THE Lynchburg Virginian, in an editorial expresses its indignation at the action of General Sickles, in compelling the firemen in the parade at Charleston, S. General Sickles' reconstruction policy might well be applied to the Virginian.

Exit Maximilian.—The government of Maximilian in Mexico is at an end. An official dispatch to Minister Romeo, Mexican Minister at Washington, brings information of the utter rout of the Imperialists and the Fain of complete power by the Republicans. Queretaro, at which the former were compelled to make their final stand, has been carried by the Republican forces, which have for some time been approaching it from every direction. Miramos, the ablest Mexican general in Maximilian's service, is dead; Marquez, second only to him in rank and ability, is routed; Maximilian is a fugitive and concealed, and his forces have been disbanded.

THE HORRORS OF MILITARY DES-Senator Dixon, on reaching his home and being duly serenaded, we are told by tolegram.

"Spoke of the South as in a state of Slavery under the Military bill, which placed in the hands of the fresident the lives of all the citizens without trial by jury."

We entreat the President not to hang ten or twenty thousand of those citizens "without trial by jury." It wouldn't look well. And beades, two Bens (Butler and Loan) are "after him with a sharp stick," termed impeachment, and a third (Wade) stands ready to step into his shoes. On the whole, therefore, we consider it t lerably safe that the President won't string the Southrons up like onions, even though the Military bill no pase.

Pottsyille. May 4th, 1857. F. W. BUGHES. VIA LEHIGH VALLEY RAILBOAD. ROTHERMEL & SHANER.

An examination of the above tables will show that the operators in the Lehigh re gion possess great advantages over the Schuylkill County operators, in the charges via the Lehigh and Morris Canals, compared with those charged via. Schuylkill Canal to New York. Under these circumstances, Schuylkill County can only send the coal to the New York market that the other regions cannot supply. If a through traffic road was built from this

region to New York, we could deliver coal at New York City at \$2 a ton, freight and toll and could pay at least ten per cent, on the investment. We know of no better opening for the investment of money in this Country. The tonnage is here, and as soon as the oad is built, it will be filled with trade as fast as the rolling stock could be put on. A brough traffic road confined to the transpor tation of coal and iron and merchandize, without passengers and way trade, could be favorably located without regard to towns, &c. Such a road could be built at a much less expense than other roads prepared for way freight and passengers, as all depots, and turcouts on the line could be dispensed with. and the rolling stock constructed expressly for such business. At a moderate rate of speed, say 7 or 8 miles an hour, there would be but few 'smash ups," and the wear and tear of track and machinery would not be onehalf of that on other roads carrying passengers and running the cars at a much greater speed. So advantageously are through traffic lines considered that in England, on the great thoroughfares, the Railroad Com-

panies are laying down tracks to be used ex pressly for through traffic. A few millions of dollars spent in the construction of such a road would secure to New York a monopoly of the Schuylkill County Coal Trade, and it would result in reducing the price of coal nearly one dollar a ton permanently in that market below the lowest rates at which House bill No. 1603, an act to lay out a State road in Schuylkill and Lebanon counties.

Senate bill No. 653, an act to incorporate the Washington Township mining. manniacturing and improvement company of Schuylkill county.

New York manufacturers could be supplied

with coal as cheap as it is now delivered at

the "sleepy manufacturers" of Philadelphia,

so far as regards fuel, iron, &c, which will

give them additional manufacturing advan-

READING AND WILMINGTON RAILROAD -Mr

Fernon, the editor of a Philadelphia paper,

has opened his batteries on this road, by

command of course. This is the best evi

dence of its advantageous location, other

wise it would not be assailed. As the dis

tance from Schuylkill County is only 98

miles, and to Philadelphia 93 miles, its su-

periority over Port Richmond as a shipping

port becomes manifest, particularly when the

Delaware is seldom obstructed by ice below

Wilmington. The grades too are favorable.

At no point will they be greater to overcome

than the grade from the Falls of Schuylkill

structed also at less than one half the capital

invested in the Reading Railroad, which will

give it tremendous advantages over its com-

petitor for the trade. One of the great draw-

backs that Schuylkill County encounters is,

that nearly all her winter trade is cut off, and

the collieries and men are compelled to stand

idle so long that it takes the profits of one-

fourth of the shipping season to make up

the expenses of the comparatively idle

months in winter. This road will also con-

nect with the Pennsylvania Central road at

Coatesville, leading to Philadelphia, and a

branch of about four miles would connect if

with the West Chester road, also leading to

Philadelphia. The engineers have entered

ipon the construction of the Reading and

Wilmington road, and the company have

agreed to extend the road to Reading; this

would leave only 36 miles to connect the road

with all the lateral railroads in Schuylkill

County. We learn also that the heavy capi-

talists at Wilmington and on the line of the

oad, are ready to aid in constructing this

road, as it will more than double the value

f their investments. We would therefore

uggest an early meeting of all those inter-

of Pennsylvania.

The recent sales show that the price of coal have reached the lowest point at which it can be sold, and purchasers abroad have concluded to hold back no longer from lay in supplies.

The aupply of Cumberland coal via the Baltimore and Ohio Railroad, show an increase of 43,087 tons up to May 1, over the supply to same period in 1866.

We learn that some objection has been made because we quote Hill & Harris' coal*

TO MANUFACTURERS OF IRON AND STEEL:
The Proprietors and Assignees of the several-letters
Fatant granted by the United States to Henry Bessemer and Robert Mushet, of England, and to William Kelly of this country, for certain Improvements in the Manufacture of Iron and Steel, having, for the purpose of avoiding all conflict of claims thereunder, consolidated their interests in said patents under a trustessable, styled. The Trustees of the Pneumatic or Bessemar Process of making Iron and Steel, the undersigned, the Trustees aforesaid, invite attention to the advantages of the above process; which can be fully and freely examined at the works of Messrs. Winshow & Griswold; at Troy, N. Y.

