Thursday next will be the anniversary of the Declaration of American Independence. the ninety-first year since that immortal document was promulgated. Up to the time of the Rebellion, it was the custom to celebrate this national festival with parades, meetings, speeches, fireworks, etc., but the scenes of war and the stern realities spring-of boiling water, that it died on the 16th. brate this national festival with parades, ing therefrom, somewhat tempered the observance, and the old fashioned Fourth seemed in danger of passing away.

But we hope that this will not be the case. More than ever as a nation, we have occasion to celebrate our release from tyranny and oppression. In 1778 we threw off the yoke of the mother country which bore so heavily upon us-oppressive taxation without representation becoming to the colonists, unendu rable. Within the last five years we have thrown off another-yoke, as tyrannical, and far more disgraceful to bear, for it presented the anomaly of a republic tostering and pro-

his manners, and I love to dwell upon these pleasing traits. When impending danger threatened his country in April, 1861, he was among the first, as a member of the National Light Infantry of Pottsville, to respond to the call of duty, and both as a volunteer and afterward as an officer in the regular army, he rendered efficient service under the Stripes and Stars. For some time past he had been prosecuting his pro-fession, practising law in Maryland, and recently hold-ing an important: office under the Governor of that State. It was whilst attending to his civil duties, in idelity to his engagements, he met with the and accl-dent which so suddenly terminated his extence. In crossing a foot-bridge, af er night, one side of which the recent rains had parily washed away, a mis-step taken in the darkness, precipitated him a distance of nearly twenty feet in the water, from which, after so great a fall, rescore was hopeless.
