GOLD .- There is now in the United States

Gold. — There is now in the United States Treasury gold amounting to \$93,000,000, S22,000,000 of which is represented by gold certificates. The Government daily receives from various sources gold amounting to over \$300,000. H. S. Astes and Robert Potter, Judge and Inspector of Elections in Nippenose township, Lycoming county, prosecuted for refusing the vote of James S. Stewart, on the ground that he had deserted the draft; have been tried and acquitted, County for costs. These seems to be a settled purpose on the part of the administration to get this country embroiled with both France and England, and for the express purpose of giv-ing the late rebels a chance to make their own terms of reconstruction, er to renew the struggle with fresh hopes.

 England, and for the express purpose of giv-ing the late rebels a chance to make their struggle with fresh hopes.
 The guillotine of the President is still brought into use in disposing of loyal office-holders, notwithstanding the stories and re-ports to the contrary. The assertion that no norse removals, will be made on account of political opinions is false. One hundred and thirty new postmasters were uppointed has week over the heads of old once.
 The Bocks County Italigencer of Teesdar has any:
 The Bocks County Italigencer of Teesdar big and inder station of the mathematic statistic begins with effects and statistical the angle of the statistical of the optimum and the statistical week over the heads of old once.
 The Bocks County Italigencer of Teesdar big and inder station of the instance we encode the optimum and the statistical the statistical the statistical the statistical attem the statistic begins and the statistical attem the statistic begins and the statistical and contempt of the United States and the County Italigencer of Teesdar bis as as it is and be found that the there and the statistical the statistical attem the statistical begins and the statistical and the statistical attem the statistical and contempt is the theory of the statistical attem the statistical and contempt is the theory of the statistical attem the statistical and contempt is the theory of the statistical attem the statistical and the statistical attem the statistical and the statistical and the statistical attem the statistical and the statistical and and the statistical attem the statistical and and the statistical attem the statistical attem the statistical attem as a king, he there of the statistical attem as a king, he there of the statistical attem as a king, he attem the statistical atthe successful publisher, ability, energy and industry, and he will we do not doubt, establish his paper on a firm basis of prosperity.

GOVERNOR ETRE, OF JAMAICA.-The Jamaica Committee in England, having taken malca Committee in England, having taken advice of counsel on the subject, have been informed that the report of the Royal Com-missioners furnishes sufficient grounds for an indictment for murder against Governor Eyre and the other persons concerned in the tive and execution of Mr. Gordon. The Com-mittee have, therefore, instructed their hav-yers to proceed forthwith with an indictment for murder against Governor Eyre. This is the sufficient of the Dilet dilet and the treasury, well well be one of the most important in British legal history. The New York Heraid takes the high and just ground that three-fourths of the leyal for adthering States are sufficient for the ratifica-tion of the paw constitutional amendment, and that it is the duty of Congress to pass enabling acts, under which the communities that seceeded from and fought to destroy the Union, and in their failure to do so became thereby subjugated, may be organized for the purpose of securing "republican governi-ment" to such of their inhisiontas swere the country. Ix addition to a Registry law for Schuyl-kill County, we want a law providing for the elections of Jury Commissioners who shall have entire control of the business of select-ing jurors. Let them be selected as inspect-ors of elections now are, and the machinery of justice can be mainly removed from the ratio of Jury Commissioners who shall have entire control of the business of select-ing jurors. Let them be selected as inspect-ors of elections now are, and the machinery of justice can be mainly removed for the pultical arena. We hope that these necesadvice of counsel on the subject, have been

here in the coal formation of Schuvikill County. 1, watched the operations at Dowlais with, regard to the iron ore. In fact, was invited to do so by Mr. Manelans, the intelligent manager of those works: from whom I. had a great deal of information. He told me that rail-road companies would buy nothing but steel rails in a short time. They use at Dowlais every week about 12,000 tons of coal. And I would remark that the iron works of South Wales, from Hirvain to. Pont y Pool, a distance of about 20 miles, produce 25,000 tons of fun-ished iron per week at least, and consume of 5,000 tons per year, exceeding by one and a half million of tons, the whole product of Schuylkill County in 1965.

