AND POTTSVILLE

Take that Receter off, he's shattered, All his feathers widely scattered, And his bill is broken, battered, By the stronger blows of the foe, Oh! 'tis hard for us to hide him, We who long so fondly eyed him—Hard to stand forlorn beside him, Now that he no more can crow!

Coop that Rooster, for he's gasping, And his toes each other clasping. Quiver with the fearful rasping.

He received on Theeday last!
For the hearts that did adore him, And the hands that upward bore him, And the feet that ran before him.

Join the ranks of those that tore him.

Those that cut the Rooster's comb!

Coop that Rooster—coop him sadly,
Once ten thousand backed him gladly,
And ten thousand wildly, maily,
Swore he should forever crow!
Swore that hostile spur should never
His triumphant windpipe sever,
And that he should fight forever!
But he now is lying low!

Oh 1 his comb is cut and bloody,
And his legs are bruised and muddy,
And his breast with blood is ruddy,
And his breast with blood is ruddy,
And his gills are darkly blue;
Empty craw and bursted gizzard,
Tail and wings completely scisoored,
Felled at one decisive blizzard—
Routed—skinned from A to izzard—

I would particularly recommend my Triple Mining Chain, the most durable and safe for mining, purposes. It is the only kind used in Europe for mining. This Chain is properly used, will last five years, and is then only half worn out; by taking out the short links and sending them to the manufacturer, he will put in long links, and you then have a new chain for about half price. For further particulars I refer you to the Duncan Colliery, Pottsville, Pa.

I will warrant my beavy Triple Chain to draw from 8000 to 4000 lbs. out of a clope 400 yards deep, or a perpendicular shaft of 200 yards deep.

Would call the attention of Railroad Managera, and those interested in Railroad Managera, and those interested in Railroad Property, to their system of Locus motive Engines, in which they are adapt they may be required; by the use of one, two, target or four pair of driving wheels; and the use of the whole, or so much of the weight as may be desirable for adhesion; and in accommodating them to the grades, curves, strength of superstruction, and rail and work to be done. By these means the maximum useful effect of the power is secured with the least expense for attendance, core of fuel, and repairs to Road and Engine. With these objects in view, and as the result of twentytendance, cost of fuel, and repairs to Road and Engine. With these objects in view and as the result of twenty-three-years fractical experience in the business by our senior partner, we manufacture five different kinds of Engines, and several classes of sizes of each kind.—Perticular attention paid to the strength of the machine in the plan and workmanship of all the details. Our long experience and opportunities of obtaining information, enables us to offer these engines with the assurance that in efficiency, economy and durability, they will compare favorably with those of any other kind-in use. We also furnish to order, wheels, axles, bowling or low moot tire to attempt of the very description of Copper, Sheet Iron and Boiler Works; and every article appertaining to the repair or renewal of Locomotive Engines.

On the evening of this anniversary, I was on one of our bridges, over which a volunteer regiment was marching back from drill—marching at ease, marching back from drill—marching at ease, with rifles slung over their shoulders. They were singing, as is their wont—not all together, but by snatches—first one company, and then another catching up the refrain, which swelled up along the whole column. Faithful vs. Faithless Public Servants.

There is no compensation so grateful to a true man who has been entrusted with power and who has faithfully performed his duties as the commendation of those who gave him position. The ambition that does not seek and appreciate this compensation brings no lasting pleasure to its possessor, but turns to ashes on his hands. There is a vaulting ambition which overleaps itself, and which seeks its magistrates, to wit, what is called Free Licensing. The plan of the Liverpool borough bench has been to grant a law. Give us your methods of teaching; to you they may appear simple, hand we have had men who have been faithful to the end, and who left the world amid the tears and blessings of their fellow-citiens. Henry Clay was never false to a friend nor faithless to a principle; and men loved to honor him when living, and his memory is revered now that he is dead. Abraham Lincoln had no ambition that was not identified with fidelity to his principles, truthfulness to those who supported him, and devonition to his country, and who has left a richer legacy in cherished gratifued and love than legacy in cherished gratifued and love than a melancholy picture of human degradation and depravity in this I.
