.

He could not for the life of him see any good reason He could not for the life of him see any good reason for being so particularly enthusiastic in enforcing the neutrality laws of 1818, since England has proved that she did not care a straw for them when it was not for her interest to do so. If the Irich Fenians wish to achieve Irish nationality and independence, in God's name throw no obstacles in their way had in the must not forget that to receive American sympathy and assis. They must act, with the party in favor of universal liberty.

The proposed amendment to the Constitution was all right because if loyal men who have never faltered in their attachment and devotion to free the Government, cannot properly administer the Government traitors need not try, and are not entitled to any increased representation in the Government which they tried hard to destroy. It has been said treason must be made odious and traitors must be punished; consequently, we cannot offer a reward for treason.

Gen. Logan represented the district known.

Gen. Logan represented the district known as "Egypt," in Illinois, when the Rebellion broke out. He had been elected to Congress by upwards of 7000 democratic majority. der Gen. Data: DEAFNESS, NOISES IN THE HEAD, BY DR. B. L. HORR,

ormerly of the New Bedford Eye and Ear Infirmary

Hiering, Chronic and Constitutional Diseases. Da. HORR has taken rooms at the UNION HOTEL, POTTSVILLE, PA., UNTIL AUGUST 1st, where he is prepared to treat by his new method all diseases of which he makes a specialty.

CHRONIC DISEASES. CHRONIC DISEASES.

The common cause of chronic diseases is a lack or want of vitality, either idiopathic or Symptomatic in the nervous system or in the thistors. Diseased action or fack of vitality when local is owing to the deficiency of the supply of nervous power or of nutrition; the ONLLY TRUE REMEDY consists in supplying that deficiency by VITALIZING and quickening the natural functions, suppressing the dormant and diseased action of those organs, purifying the blood; strengthening and invigorating the general tone of the system, thereby interrupting a diseased condition, giving ilemness to the relaxed tissues, harmonizing, the irregular ess to the relaxed tissues, harmonizing the irregular Commonly the result of Scarlet Foyer, Measles or Serofula, is a disease which, if neglected, is liable to produce the mest serious results, as the acrid character of the discharges, if continued, will almost surely destroy the tympanum or cardrum, many times destroying the bones in the inner car and causing disease of the brain. We have heard of physiciaus recommending their patients to let the car continue to run, thus the standard on anomary of innormact that is deployable.

ing their patients to let the ear continue to run, thus displaying an annount of ignorance that is deplorable. For nothing could be more permicious.

Among the many cases which we successfully treat by the new practice, are Stammer ag. Consumption in its flist stages. Caneers, Scrolula or King's Evil. Salt. Rheum; Sr. Vitus' Dance, Neuralgia: Rheumatism, Paralysis, Dyspepsia, Liver Affections, Chronic Diarbaca, Pleis, Erysipleas, Mercurial Diseases, Primary and Secondary Sephilis, Spermatorrhoa, Impotence, Diptheria, Chronic Coughs, Pruples, Impure Complexion, Nervous and General Debility, Prolipsus Uterl, Displacement and all Womb and Uterine Female Diseases, Sinchhitis, Ca., and all Diseases arising from an and coughs. Pruples, Impure Complex.

Displacement and all Womb and Uterine Female Discusses, Bronchitis, &c., and all Discasses arising from an Impure state of the blood, Headache cured in three minutes.

Testimonials from the undersigned may be, seen at my. office.

On. B. L. HORR, Professor of Optics and Practical Optician of 17, years' experience, Inventor and Patentre and Sole Manufacturer of the PATENT AXIOMATED SPECTACLES AND EYE GLASSES, ground from Crystal Pebble and French Glass Materials, ONE PAIR LASTING FROM 5 TO 25 YEARS WITHOUT CHANGE. The only Reliable Lenses in Existence. onsists,
Frastry—In their superior transparency, not ob-structing the rays of light, but giving a clearness and listinctness unparalleled. SECONDIT—In their extreme hardness not scratch-

distinctness unparalleled.