The great STRENGTH. TOUGHNESS, perfect HOMOGENEITY and comparative CHEAPNESS OF PRODUCTION, of the Piscusmatic or Bessemer Cast. Steel, as well as the enormous extent of its manufacture and use abroad, are too well known to require comment; and the undersigned are pleased to state that. Works have been, and others are now being creeted in different sections of the country, to simply, in part, the demand so rapidly increasing here for STEEL RAILS, AXLES, TIRES, BOILER PLATES, FORGINGS, &c., &c., made by their process.

ORGINGS, &c., &c., made by their process.
Licenses will now be issued on reasonable, terms to

THE LATEST NEWS. I'we Fenian Leaders to be Hung.-The In-dian Wars-Workmen's Strikes-Enter-esting Miscellany. cating ffliscellamy.

Burke and Doran two of the Fenian leaders, have seen convicted and sentenced to be hung in Dublin his month. We shall have all the Democrafic press in epasms over the Jefferson Davis habeas corpus with boat not one of them will lift its voice in favor of these two Irishmen about to die for "Wearing of the Green." although they claim to control and look after the Irish interess. or maisse, dated Fort Dodge, Kaines, April 31, an nouncing that on the 19th of April 19 General Hancock burned an Indian village consisting of three hundred lodges of Sioux and Casyesmes. He also states that six Cheyenne Indians were killed by a squad of cavalry about twenty-free miles from the fort.

Right and left we hear of strikes among the workmen of every kind throughout the convery, and of the cessation of work in consequence. In Ohicago and St. Lou s they have taken the form of imposing public demonstrations, and in many localities they have terminated in riots, suffering and bloodshed. Senstor Wilson, who, instead of Toombs, is calling the roll of the slaves of the South, has been heard from as far as Wilmington. Everywhere the degroeshear him gladly as he tells the story of their resease out of the land of bondage.

The records of the War Department show that fifty persons are now confined at the Dry Tortuges—nine citizens and forty-one soldiers Among the former are Mudd, Spangler, Arnold and O'Langhlin, who were implicated in the conspiracy against the life of the late President Lincoln.

Senator Billinofert: Lancaster county has reason to be proud of Hen. Esaisa Billingfelt who represents this district in the State Senate. We have closely watched his course both in the House and in the Senate, and can conscientionly write him down a good and faithful servant of the people. In integrity, he stands above even the breath of suspicion. He is always on the side of the result and the contract of the servant and the servant service. the people, and hence he is not a tavorite of the "ting" It would be well for Pennsylvania if all her Senators and Representatives were, in this respect, like him.—Lancaster Express. Without wishing to be invidious to other able and honest Senators, who gave their aid, we fully endorse the above. Schator Billingfelt stood nobly by the people of Schuylkill County, in obtaining the necessary legislation for suppressing the murders and lawlessness that have heretofore prevailed in Schuylkill County. Now Schuylkill County appears to be one of the most quiet. and law abiding counties in the State. We have been called upon to record but one or two outrages in this County, since the passage of the new Criminal Court and Police Bills. But strange as it may seem, notwithstanding this marked change, these robbers. and murderers seem to have friends in our midst, who are using their influence to nulli-

fy these highly beneficial laws, on a mere THE LUXEMBURG QUESTION TO BE SETTLED BY CONFERENCE AT LONDON. - A cable telegram rom London states that the King of Prussia has accepted the proposition of the Queen of England for a general conference of the great Powers at London, to settle the Luxemburg dispute on the basis of the neutralization of the Grand Duchy guaranteed by all the Powers represented at the conference. The conerence will meet on May 12th, and it has been agreed that in the meantime the fortress of Luxemburg shall be dismantled. A Paris dispatch says that it is officially stated that the Emperor has expressed his satisfaction

with the negotiations now in progress for the settlement of the Luxemburg question. Correction of Erroneous Impession in REFERENCE TO THE SUPPOSED PASSAGE OF CERTAIN BILLS.—There seems to be a prevailing impression in this State that the "New Fee Bill," and the bills allowing parties to testify before Court in their own suits, and repealing the State tax on personal property, passed both branches of the Legislature at the late session, and became laws. We have tion the best authority, that of ISAAC B. GARA. Esq, Deputy Secretary of the Commonwealth, that this is not the case in reference to either measure; and we deem it of importance that the public should so under-

stand it. Hence this correction of an errocous impression. THE trial of SUBBATT, one of the conspirators in the Lincoln assassination, will comnence in Washington on the 20th inst. Judge

FISHER will preside. LAW IN THE MINING COUNTIES. - We give on an ther page the act passed by the Legislature for he better government and the preservation; of he public peace in the mining districts of this state. This is the bill stigmatized by the maleylent opposition press as the "moss troopers" oill. By stamping it with this opprobrious epithet they apparently desire to excite opposition and incite riot. This bill will be seen on examination to be most carefully drafted—to go into operation only when the local municipal authorities are powerless to keep the peace or protect property; to limit the powers of the special police raised under it strictly to making arrests, and to essee the moment trouble cases. All prigners when taken are to be turned over t when taken are to be unned over to the laws thorities, to be dealt with according to the laws of the Commonwealth.

It is not intended in this State that the laws shall be set at defiance while we have a Republican administration. We shall have no Memphis or New York or New Orleans riots—no Zook or Temple murders in Pennsylvanis.—Philadelphia
