-"To organize hell Louisiana should bethat State !"

It is probable that a bill for the relief of desertel wives will be passed by the Legislature before its final adjournment. Under its provisions a deserting husband must support his wife and children or go to jail.

THE Reading Daily Dispatch condemns the Copperhead organ here for defending the robbers, out aws and cut-throats of the County. This community has long ceased to wonder at it, as every b dy here recognizes the fact that the organ simply discharges, a natural duty in defending its friends.

-----Is view of the outrages and robberies perpetrated almost daily in this County, and the consequent alarm felt, it is the duty of the Commissioners to offer large rewards for information that will lead to the detection. arrest and conviction of the guilty parties .--Our citizens would heartily approve of such a course.

FRED. DOUGLASS .- This eloquent champion of equal rights, had quit an ovation at the Michigan Capital. By a formal vote of the House of Assembly, he was invited to a seat on the floor, where he received the compliments of the members. - Our people are getting to have a practical conception of the adage : "Worth makes the man; the want of it the fellow."

Law and order we are glad to perceive, will be maintained in Tennessee. That intrepid patriot, Governor Brownlow, has issued a proclamation, aunouncing his determination to call out the militia to enforce the laws, and protect the Union men and all other citizens against evil doers. -----

MISSOURI is moving on the suffrage question. On Monday last the State Senate passed a bill; by a vote of 19 to 7. submitting to the people, at the next general election, anamendment to the Constitution to strike out the word "white." A similar proposition was introduced in the House, which was made the special order for Thursday.

A REGISTRY LAW, simple but effective, has been repared by a distinguished jurist of this State, and will in a few days, be submitted to the Legislature. It is intended as a general law, but inany event should be given to counties like Schuylkill, where the Copperheads on the occasion of every election perpetrate such glaring frauds. This law has been put into practical operation in Philadelphia, and has been found to work so well that the people there would not have it repealed on any consideration. Let us by all means, have a registry law before the Legislature adjourns.

THE FRENCH INDUSTRIAL EXHIBITION to be held in Paris, will be opened on the 1st of April and remain open until the 31st of October. The first exhibition was held in 1798, and the eleventh and last before this year in 1819. The building in which the forthcoming exhibition will be held will be nearly one third of a mile in length, and about a quarter of a mile in width. Twenty million of francs have been furnished to defray the expenses by the French Government, the city of Paris, and by private sub-

scription. THE LAST SCIENTIFIC TOY .- The last photographic novelty is in the shape of some cigar holder-made, of paper and quill, each showing a blank medallion, on which, however, a photograph is developed in a few moments when the holder is used for its intended purpose. It appears from experiment that the ammonia of the smoke is the developing agent, but the exact nature of the action as yet defies the sagacity of the most learned in photographic affairs. These articles are sold for a trifle, and form a good addition to our already long list of scientific

toys. INCREASE IN THE SIZE OF ENGLISH BLAST FURNACES.-The Journal of the Franklin Institute states that the English practice in construction of blast furnaces, seems to be going in the direction of increased size and a higher temperature. Dimensions of twenty five feet at the boshes and eighty feet in height, and temperatures of one thousand and fifty degrees and eleven hundred degrees, are em-

We have on hand the largest and best stock o Ready-Made Boys' Clothing in the City. Particular ittention paid to the making of Boys' Clothing to refer. It would be the cheapest way to disseminate such important information among the people. A bill should also be passed, compelling the publication in the principal papers of 1 each party in each county, of the county affairs, so that the tax-payers should not be deprived of the information by the party spite of some petty official whose prejudices

nonitie and the states of the are stronger than his brains. The second meeting of the Congressional Temperance Society on Sunday evening last in the Capitol at Washington, was as great a success as its predecessor. The large hall was crowded, cloquent speeches wero delivered by members of Congress and others, and the interest felt was very great. It is atisfactory to know that the cause of temperance has received a renewed stimulus by these grand demonstrations at the Capital. Gentlemen, Youths and Boys, and the deep interest which the prominent

THE EFFECT OF OUTRAGES IN SCHEVLKILL, COUNTY .- We have heard of several landholders who have invested hundreds of thousands of dollars in colliery improvements in this County, who propose to sell out in consequence of the insourity of life and property hero. If they cannot acceed in selling their collicries they will let them stand idle. This state of affairs affects all cinds of business, and the law-abiding citizens of the County are the sufferers. We are now en. oying the delights of Copperhead rule which with a shameless and degraded press, positively encourages this terrible state of affairs.

REV. T. DE WITT TALMAGE Of Philadelphia, delivered a powerful sermon on Sunday evening last, on the newspaper, in which he i hier

Said: I now declare that I consider the newspaper to be the grand agency by which the Gospel works proached, ignorance cast out, oppression dedironed, crime exiti-pated, the world raised. Heaver reforced, and God glo-rified. In the clanking of the printing press as the sheets fly out I hear the volce of the Lori A thinghty pro-claiming to all the dead nations of the earth, "Laza-rus, come forth." and to the retreating surges of dark-ness "Let there be light." PENNSYLVANIA LEGISLATURE. HARMISBURG, Feb. 26.—SENATE.—The Senato sectived numerous remonstrances from the ru-ral districts against running passenger railway ears on Sunday in Philadelaphia. Mr. Fisher read cars on Sunday in Philadelaphia. Mr. Fisher read an act to change the mode of granting licenses for the sele of intoxicating liquor. Mr. McCon-oughy, an act, to punish prize fighting in this State. The general railway law was considered in Committee of the Whole, and the committee was rofused leave to sit again. House.\_The House was engaged in the consid-eration of bills on the private calcudar, and vari-ous acts of incorporation passed first reading: Feb. 27.-SESATE.\_Bills on various subjects were introduced. Among them was one for the isane of registered bonds for the coupon holders of Pennsylvania.

**CHAPE VINES**. For general cultivation we can recommend the fol-lowing for this Region :- The DELAWARE, CON-CORD, DIANA, HARTFORD, PROLIFIC, ADIRON-DACK, RODGERS HYBRIDS, MAXATAWNY, WHITE, and Dr. Grant's celebrated JONA GRAPE, which is pronounced equal in quality to any foreign grape-also, his IBRAELLA GRAPE, which is superi-or to the Isabella. All these Grapes are hardy, and ri-per in this region before the isabella. As we are the agent of Dr. Grant in this County, we can furnish his vines genuine at his prices.