Secondar—In their extreme hardness, not scratching or growing dull as easily, thereby retaining their polish for an indefinite period of time.

Turgaty—In the superior uniformity and accuracy in which these Lenses are ground. The axis of the Lense being exactly in the centre with the cones of each surface precisely opposite each other, and being of uniform density, transforming prismatic rays to achromatic light, so modifying as to cause the rays to converge directly to the pupil of the eye, equalizing and keeping the eye in its natural and proper position, and so altering the disposition of the rays of the light to their entrance to the eyes as to give the greatest amount of vision with the least, power, thereby softening the rays, giving perfect ease to the wearer, and by soothing and composing the irritated nerves, checking in a great measure the tendency of the eye to grow flat-or old, and lasting in ordinary cases, from five to thirty rears, without change to greater magnifying power.

A CARD—We, the undersigned, having thoroughly tested and used for the last two years, Dr. Horr's improved Pebble and Crystal Glasses, acknowledge their superiority in ease, coolness, clearness and distinctness of vision to any glasses we have ever before seen, and recommend them to all persons needing the same: Newark, N. Pottsville, July 7th, 1866.

Important Cure in Pottsville. SIR ASTLEY COOPER'S ${f EMBROCATION}$ FOR THE CURE OF

HEUMATISM, TYPHOID FEVER, NEURALGIA NERVOUS DISEASES, SPRAINS, PAINS, BUNIONS, FEVER & AGUE, &c. BUNIONS, FEVER & AGUE, &c.

Certificates and Testimonials to any extent might be procured from those who have used and seen the good effects of this Embrocatron abroad: it is only deemed necessary to refer to the undersigned at present, a citizen of Pottsville, who can tell its good effect after using, when all other remedies had failed:

Portsville, July 3d, 1868.

This is-to-certify that I was confined to my bed on the 36 of July, when Mr. Levy called on me and persuaded me to use Sir Astley Coopers Embrocation, and after getting my legs, knees and feet rubbed for about twenty minutes; I was enabled to walk down to Mr. Sanderson's Drug Store without the aid of crutches or sticks, a thing that I have not been able to do for two months.

This preparation was originated by Six Ashley Coop.

or steek, a lining that have been considered by Sig Astley Cooper, who was physician to the Queen of England. It is a preventive of Cholera, Typhold Fever, &c., &c., and has not lise equal for exstantaneous Relief of Rheumatism, Neuralgia, Chronic diseases, Sprains, Pains, &c., if used as directed. Every, family should have it. It does its work so expeditiously, by rubbing the parts affected.

To all those afflicted—Try One Bottle and it will convince you. To an mose anicted—Try One Bottle and it will convince you.

Price \$7 00 per bottle.

M. LEVY, Sole Agent.

116 Warren Street, New York.

July 7, 66 NTHRACITE COAL for the NAVY.

NAVY DEPARTMENT,

BUREAU OF ERITHMENT AND RECRUITING,
June 30, 1906.

Scaled proposals for farmlshing Anthractic Coal for the Navy, to be delivered during the fiscal year ending 30th June, 1805, will be received at this Bureau until 10 A.M... 30th July, 1866.

These proposals must be endoised "Proposals for Anthractic Coal for Steamers," that they may be distinguished from other business letters.

The offer must be for the delivery of 49,000 tons of 2240 pounds.

2340 pounds:
The coal must be of the best Buck Mountain or Black Heath, or of a kind equal to them in all respects for the purpose intended, which equality will be determined: by a Board appointed by the Secretary of the Navy after the reception of the bids.
The name of the coal proposed to be farmished must be stated in the offer.
It is to be delivered in lumps of suitable size for navel steamers, clean, of uniform quality, selected free from impurities, unmixed, of which the contractor will be required to farnish such evidence as will be satisfactory, and be subject to such inspection as to quality and quantity as the Department may direct.—The coal must in all respects, be satisfactory to the inspector or inspectors to be appointed by the Burean, who will have the right of peremptory rejection.
The coal is to be delivered on board vessels, at such place in the port of Philadelphia as may be designated by the Burean, and in such quantities and at such times as, in the opinion of the Burean, the extremeies of the service may require, commencing when the vessel is reported ready to receive cargo; farmishing, if demanded, not less than one thousand tons per day, to be distributed to each vessel, as may be directed, antilthe loading is completed.

