Friumphal Progress of J. Davis from
Regiress Monroe to Richmond. THE 'Spottswoop," Richmond, Va., May 13, '67. In castin a retrospective glance backered over the pathway uv the past, I kin see many mistakes which I hev made. I hevn't alluz made the most uv opportunities—I hev doubted when doubtin wuz a crime, and I hev stood shivrin on the brink and feered to lanch away, when on the tother side of Jordon waz pelf and profit. Our foresight isu't alluz ez good ez our hindsite. The great error uv my life wuz in not plungin headlong into the war ez a Confedrit Major General distinguishin myself for crocelty to Fedral prizners, and bein at the close uv the fratrisidle struggle reserved and embraced ez a long-los brother by the Northern people (lettin them kill fattid calves for me), and uv coorse bein the objeck uv sympathy (2 a marter by the Southern people. In this sitroashen a man hez two strings to his bow. He brings to his support the two extremes. He fetches together Horris Greely from one side and General Boregard from the tother they embrace, and standin onto both their shoulders he haz wat may be called a soft I waz led into these train uv reflections by the

experience I have hed with our sainted cheef, Jefferson Davis. I wuz sent hither by the President to see that everything wuz done for the comfort uv the illustrious man that cood be done, on the occashen uv his contemplated trip to Richmond. Partikelerly wuz I charged to see that everything calkelated to jar onto his sensitive feelins be removed-everything wich cood wound his sense uv hearin, seein or smellin. The great man had consentid to go. He hed bin, he felt, illegally, deprived uv liberty-unconstoochnelly in fact-and of he shood consult his own feelins he shood remain, but to forgive wuz divine. Viewin these perceeding in the lite uvan

apology he wood go. The day hed arrived. The steamer wuz at the Fortress, carefully prepared to receive its illns. trions burden. It hed bin thoroughly cleaned and fumigated, the cabins hed bin nooly furnisht, and speahl alterashens made for the President and party. There wez Yoonited States officers and soliers aboard, but out uv respeck for the feelins uv their illustrious "prizner," ez he is technically called, they keep theirselves carefully ut uv his site, that the color uv their uniforms might not awaken onpleasant reflecihens. So perfeck, indeed, wuz the arrangements, that the railin uv the boat, wich wuz originelly bloo, wuz kivered with gray cloth, and the eagle figgerhead uv the craft wuz sawed off. This wuz sejested by an eminent Conservative of Noo York, who hez a large Southern trade wich he didn't prejoodie by his course doorin the war. The ladies' cabin wuz orginelly assigned to the party, but a female passenger hed no more regard for the marter than to die on the passage, and they were deprived uv it. The Conservative merchant insisted that the corpse be chucked overboard, but Mr. Davis, with a magnanimity wich wnz alluz characteristic nv him, refosed. "No," sed he, "let her rest there. I kin endoor the inconvenience, severe as it is. It is but one more attempt to break my sperit." All the way up ther waz the most tetchin deference shown him. At every landin the people were assembled to greet him, with he acknowledged it with a condesenshen I never saw off the stage. He conversed but little on the passage up. Ez the boat wuz sweepin majestically past pints made historicle by the events uv the great

struggle; his eye would brighten, of they wur pints cz a Confedrit cood take pride in and girl pints cz a Content Content of the pints at wich ther hed The most considrit preparashens hed bin made for his resenshen. Ther wuz no irons outo him -the only guards in site wuz them wich wuz detailed to keep the crowd from approvin him, and a carriage wuz in readiness, into wich we seeted ourselves, and wuz driven at a dignified pace to that resort uv the aristocracy uv Vurginty—the Spottswood. Here more considerashen wuz shown. Mr. Davis bein averse to walkin up stairs, a suit uv rooms hed bin prepared for him on the fust floor, and the presense uv General Burton, uv the Fedral army, bein obnovabne, he wuz assigned by the ex-President a room at the further end uv the corridor. His nerves bein very sensitive, heavy mattin was laid down all the halls, and the servants uv the house wuz especially directed to wear list slippers, and to walk on their tip toes.

I wuz invited to his room, and wuz favored with a few minutes' conversashen with the first uv Amerikens. Glancin out uv the window his time, soft, grey eve restid on the roof uv Libby, the soft, grey eve restid on the roof uv Libby. carriage wuz in readiness, into wich we seeted tine, soft, greveve restid on the roof uv Libby. "L'es! lies!" sed he augrily, "Wat speshi lies hav you reference to?" askt I.

