Skating on the ice.

Here the old and youthful Meet on common ground. Here the gay and handsome

Evermore are found,
Here do fashiou's fairest.
Richest, gems abound:
Sober life, unheeding
In the merry round.

Clasping little fingers
Or a tiny waist,
How the pressure lingers
To the willing uset;
Casting loving glances
'Neath the moonbeam's light,
It's halo but enhances
The romantic plight.

Gentlemen in beaver
Skating very well,
In pursuit of yonder
Dashing city belle,
Who, with airs and graces,

Feigning some alarm, Slackened up her paces To take his proffered arm

"Oh! how smooth the ice is, What if I should fall!"

"Never fear, my fair one,
I am at your call;"
This no sooner spoken
Is love's tender tones,
Than the ice is broken,
A gallant she owns.

Then comes Mistress Shoddy On her shiny skates, Olose beside 'mobody'— Here are worthy matee, Next, a jeweled dandy, Sporting a moustache, Evidently handy, To cut a killing dash,

Here, a la "spread eagle,"
Lies a prostrate form,
Willing hand to help it,
Willing hearts so warm:
If 'twere some old matten,
Would the gallant swains
So swilly rush to rescue
With such tender pains!

Tightly strapping skate on, Rubbing frozen toes,

Rubbing frozen toes,
Putling some court-plaster
On a breken nose,
Knotting rainbow neck ties,
Setting jaunty caps,
Fastening ribbon streamers,
Adjusting all mishaps.

There are little side scenes Kept from ladies' cyes Could she see her escort It would cause surprise: Tippling in the bar room, Swearing at the cold, Criticising ankles In a manner bold.

Never mind such drawbacks, Never mind the frost, Whatsoe er's the fashion Is done at any cost; If, by chance, you stumble Tumble up again,

You must never grumble At your share of pain.

Skimming over the surface

Just as smooth as glass,
Hand in hand we're glvding,
Side by side we pass;
Time files very swiftly,
It is after dark,
Really its delightful—
Skating on the park

I will teach you to pierce the Bowels of the Earth, and bring out from the Caverus of Mountains Setals which will give strength to our hands and subject all Sature to our use and pleasure .- DR. JOHNSON.

I would particularly recommend my Triple Mining Chain, the most durable and, safe for mining purposes. It is the only kind used in Europe for mining. This Chain if properly used, will last five years, and is then only half worn out; by taking out the short links and sending them to the manufacturer, he will put in long links, and you then have a new chain, for about half price. For further particulars I refer you to the Duncan Colliery, Pottsville, Pa.

I will warrant my heavy Triple Chain to draw from 8000 to 4000 lbs: out of a slope 400 yards deep, or a perpendicular shaft of 250 yards deep.

It makes four different stitches, the lock, knot, double-lock and double-knot, on one and the same machine. Each stitch being alike on both eides of the fabric.
It has the reversible feed motion, which enables the operator, by simply turning a thumb-screw, to have the work run either to the right or left, to stay any part of the same, or fasten the ends of the seams, without turning the fabric.
Changing the length of the stitch, and from one kind of stitch to another, can readily be done while the machine is in motion.

Revery stitch is perfect in itself, making the seam secure and uniform.

SPEER'S PORT GRAPE WINE PURE AND FOUR YEARS OLD.

PRESCRIBED BY PHYSICIANS FOR Weakly Pe sons,

And Invalids The Great Remedy for Kidney Affections, RHEUMATISM,

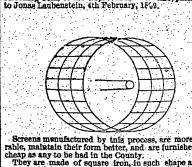

Speer's Port Grape Wine

Is a pure article from the juice of the Port Grape, possessing medicinal properties superior to any other wine in use, and an excellent article for all weak and debilitated persons, and the aged and infirm, improving the appetite, and benefiting ladies and children. Try it once, and you will not be deceived.

EFFE sure the signstance of ALFRED SPEER is over the cork of each bottle.

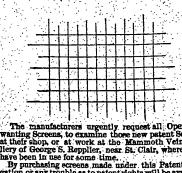

Sold by H. Saylor, Pottsville: Shindel & Bond, Tamaqua; Hermany & Alien, Mahanoy City: Lawrence & Brown, Minersville; H. N. Coxe, Schuykill Haven; H. B. Davis, St. Clair, and by all first class druggists, who also sell the CASTELIA PORT BRANDY, a choice old article, imported only by Mr. Speer, direct from the Valley of Oporto.