Proposals will keeping be received for the delivery of 12,000 tons of the same quality of coal, to be delivered in the port of New York, on board vessels, as at

and expense, that which may seem necessary to supprovide deticiency.

Any Jenissary or other charges to which the Navy
Department may be subjected from delay in the prompt
delivery of the coal by the consecuts will be dealy
of from their bills:

The price must be for the coal delivered on busy
vessels, on the terms and conditions above stated, at
the contractor's risk and expense, and without extra
charge of any kind.

The offer, as required by law, must be accompanied
by a written guarantee, signed by one or more responsible persons, to the effect that they undertake that
the bidder or bidders will, if his or their bid be accepted, einer into, obligation, at such time as may be pre-

d, enter into obligation, at such time as may be pre-cribed by the Bureau; with good and sufficient securi-

ed, enter into obligation, at such time as may be prescribed by the Bureau, with good and enficient securities; to furnish the supplies proposed.

No proposition will be considered unless accompanied by such guarantee; and the Department reserves the right to reject all the offers, if considered to be to the interest of the service to do so.

Two or more sureties, each in a sum equal to the amount specified to be paid, will be required to sign the contract, and their responsibility will be certified by the Assessor of Internal Revenue of the District.

As additional and collateral security, twenty per cent, will be withheld from the amount of all payments, which reservation is not to be paid except by authority of the Secretary of the Navy, until the contract shall have been in all respects compiled with, and the remaining eighty per cent, or other amount that may be due on each bill, will, when a proper certificate is furnished by the inspector, and the bill approved by the Bureau, be paid by such havy agents at the contractor may mame, within ten days after the warrants for the same shall have been passed by the Secretary of the Treasury.

Ichill be stipulated in the contract that if default be made in the delivery of the coal, in the quantity or the quality, and at the place and time directed by the Bureau, in the delivery of the coal, in the quantity or the quality, and at the place and time directed by the Bureau, then and in that case, the contractor and his streiles will forfeit and pay to the United States, as allquidated damages, a sum of money not exceeding twice the contract price, which may be required from time to time, according to the act or acts of Congress in that case provided.

Bidders, whose proposals shall be accepted, and none other, will be required to execute within ten days after the receipt at the post office or navy agency named by them.

We, the undersigned residents of _____, in the State of _____, and of _____, in the State of _____, heady joint y and severally covenant with the United State, and guarantee that in case the foregoing bid of _____, be accepted, _____ will, within ten days after the receipt of the contract at _____, execute the same, with good and sufficient sureties for the delivery of the antimicate coal proposed, in compliance with the terms of the advertisement of the 3oth June, 1806, hereto appended, and under which it was made: and in case the said _____ shall fail to enter into the contract aforesaid, we guarantee to make good the difference between the other of the said _____, and that which may be accepted.

B. BANNAN, Pottaville. A NEW AND BEAUTIFUL WORK. THE PICTORIAL BOOK OF ANECDOTES AND INCIDENTS OF THE REBELLION: DIC, PATRIOTIC, BOWANTIC, HUMOBOUS, AND TRACICA

Splendidly Illustrated with over 306 Fine Portraits and Beautiful Engravings.

This work for genial humor, tender pathos, starting interest, and attractive beauty, stands peerless and alone among all its competitors. The Vallant and Braye Hearted, the Picturesque and Dramatic, the Witty and Marvelous, the Tender and Pathetic. The Roll of Fame and Story, Camp, Picket, Spy, Scout. Bivouac, and Siege: Startling Surprises: Wonderful Escapes. Famous Words and Deeds of Woman, and the whole Panoramis of the War are here thrillingly portrayed in a masterly manner, at once historical and remaining the most ample, brilliant and readable book that the war has called forth.

