SPEER'S PORT GRAPE WINE .- This new article of American Wine is meeting with uncommon fa-vor in European circles, and is highly esteemed by the best physicians in this country. The follow-ing is a testimonial we saw from the New York Hospital. We publish it for the information of our readers: New York, Nor. 14.

our readers: I am using Speer's Port Grape Wine, and find, it to be an excellent tonic and gentle stimu'ant, and as such I believe it preferable to the commor-cial port, and all other wines, as it possesses their, tonic properties without the deleterious effect cansed by their impurities. It is also very pala-table, and this is a recommendation to many, es-necially formales. ecially females. S. S. HARRIS, M. D., N. Y. Hespital.

This is an excellent article for family use, and for females. Our druggists have it for sale.

Add to the above. \$7,500,000, the amount of profit carned from coal by the North Pennsylvahia Rallroad, the Delaware Division Canal, the Susquehaman Canaly, the Bolaware Division Canal, the Susquehaman Canaly, the Morris Canal and the Central Railroad of New Jerey, and the amount set apart by the carrying companies to 'scontingent fund,'' and the profit will be' at least \$12,000,000; or a dollar a ton on the entire production of Anthractic coal. The 'trade," therefore, has not been so bad.' The consumers have paid a profit, but it has all gone m nearly 'one channel to wit: to the carrying companies. Had the operators heen allowed to make 50 cents a ton, they would have been soved from insolvency, and the laborers and miners they complex, would have been paid their interest and dividends of six per cent. Instead of ton. It does seem that this policy is killing the goose that laid golden eggs. The companies are pursuing a very short signed policy may near to do the? They are the pore to do this, and perhaps the right to manage their own business in their own way, but this policy may result in their going when all individends for a year or more, for the want of frade. If the men in the coal region are in a starving condition this winter. It will not be the fault, of their employers, nor because there is no profit in the roal trade, but because the pore portions have taken all the profit. nut because the corporations have have full the plotting leaving employers nothing to pay the wages they are liable for. Still, whatever the cause, the fact is that many men in Schuylkill County have not the means to support themselves and their families during the winter. Those who have meney must economize as much as possible, and spend it to the bestadvantage. It is said by those who are well informed, fast both laborers and miners refine to buy anything but the best quality of flour, which now is \$16 a barrel. This they have the right to do while they have the money, but in such thine sas-these they should ask whether they cannot buy for less money what will answer, their purpose quite as well. Flour at \$16 a barrel, this they have the right to rom well can be bought for 4 cents, just half the price, and yet there is more nutriment in a pound of meal, then a pound of flour. Mess pork is now selling for \$20 a barrel, or 10 cents a pound, while fresh beef is worth in Schuylkill Coun-try, 25 cents a pound. Yet it is said that the men, will not cat mess pork. If they must have fresh beef and euperfine flour, the wages they now receive will not go far towards supplying the wants of a family. Both mess pork and corn meal are given out to men in the army, and at present prices a family of four per-son s, getting each the same ration as is given, out in the 'army, including sugar, tes, coffee, sails do the such lururies will always be behindhand, and when hard, times come will have nothing to carry, him through them. Da Soursok-Dear Sir'.-I take pleasure in sending you a certificate in addition to many you have already received from suffaring humanity. I can scarcely find lang age sufficient to express my heartfelt gratifica-tion of the wonderful cures your MANDRAKE PILLS and SRAWEED TONIC have effected in the entire cure of one of the most ethoborn cases of the liver.--For three years I suffered beyond description ; all my friends, as well as myself, came to the conclusion that my time in this life was short. Such was the terrible condition to which I was reduced that life to me had become a burthen ; my whole system was in a state of infammaton; I could not each, I could not sleep; my whole body was filled with pain; awelling would arise in my wrists and ankles, rendering them totally use-less. On several occasions I was attacked with a rush of blood to the head, which would fell me to the ground, and I would be carried away for dead. I ap-plied to several eminent physiciane of our city, who administered all the medicines that they thought would reach my case, but of no avail. On them said he could do no more for me, and advised me, as a last resort, to drink cod liver oil --Accident pat your advertisement n my hands. I criled on you; you examined me and told me the ma-ture of my diseas. You then ordered in the Pills and Tonic with an observance of dic, pledging your word that in one week I would find myself another man. I followed your advectae and as you predicted, an astonishing cure was effected. Pattsville, December 15, 1866. The quantity sent by Railroad this week is 22,163 15-by Canal, 11,357 07-for the week 33,522 02 tons, against 55,258 for the corre-

sponding week last year. The trade continues dull; there being but few orders at Port Richmond, and after this week there will but few collieries in operation, until there is a sufficient advance in the

prices of coal to pay for its production. The trade by the canals has ceased in The trade by the canals has ceased 31 we will ever cherish his memory with affectionate re-consequence of ice. Even if the weather gard. Should moderate there will be no more ship-ments by the canals as the usual time for closing, irrespective of the weather, has ar-rived. The trade sums up this week as follows, compared with last year :
