If Congress entertains the schemes of the money changers they will only make the state of affairs worse. "Whenever the resumption of specie payments occurs, it will be brought about in one of two ways: either by the banks co-operating with the Treasury bepartment in wise and judicious measures to bring it about gradually and without disturbing industry; or, failing in this, it will be abrupily forced on the country by a public clamor, which, regardless of consequences, will no longer submit to contitious that imporerish the country for the benefit of importers, bankers, and the whole various and motiey tribe of speculators."

Let Congress calmly consider and govern their legislation accordingly. MR. BANDALL'S BILL. The most iniquitous and indefensible bill. that has been submitted to the present Congress is that of Mr. Randall proposing to limit the circulation of currency to that issued directly by the Government. This bill is a stroke at the existence of the national banks in the interest of brokers. The proposition cannot be received favorably by the people for it is to these institutions when not in the hands of mere shavers, the people look for protection. The people do not believe in uniting the purse and the sword, and placing hem in the hands of a corrupt Administration as would be the case if this bill of Mr. Randall should become a law. Under existing circumstances the greenback currency cannot be withdrawn from circulation without affecting the business interests of the country, but we think that all government notes should be withdrawn as soon as possible.-The founders of the republic were opposed to issueing notes directly by the Government, and we see no reason why it should now be

introduced, unless to please the Copperhead party which is endeavoring to destroy the national banking system found to work so Mr. Randall's bill has been framed in the most plausible manner, but it is a measure that owes its conception to the enemies of the interests of the people, and which would turn them over to the tender mercies of the shavers. To us it is surprising that Conadd another to the disgraceful catalogue of ingly. VALUABLE: RUSINESS STAND AND

BASIN PROPERTY FOR SALE—The subscriber being about to relivaguish business, will offer at private sale all that valuable basin property situate at Princeton Basin, on the Delaware and Raritan Canal, comprising extensive COAL YARDS, LUMBER YARDS, SHEDS, WHARVES, &c.

The above property offers inducements to those wishing to engage in the Coal and Lumber Trade seldom to be met with, being as good a stand to do a heavy Coal and Lumber business as is to be found in the State. There can also be a large business done in GHAIN AND FERTILIZERS, being about central between Trenton and New Branswick. A very large country trade centres here, and parties of capital could do a heavy business. Having been engaged in the business for the past ten years, it is my desire to relinquish it in the spring. I therefore offer the property with the good will, on reasonable terms.

Parties desiring any further information can obtain it by addressing me at Princeton, N. J., or by calling upon me at Princeton Basin.

In Delaware and Maryland, from \$5 to \$50 per acre.—
These farms lay between the Delaware and Chesapeake
Bay: convenient to mills, stores, sachools, churches,
&c. They are easy to cultivate, and with less labor
than farms in the Northern States, and are adapted to
grain, grass, fruit, &c. Fish and oysters abound in
the rivers; game of all kinds in aburdance. During
the past three years hundreds of the Northern farmers
have settled in these States on account of the low price
of land and the easy cultivation and low taxes. Persons destring to visit farms in these States can do so
by applying to or addressing the undersigned, who
makes a trip regularly, once a week to these States.—

Your petitioners respectfully represent that the perquisites of the Treasurer of Schuylkill County have during the past few years amounted to an enormous figure, even reaching in some years almost to the amount received by the President of the United States. During the past year the salary of the Treasurer amounted, as appears by the last Auditor's Statement, to over eight thousand dollars, which with other perquisites, it is known that he received, will swell it up to ten thousand dollars and upwards, while the salary of the State Treasurer is only \$1600. To pay these enormous perquisites of the Treasurer and other officers of this County, we, who are heavily burdened with additional taxes growing out of the war, have to suffer. In Berks County the Treasurer receives a fixed salary of feebler sex. In all cases of Female Debility, where \$1600, and in Lancaster, about \$2000. We pray you to pass a law placing the salary of our Treasurer there is a want of brisk vital action, the HITTERS produce a most important change relieving local at a fixed sum. We further pray that you will protect us from an unnecessary increase of the salaries of weakness, and re-establishing the general health. other officials of the County. And we will ever pray, &co.