This work sells itself. The people are tired of dry details and partizan works, and want something humorous, romantic, and etartling. We have agents clearing over \$300 per month. Send for Circulairs, and see our terms and proof of the above assertion.

AddM FINGAB.

This Machine will thresh from 30 to 40 bashels per hour, with case. When Farmers want to threab for a tew hours only at a time, a single horse will be endicient to run the Machine, but when it is to only the whours only at a time, a single horse will be endicient to run the Machine, but when it is to be run regularly, two horses are better. The Palmer Climax Threshing Machine Co.

OF PENNSTLVANIA.

Located at Potits Ville, Schuylkill Co., Pa.,
Announce to the Farmers of Pennsylvania, that they have purchased the exclusive right to supply the celebrated Palmer Climax THRESHING MACHINES, for the whole State of Pennsylvania, and have commenced the manufacture of the same at Pottsville, Pa.

This is acknowledged to be the best Threshing Machine ever offered to the public. The Straw is preserved, and comes out just as traight as it goes in, and is not even crushed as much as if threshed with a fail.

This Machine will thresh faster, with less power, than any other Thresher in the world. It took the Silver Medal and Diploma at the last New York State Fair, and the proprietors in New York State are totally unable to supply the demand. Those who have other Machines in use find that it is economy to abandon them and procure one of these, as it will soon save sufficient The Palmer Climax Threshing Machine Co. ble to supply the demand. Those who have other Machines in use find that it is economy to abandon them and procure one of these, as it will soon save sufficient to pay for it.

The Agricultural Editor of the "American Agriculturist" says: "All I have to say to the 200,000 readers of the 'American Agriculturist' is, if you want a Machine that will thresh hast, perfectly clean, deliver the straw in straight gavels, and not crack the grain, don't purchase until you can get one of Palmers. If it does not perform all that I have affirmed, report me as a Humburd. Agricultural Editor American Agriculturist.

I have threshed Eighteen Hundred Sheaves of Pos

Agricultural Editor American Agriculturist.

I have threshed Righteen Hundred Sheaves of Rye in eight hours, and do not wish to feed a machine that threshes faster.

ADAM FINGAR.

We have threshed over Thirty-five thousand Sheaves of Rye with the Paimer Climax Thresher, and cannot see that it is any worse for wear.

GERMAN FINGAR.

ADAM FINGAR.

This Machine will thresh from 30 to 40 bushels per hour, with ease. When Farmers want to thresh for a few hours only at a time, a single borse will be sufficient to run the Machine, but when it is to be run regularly, two horses are better. Address the

Fostscript. Saturday, July 21, 1866. THE LATEST NEWS.

Passage of the Funding Bill-Reduction of Taxes—Tamagun Treated Budly— Interesting Miscellany. Interesting Miscellany.
In the United States Senate on Thursday, Mr. Sherman's bill to: consolidate all the various forms of the national debt into one long loan, at five per cent, interest, was passed finally. This bill also appropriates a fixed amount of money, every year; to pay off the debt, so that while it will lower the volume of interest it will gradually but surely pay off the principal. The great bill to amend the internal revenue laws, overwhich Congress and the Revenue Commission consumed much time, has been signed by the President and has become a law, so that the officials of the internal Revenue Bureau are arranging for its enforcement. It lowers the rate of tannion.

The Reading Times of resterday, says:
"Tamaqua was treated badly in this city on Wednesday. Several of the citizens of that place were roughly treated. One of them was robbed of a gold watch and chain, worth \$120."

What a motiley gathering there must have been.
A few days aco a casket of diamonds and other valables, worth \$50.000, were found near Nashville.
Within a radius of twenty miles of Corinth Mississippi, it is estimated that forty, thousand solitiers are buried.