"Them wich waz publisht in the ecurrilous reports uv the committees uv a unconstooshnel Congriss regardin the treatment uv prizners in Libby. They asserted that the officers died becoz they hed but ten feet by two, for sleepin, washin, cookin and eatin. They hed that space and wat more wuz necessary? Why give 'em room to cook when they hadn't anythin to cook? Wherefore room to eat of they hedn't anythin to eat? No, its false. It wuzn't the crowdin that perdoost the mortality." Only wunst waz his buzzum wrung, and that the Government cood not pervent. He waz a standin at the winder, gazin out upon Richmond. his mind revertin to the time when it wuz the Capital nv his Confederacy, when a procession With a shrock uv anguish he buried his head in the curtine, and wept aloud. I rusht to the winder It wuz ez I feared. Filin clowly by wuz z percession ny niggers who bed past that way per-"Merciful Heaven!" sed he "hez it come to this?" and he wuz very reserved and deprest the ba'ance uv the day. The next day the President waz taken to the Court. Ez he entered the room and glanced pro idly over the awjence, it wood hev bin very difficult to hev decided whether he wuz a goin to try the Court or the Court him. But repressin hisself he took his scat. Techin solissitood

waz displayed in the Court room for his comfor A crack in the window casin let in a draft uv cold air; he shuddered and a shudder run thro the entire assemblage. The shudder uv the Conservative merchant from Noo York wuz trooly ar tistic Cotton wuz called for, when the Conservaative merchant's wife tore off one uv her buzzume and stufft the appertoor. Wuz ther ever more techin sacrifia? The President wept ez he beheld it. On assertainin the temperatoor wich best sootid his system, a thermometer wuz brot, and the room waz kept at that precise degree. There wuz sum triffin legal formalities gone through with, and the President's counsel made a motion that he be admitted to bail. There wuz a stir in the court. "Make it a million!" sed one, so that the craven North shel see how we kin take keer uv them we love!" but Judge Underwood fixed it at \$100,000, and brisk as bees, Schell, a Non York Dimocrat, several Richmond Dimocrate, and Horris Greely stept forrerd and signed it. Never shel I forgit the shout that assended ea Horris wuz a signio his name, "Three cheers for Jeffson Greely and Horris Davis—one and inseprable, now and forever, shouted one enthoosiastic Confedrit. the tin Little tied to his tale. Wat joy! Wat hap piness! When postericy speeks uv him they'll speek uv voo!" I coodent restrane myself no more. Bustin into tears I fell onto Greely's buzzum and we embraced. Ez he hedn't his spekticles on he sposed it wuz Davis hiseelf, and he bustid into tears also, and there wuz one nv the most strikin tabloos ever exhibited. ticularly well fenced close for them to run in, which there should be on every farm adjoining the homestead: then in summer they can get half their living by grazing, and will grow faster, and come up to be fatted in such a

healthy state that they will thrive and lay on flesh and fat better for the liberty they have enjoyed. Sows kept to breed will succeed in. raising more and better little ones for ranging about a small field, with a pond or stream of water running through it, and if all are accustomed to go to their own sty every night, and each lot be fed with some corn and grain, and the sows with some swill, &c., they will pay for the extra feed. The year before last I was on a place where there was no field or wood with a fence to prevent pigs from getting through or under, but there was a spacious yard into which the piggery opened, and every day the whole of them were turned into it. The last week in April a few acres of turnips were drilled on ridges drawn out on a poor sandy hill, which had become too weak to grow grain; about eight tons per acre of barnyard manure was covered in, and they came all right and did well. In the first week in July the bottoms were large enough to begin pulling, and the pigs had a one-horse cart load daily till the last week in September. The turnips were thrown about the yard and greedily devoured by the old and young, and they had nothing else till the corn was fit to husk, and no lot of pigs could have done better than they did, growing and keeping in good condition all the while, and towards the latter part of the time mentioned an extra load had to be occasionally fetched to them, on account of their increased size Some of these pigs were miserably poor and crippled through previous restraint, and being fed on boiled kiln dust and bran, too thin 944,543 15 to nourish them properly, but they recovered, ...1,162,308 81 and after harvest got very fat on corn and corn meal, mixed with steamed swedes However, though these turnips were pro-duced at little expense, for they were only hoed once over by one man, and horse hoed between the rows twice, yet of course it would be still cheaper to have the pigs graze. and the little they would require to help them with the grass would not cost so much as the turnips and the hauling them home. Thirtyfour of these pigs weighed from 260 lbs. to 420 lbs., the rest being in a very profitable state when I left the place. I do not advocate cooking white turnips for pigs under any circumstances, they are only fit for them raw, warm weather. Steamed swedes are good mixed with plenty of meal, but potatoes are

> in cold spells will cause them to thrive as well as in warm weather .- Country Gentleman. WHITEWASHING .- As the season for spring house-cleaning will soon set in, we give our readers an excellent recipe for making whitewash. Take a clean water-tight barrel, or other suitable cask, and put into it a half over it, boiling hot, and in sufficient quantity to cover it five inches deep, and stir it in water, and add two pounds of sulphate of zinc and one of common salt. These will cause the wash to harden, and prevent its cracking, which gives an unseemly appearance to the work. If desirable, a beautiful cream color may be added to the above wash. . a good pearl or lead color, by adding lamp. vine of ivory black. For fawn color, add four pounds of amber, Turkish or American -the latter is the cheapest-one pound Indian red, and one pound of common lampblack. For common stone color, add four pounds of amber and two pounds of lampblack. This wash may be applied with a common whitewash brush, and will be found

so much better that half the meal mixed with

them would feed as fast. Good winter quar-

ters is a great step in the right direction; the

sleeping apartment should run into a bank

under other buildings or not, as convenient,