IMPEACHING THE PRESIDENT. IMPEACHING THE PRESIDENT.We have printed a number of petitions
asking Congress to impeach the President.
These petitions ought to be filled up as rapid-
ly as possible, and poured into Congress
Throughout the West they are filling up pe-
titions rapidly.Number of petitions

(16,174)25.904<b prosperous again, and the South would be reconstructed on a just and permanent basis, in less than six mouths, if Congress would

of great importance to us here: they use at Dowlais a certain proportion of the same iron ore that we have

man who now occupies the Presidential chair. He has committed outrages sufficient to impeach at least half a dozen men, if these all from the other Regions for the week endoutrages were distributed among them. The impression is also rapidly gaining Region is upwards of 20,000 tons. If we are ground that Andrew Johnson had some not mistaken next week's shipments will knowledge of the intended murder of Abra- show a very large falling off. ham Lincoln, when it took place, which may in some measure, account for his so that even the coal that is sold cannot all making the inquiry whether it was ne- be shipped. cessary for him to be at the Inauguration, and for his drunken and beastly conduct on that occasion. It will recollected that the assassination was first fixed to take place at

the Inauguration. A common drunkard would have kept sober on such an occasion, if he had not a troubled conscience. A letter from Washington, published in an-

other part of this paper, to a Boston journal, in alluding to investigations made, will unquestionably startle the whole country. It will be recollected that when Andrew Johnson in his Proclamation declared that Jefferson Davis, Clay and others in Canada, were the instigators of the murder, they charged back immediately, that he Andrew Johnson was in all probability, more guilty than they were. - **-** -

WASHINGTON specials have been actively engaged lately in trying to humbug the public conerning the President's purposes, as modified by the elections recently held. The latest of these inventions describes the President as resolved to

The people of members of the Honse in order to put the people of members of the Honse in order to put the Honse of Representatives in the hands of met lately in rebellion against or evily disposed toward the Sovernment. FURTH, I charge Andrew Johnson with improperly, wijkedly and corruptly using and abusing, the consti-tutional power of pardons for offences against the Uni-ted States, and in order to bring traitors and rebels la-to places of honor, trust and profit, under the Govern-ment of the United States, and to screen whole classes of criminals from the penalities of their crimes against the laws thereof.

A Bostonian remarked the other day that he never saw a place where there is so much capital invested, where the spirit of enterprise to secure and enlarge business, is so meagre as here. We fear there is too much

truth in this. Business is slipping to other regions and running around and away from us, yet a fatal lethargy seems to possess the business community. A most important matter is additional railway communication with Eastern markets, yet what is being done? Positively nothing. Are we wise, business

men of Schuylkill, in thus acting? EFFECTS OF WINE ON DISEASE. —Dr. Gale ob-serves, in his treate on disease, that the great use of wine in France is said to have abated the provalence of the gravel. In the French colonies, where pure wine is more used than in the English, as well as in Turkey, where Port wine is the prin-oipal beverage, not only the goat; but the gravel are scarcely known. Dr. La Pote relates, as an extraordinary instance of the effects of the Port wine on gout, the case of Dr. Daveran, who was attacked with the goat at the age of 25, and had it severely till he was upwards of 50, with chalk-stones in the joints of his hands and feet, but for four years preceding the time when his case had been given to Dr. La Pote to lay before the pub-lic, he had by advice used Port wine, and had no return of the gout afterward.—London Poet. men of Schuylkill, in thus acting?

and in order to bring the matter more fully before all the people, we would suggest that public meetings be held in all the towns throughout the coal region as speedily as possible, setting forth the absolute necessity of cheaper outlets to market.

Auction Sale of 40.000 Tons Scrante Coal at New York, Nor. 27th, 1866.

inventions describes the President as resolved to cease opposition to Congress. We agreee with the Fittsburgh Gazette that it does not matter much, except on his own account, what the Pres-ident intends or does. The people have taken care of themselves and of their government. But, pray, of what avail is it to parade statements of the President's docility, while he is all the while turning Republicans out of office and put-ting the Worst sort of Copperheads in ? Does he imagine these appointees of his will be allowed to stand ? One of the first duties of Congress will be to send them all adrift, and to provide that such as they do not crawl back into snug places again under the government they have done so much to destroy A Bostroviaw remarked the other day that A Bostroviaw remarked the other day that again the to destroy A Bostroviaw remarked the other day that the to send the government they have done so much to destroy A Bostroviaw remarked the other day that the to send the story the sender the other day that the to destroy A Bostroviaw remarked the other day that the to send the sender the the other day that the to destroy A Bostroviaw remarked the other day that the to send the sender the the the other day that the to destroy A Bostroviaw remarked the other day that the to send the destrow A Bostroviaw remarked the other day that the to send the sender the the the the the ther day the the to the the the the the ther they that the to destrow A Bostroviaw remarked the other day that the the to the ther they there the the there the the the the there the the there the the the the there the the there there the the the there the the there the the there the the the the there there the there the the there the the there there the the the there there the the there the the there there the the there there the the there the the there the the there there the the there there the there there there there there there there there the there there there there there there there the ther
