THERE can be no doubt that when the Indian troubles subside, and railway communication is established between Colorado and the East, those interested in mines in Colorado, will realize a rich return for their investments. They must however, have patience. The auriferous wealth of Colorodo is great, and the majority of the mining companies, will we believe, yet be successful, if their agents are good men and their machinery for reducing the ores, the best.

"THE WEEKLY INNOCENT OWL" is the name of a new "funny" paper published at 117 Nassau street, New York, by Edwin N. Bower. It is decidedly, the best effort in that line, we have seen emanate from "Gotham" for a long time, and if the editor continues to manage its columns with the ability displayed in the first numbers, the "Owl" will without doubt, be long lived and prosperous. It seems difficult to establish papers devoted to the humorous, in this country, but the faste for good publications of this character, is increasing, and conducted properly, there is no reason why the "Owl" should suffer the fate of so many of its predecessors-an early

Os the First Page of the Journal to day we publish a speech delivered by Judge Kelley after he returned from his late Southern tour. In it he gives a very interesting narrative of what he saw in the South, how he was received and listened to, and speaks of the impressions made upon his mind. He dwells with enthusiasm upon the rich reources, agricultural and mineral, of that section, and advises emigration to it and the investment of capital.

We might add to Judge Kelley's most admirable advice and views, the suggestion that Congress at its approaching July session, and we rejoice to know that more than a quorum has been secured for it, should see that three measures are firmly established in the nation- which we are deeply, and in fact, vitally inal policy. 1. Tweifth: That in the Hon. Henry W. Williams, of Allegheny county, we present to the people of Penn-sylvania an eminent jurist—one in every way well qualified for the responsible duties of the office of Judge of the Supreme Court; able as a lawyer: imperial, prompt and thorough as a judge; honest, upright, with-out suspicion as a man, and loyal and unwavering in his devotion to the cause of his country. The 'Gien Carbon'--under lease. which expires October. 1871--and "The Peaked M.-untain,"--the lease of which expired 1st of January, 1867, and which is now untenanted. There is ample capacity for a third colliery in the First or Sonthern Basin, whose op-erations for years would be above water level. It is satisfactory to know that t will remain in session long enough to settle the reconstruction question, even if it should take three months, instead of a few lays. THE rebels and copperheads are making lesperate efforts to have Gen. Sheridan renoved from his military command in Louislans, because he has the honesty to say that Stanbery's opinion opens the road to fraud and perjury. Now, the loyal people recognize Sheridan as the right man in the right place, and only regret that so vigorous and able, commander did not command the district during the New Orleans July massacre of last ear. Men like Sheridan must be sustained the interest of Reconstruction, and the eople through the press, meetings, convenions, etc., should demand his retention in a position in which he acts so decidedly for the relfare of the nation. ORPHANS OF SOLDIERS AND SAILOBS.

ORPHANS OF SOLDIERS AND SAILORS. In our paper of to-day will be found the announce-ment of the Riverside institute of Burlington county. N.J., for Soldiers and Saliors' Orphans. This liberal and splendid enterprise commends itself to an intelli-gent and humane public. From the Philade/Ipkia Eve-ming Telegraph we glean the following facts in rela-tion to the institution. It is founded for the purpose of gratuitously educating the sons of deceased Soldiers, and Seamen of the United States, and was incorporated on the St of April list. In order to rake funds for the maintenance of the Institution, the Washington Li-brary Company, charterid by the State of Pennsylva-nia, organized itself and perfected a plan which has re-ceived the endorsement of the highest legal anthority of this State and New Jersey. Their plan of action is to sell. certificates of membership at \$1 each. Fives series of fine steel-plate engravings have been issued, one of which will be given to every subscriber, in ad-dition to a present which is also ensured, (there being no erceptiona, and which will be awarded on the Stith-day of Goptember next, at the Academy of Masic or at the Institute. The presents to be awarded consists of Forty Thousand, Teo Thonsand, Stive Thousand, and two of Twenty-Five Hundred Dollars, all in green-backs, together with real estate, bornes, camel's hait, lace and Cashmere shawa, dress patterns, silver ware, and an endiesa, yariety of other goods of great value.