Prof. Charles G. Burnham, author of the arithmetic which bears his name, is just dead in Montgomery, Ala.
A St. Louis girl married to win a twenty dollar bet.

A St. Louis girl married to win a twenty dollar bet, And soon after-applied for a divorce.

Ex-Postmaster Gen. Dennison will take the stump against the President's policy.

Passage of the Constitutional Amendment by the Ten-nessee Legistature. BROWNLOW ON JOHNSON. We are delighted to state that the effortsof the drunkard who accidentally fills the

Presidential chair, have proved abortive to prevent Tennessee adopting the new Constiution Amendment. The following despatches tell the tale: CS toll the tale:

MASHYLLE, July 19.—In the House of Representatives this morning the constitutional amendment was
ratified by a vote of 43 yeas to 13 mays—two members
refusing to answers to their names.

The Press and Times (the radical sheet of Nashvilley,
says that 'the loyal men of Tennessee by this vote repu liste the President, who has so basely betrayed Governor Brownion cuts the despatch to Washington:

Namythe, Tenn., July 19—12 o'clack M.
To How. Edwin M. Stanton, Secentary by Wer,
Washington, D. C.
My compliments to the President. We have carried the constitutional amendment in the House, Note, 42to 11—two of his tools refusing to vote.

AV. G. Brownion.

GOVERNOR EROWNLOW'S DESERVATION OF TORNEY.

The following is the despatch of Governor Briwnlow to Colonel Forney, exactly as it was received. "Nash-ville, July 19, 1866. To Hon. J. W. Forney. Secretary U. S. Senate—We have ratified the constitutional amendment in the House—forty-three votes for it, eleven against it—two of Andrew Johnson's tools not weiting. Give my respects to the dead dog of the White House.

G. W. Brown, "

THE LEGICH UNIVERSITY. - This new Institution at Bethlehem, Pa., which was liberally endowed by Hon. Asa Packer of Mauch Chunk, and which is designed to give a fullpractical education, suited to the times, will be opened to receive students in the first two classes, on the 1st of September, 1866. Henry Coppee, Esq., is President. A young man graduating at the Institution, can be proficient in civil and mechanical engincering, and metallurgy and mining. It has a most

accomplished scholar and gentleman at its AMPLE ACCOMMODATIONS. - Fifteen cars capable of carrying seven hundred persons, were sent here by the Reading Railroad Company to take the Schuylkill County delegates to the "Grand Democratic Meeting" in Reading on Wednesday. Seventy-five went from here. From the entire County about one hundred and fifty persons. A stupendous fizzle, truly, after the great preparations that had been made for a "big thing."

revenue laws, has passed the House, and will we trust, pass the Senate at once. This is necessary as full action on the Tariff is deferred until December. MESSRS. DENNISON, SPEED AND HARLEN having retired from the Cubinet in couse quence of their inability to approve the Pres dent's policy, we have no doubt that the ed in. On the Union basis of reconstruction the party that saved the Nation, is now a unit

Tue shore end of the Atlantic case wa

successfully laid on the 8th. THE following letter is from a miner in West Virginia:

Charleston, West Virginia, July 5, 1865.

Drag S.—I have read "Coal, Iron, and Oil" throughfrom title to index, and intend to read it again. The first time I read for the mere pleasure of the perusal but in the next I am going to study for information.—I have just learned enough now to upset all my old idea about coal formations, and yet enough to convince me that the old theory of vegetable coal 'making isterro' neous—indeed it required but little to make me you proselyte, since I always felt sceptical about the coal itora forming our beds of coal.

But another difficulty bothered me more. I could not conceive how the crift of rivers and the debris of mountains could form the vari strata of rocks covering the coal, the Mahoning sandstone for instance, which has a spread of many thousands of square miles whill some of the lower sandstones are coexiensity with the West Virginia:

(wake.

If five-hindred copies of your block were scattere among our people, they would be better able to apprelate protection to home industry and the vast resources of our country.