Trade anpplied by wholesale druggists in New York and Philadelphia, and by A. SPEER, at his Vineyard in New Jersey.

Screens munifactured by this process, are more durable, maintain their form better, and are furnished at cheap as any to be had in the County.

They are made of square iron, in such shape as to prevent the Coal sliding from one size to the other before it is thoroughly assorted, thus preparing it better than can be done by cast iron or wire screens.

Analysis of the Massachusetts State Assayer, January 25th, 1859.

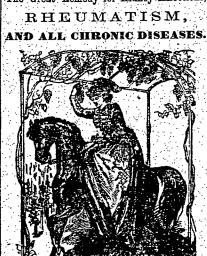

When evaporated through clean linen, it left no oil or offensive matter. In every respect it is a pure, spiritions liquor. The oil which gives to this Brandy its flavor and sroma, is wholly unlike fastl or grain oil.—Its odor partakes of both the fruit and oil of grapes. With acids it produces ethers of a high fragrance.—The substitution of this Brandy for Cognae Brandy, will do away with the manufacture of flettions spirits, sold under this name, both at home and abroad.

Respectfully,

A. A. HAYES, M. D.,

Assayer to State of Mass., 10. Boylston St.

IMPEACHMENT OF THE PRESIDENT.

A Letter from Wendell Phillips.

We touched last week on some considerations which show the value of an impeachment of the President, even if there were little hope of its re-ulting in a conviction.

But there are two very pressing reasons why every effort should be made to secure a conviction. Every anti-slavery man remembers viction. Every anti-slavery man remembers what a dead lock to all progress the Supreme or's mother. I was my wife's husband and court of the United States has been in times grandchild at the same time; and as the

past. Its Judges, appointed by a pro-slavery Executive, eelected from the most conservative class, holding their offices for life, and growing more and more fossil each year of advancing age; no effort short of revolution seemed able to resist their baneful power. To day that same Court stands the same immovable obstacle in our path. It is under-stood that five Judges out of the nime sup-port the President. It is said that they de-cided a year ago that the "fron clad oath" was unconstitutional, and all that the Chief Justice could do was to delay the formal an-nouncement of the decision. One of those Judges appointed by Lincoln has joined the enemy. This state of things is an almost insurmountable barrier to some measures which are indispensable to any safe and permanent reconstruction. But all men are mortal.
Two of these Judges are very old and other infirm in health. It is very probable that Mr.
Johnson may, within two years, have the appointment of two Judges, perhaps more. Of course his nominations are subject to the Senate's approval; but we all know he may select men of fair repute, but wedded to his policy, whom it would be impossible to prevent the Senate from confirming. Such is one of the dangers of leaving a Rebel at the head of the Government for two

it is fool-hardy, it is madness, to leave the criminal untouched and run all these risks. There is yet another consideration urging us in the same direction. The readiest, quickest way to seenre a true reconstruction seems to be this, for the first step at least;

On the transfer of the lot to Giddon, Mrs. Strupler expressed great satisfaction that there would be no sliop erected there, as her dwelling was adjoining and she and her husband united with him in selecting three neighbors to decide on the line between the two lots, about which there had been some dispute. While the building was in progress she expressed a desire that it should be hurried, lest the children should be hurried, lest the children should be hurried about the timbers; and at her suggestion Giddon altered his plans so as to avoid placing windows which would overlook her yard and kitchen. After the completion of the building the action was brought, without any tender of the money paid on the lot, or of what Giddon had expended in improving it. proving it. > WEIGHTS AND MEASURES. In the Word of God the subject of Weights and Measures is made one of vast importance. It is emphatically declared that a false balance is an abomination in the eyes of the Lord, while a just weight in His delight. When the children of Israel were leaving Egypt they received the strictest in-junctions on this subject, which therefore de-mand reverential treatment. For this reason we may regret the recent act of the United States Congress, which has endorsed the me-trical system devised in France, a system that they have long been endeavoring to foist up-on England. Still our own Government has endorsed this system without creating any opposition as yet. The reason why no opposition is manifested is simply because the cople have never made it a subject of study. The fact that the French metric system loes not represent the advanced science of for rejecting it, as Congress has left us at lib-
